Career and Technical Education (CTE) provides Programs, composed of courses, from one of 17 Career Clusters. The state of Florida has organized Programs into the follow Career Clusters:

Agriculture, Food, & Natural Resources

Architecture & Construction

Arts, A/V Technology & Communication

Business Management & Administration

Education & Training

Energy

Engineering & Technology

Finance

Government & Public Administration

Health Science

Hospitality & Tourism

Human Services

Information Technology

Law, Public Safety & Security

Manufacturing

Marketing, Sales, & Service

Transportation, Distribution, & Logistics

The **bold** are career clusters that the School Board of Levy County offers Programs. Program offered at each school are listed on the pages that follow. Each Program is made up of courses that students take in sequence. All courses have specific Standards and Benchmarks listed in the Curriculum Frameworks. The Curriculum Frameworks are updated annually and posted on the FLDOE Career and Technical Education website.

CTE Programs are linked to an Industry Certification and to an Articulation Agreement with a postsecondary institution. Industry Certifications provide weighted funding, acceleration points in the school grade, and may provide college credit towards an A. S. Degree. All information about industry certification is posted on the FLDOE Career and Technical Education CAPE Secondary website.

CTE course may count for a Practical Arts or as an EQ or Equally Rigorous course. It is very important that you refer back to the current Course Code Directory EACH year to see if a course counts as a PA or EQ. EQ means that the course can count as a Science Credit. However, please note that for Florida Bright Futures eligibility the only EQ that the School Board of Levy County currently offers is Agriculture Foundations. There are other courses that count as Equally Rigorous that will give a student a Science Credit BUT it will not count towards their Bright Futures eligibility.

Gold Seal and Gold Seal CAPE are two Bright Futures Scholarships that were designed to promote completion of CTE programs. Students must have three consecutive courses in a single CTE program with an "A" average, along with other eligibility requirements, to qualify for this Bright Futures Scholarship. It will be important to refer to the Bright Futures website annually for full details.

AGRICULTURE, FOOD & NATURAL RESOURCES

Middle School Courses

<u>Business Course Sequence</u>	<u>Course #</u>	
6 th Grade:		
Business Keyboarding	8200110	Semester Course
7 th Grade:		
Business Leadership Skills	8200120	Semester Course
8 th Grade:		
Computer Applications in Business 1	8200520	Semester Course
Computer Applications in Business 2	8200210	Semester Course
Coding Fundamentals	9009200	Semester/Year Long

Must offer beginning in the 2018-2019 school year. State requirement to offer Computer Science through House Bill 495 that amended Florida Statute 1007.2616. Can be used to replace your 7th or 8th grade course, school/teacher decision as to whether to offer in place of Business Leadership or in place of Computer Applications in Business

BMHS has a different middle school sequence of courses. This is based on the need to prepare students for the high school Gaming/Simulation/Animation Programming Program that is offered at BMHS.

For middle school courses the Course # and the Program # are the same number.

Option:

Digital Information Technology 8207310 Full Year = 1 HS Credit
At Bronson and Williston you will need to use the Program # 8212500 since your middle school feeds into the high school Administrative Office Specialist Program. At Chiefland use the Program # 8209600

Agriculture Course Sequence

6 th Grade:		
Introduction to Agriscience	8100120	Semester Course
7 th Grade:		
Exploration of Agriscience	8100210	Semester Course
8 th Grade:		
Orientation to Agriscience	8100310	Semester Course

Options:

Fund. of Ag., Food, & Nat. Resource Services 8021400 Year Long Course
Intro. to Ag., Food, & Nat. Resources 8021100 Semester Course
Ag. Foundations 8106810 Full Year = 1 HS Credit
Since Ag. Foundations is a high school credit course you will need a Program number to go with this course number. The program number will depend on what Program your high school offers.

All students are allowed to participate in CTE Programs of Study. The School Board of Levy County does not discriminate on the basis of race, color national origin, age, disability, or sex. Students cannot be excluded or treated differently because of race, color, national origin, age, disability, or sex. All programs are open enrollment, with the exception of the Health Academy. There is an application process for the Health Academy due to area clinical requirements and availability.

CAPE Coding Information

School	Career & Professional Academy Identifier	Career Academy Participant Code	Career & Professional Academy Name	Industry Certification Name and Code

0091	011	H	Health Academy for Nursing Assistant Program (Allied)	Certified Nursing Assistant (FDMQA002) Emergency Medical Responder (IEMSR001)

Additional Guidance Information

CTE courses that meet requirements for Performing/Practical Arts, Science Credit, Bright Futures, weighted, etc. are subject to change from year to year. Legislation passed in one year may impact course coding and criteria. For that reason, it will be important to refer not only to the Course Code Directory for the year the course is taken but also to the Guidance Handbook that is published yearly.

Course Code Directory, for multiple years can be located on the FLDOE website

<http://www.fl DOE.org/policy/articulation/ccd/>

Florida Counseling for Future Education Handbook is updated annually and will guide you through requirements for graduation and which courses meet graduation requirements and Bright Futures Requirements. The Handbook is located on the FLDOE website under the Graduation Requirements tab. Please download each year and save to your desktop or print out and keep on your desk.

<http://www.fl DOE.org/schools/family-community/activities-programs/just-for-parents-community/high-school-education-resources.html>

Some industry certifications can count for a Math or Science credit. That information is listed in the above mentioned handbook. The language indicates “certifications approved by your district”. For our school district that would be the certifications listed on the “Gold Standard Certification List”, these are certifications that provide state-wide articulated college credit. This list is on the District CTE website. The CTE website can be located under the “Departments” tab on the School Board of Levy County website.

Data Entry Notes

Data Entry Clerks need to ensure that the Program Number and the course number are both used for CTE courses that earn high school credit. Middle course courses do not have Program numbers, only course numbers.

When coding CTE information you should be able to use this document to locate all information you may need. Program Number, Course Number, OCP, Industry Certification Code, etc.
