

CHAPTER 9.00 - TRANSPORTATION SERVICES

9.25 - Use of School Vehicles

POLICY:

School Board vehicles assigned to employees for transportation are to be used for official business only. Such vehicles may be brought home if it is found that it would be more economical to do so or if the need is such that utilization of such vehicles and employees might be needed in emergencies when the employee is off duty.

Employees who are assigned vehicles on a full-time basis will submit monthly vehicle usage logs to the Coordinator of Transportation. Those logs will then be submitted to the Assistant Superintendent of Administration/Support Services for review and permanent filing.
