School District of Levy County

School Administrator Evaluation System

Updated August 6, 2018

Purpose

The purpose of this document is to provide the district with a template for its school administrator evaluation system that addresses the requirements of Section 1012.34, Florida Statutes (F.S.), and Rule 6A-5.030, Florida Administrative Code (F.A.C.). This template, Form AEST-2018, is incorporated by reference in Rule 6A-5.030, F.A.C., effective April 2018.

Instructions

Each of the sections within the evaluation system template provides specific directions, but does not limit the amount of space or information that can be added to fit the needs of the district. Where documentation or evidence is required, copies of the source documents (e.g., rubrics, policies and procedures, observation instruments) shall be provided at the end of the document as appendices in accordance with the Table of Contents.

Before submitting, ensure the document is titled and paginated.

Submission

Upon completion, the district shall email this form and any required supporting documentation as a Microsoft Word document for submission to DistrictEvalSysEQ@fldoe.org.

Modifications to an approved evaluation system may be made by the district at any time. Substantial revisions shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.

Table of Contents

Part I: Evaluation System Overview	4
Part II: Evaluation System Requirements	4-6
Part III: Evaluation Procedures	7
Part IV: Evaluation Criteria	8-23
A. Instructional Leadership	8-17
B. Other Indicators of Performance	17-21
C. Performance of Students	21-22
D. Summative Rating Calculation	22-23
Appendices	24-121
Appendix A – Evaluation Framework Crosswalk	24-26
Appendix B - Observation Instruments for School Administrators	27-115
Appendix C – Student Performance Measures	115-120
Appendix D – Summative Evaluation Forms	120-121

Part I: Evaluation System Overview

In Part I, the district shall describe the purpose and provide a high-level summary of the school administrator evaluation system.

The primary purpose of evaluation is to ensure the quality of instructional services to support student learning and achievement. Levy County School Leaders will be evaluated using the FSLA, the Florida state model for principal evaluation, the summative annual performance level is based on two factors:

- **Leadership Practice Score**: An assessment of the leader's proficiency on the Florida Principal Leadership Standards (FPLS). This is based on two possible metrics:
 - o The Florida School Leader Assessment (FSLA): A system for feedback and growth based on the leader's work and impact of that work on others. The FSLA contributes 100% of the Leadership Practice Score or 80% if a Deliberate Practice is used.
 - o Deliberate Practice (DP): Deep learning and growth on a few very specific aspects of educational leadership. The DP Score contributes 20% of the Leadership Practice Score, if used. This is an optional scoring metric.
- Student Growth Measures Score (SGM): The performance of students under the leader's supervision represents 34% of the annual performance level. The specific growth measures used and "cut points" applied must conform to Florida Statutes and State Board rules.

Part II: Evaluation System Requirements

In Part II, the district shall provide assurance that its school administrator evaluation system meets each requirement established in section 1012.34, F.S., below by checking the respective box. School districts should be prepared to provide evidence of these assurances upon request.

System Framework

- ☑ The evaluation system framework is based on sound educational principles and contemporary research in effective educational practices.
- ☑ The observation instrument(s) to be used for school administrators include indicators based
 on each of the Florida Principal Leadership Standards (FPLSs) adopted by the State Board of
 Education.

Training

- ☐ The district provides training programs and has processes that ensure:
 - Employees subject to an evaluation system are informed of the evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place; and
 - Individuals with evaluation responsibilities and those who provide input toward evaluations understand the proper use of the evaluation criteria and procedures.

Data Inclusion and Reporting

☑ The district may provide opportunities for parents and instructional personnel to provide input into performance evaluations, when the district determines such input is appropriate.

Evaluation Procedures

- ☑ The district's system ensures all school administrators are evaluated at least once a year.
- ☑ The district's evaluation procedures comply with the following statutory requirements in accordance with section 1012.34, F.S.:
 - > The evaluator must be the individual responsible for supervising the employee; the evaluator may consider input from other personnel trained on the evaluation system.
 - > The evaluator must provide timely feedback to the employee that supports the improvement of professional skills.
 - > The evaluator must submit a written report to the employee no later than 10 days after the evaluation takes place.
 - The evaluator must discuss the written evaluation report with the employee.
 - > The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
 - ➤ The evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
 - > The evaluator may amend an evaluation based upon assessment data from the current school year if the data becomes available within 90 days of the end of the school year.

Use of Results

- ☑ The district has procedures for how evaluation results will be used to inform the
 - ➤ Planning of professional development; and
 - > Development of school and district improvement plans.
- ☑ The district's system ensures school administrators who have been evaluated as less than effective are required to participate in specific professional development programs, pursuant to section 1012.98(10), F.S.

Notifications

- ☑ The district has procedures for the notification of unsatisfactory performance that comply with the requirements outlined in Section 1012.34(4), F.S.
- ☑ The district school superintendent shall annually notify the Department of Education of any school administrators who
 - > Receive two consecutive unsatisfactory evaluation ratings; or
 - Are given written notice by the district of intent to terminate or not renew their employment, as outlined in section 1012.34(5), F.S.

District Self-Monitoring

- ☑ The district has a process for monitoring implementation of its evaluation system that enables it to determine the following:
 - > Compliance with the requirements of section 1012.34, F.S., and Rule 6A-5.030, F.A.C.;

- > Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability;
- > Evaluators provide necessary and timely feedback to employees being evaluated;
- > Evaluators follow district policies and procedures in the implementation of evaluation system(s);
- > Use of evaluation data to identify individual professional development; and,
- > Use of evaluation data to inform school and district improvement plans.

Part III: Evaluation Procedures

In Part III, the district shall provide the following information regarding the observation and evaluation of school administrators. The following tables are provided for convenience and may be customized to accommodate local evaluation procedures.

 Pursuant to section 1012.34(3)(b), F.S., all personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place. In the table below, describe when and how school administrators are informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process.

Personnel Group	When Personnel are Informed	Method(s) of Informing
School Administrators	First Administrator Meeting of each school year	A whole group meeting held at the beginning of the school year to explain and review evaluation criteria, both general and specific, that will be utilized to evaluate the school administrator.

2. Pursuant to section 1012.34(3)(a)3., F.S., evaluation criteria for instructional leadership must include indicators based upon each of the FPLSs adopted by the State Board of Education. In the table below, describe when and how evidence of demonstration of the FPLSs is collected.

Personnel Group	When Evidence is Collected	Method(s) of Collection
School Administrators	Ongoing throughout the year	Deliberate Practice discussion (if applicable), informal observations, administrator conferences such as self-assessment conference, mid-year evaluation, summative evaluation conference, and various discussions throughout the year.

3. Pursuant to section 1012.34(3)(a), F.S., a performance evaluation must be conducted for each employee at least once a year. In the table below, describe when and how many summative evaluations are conducted for school administrators.

Personnel	Number of	When Evaluations Occur	When Evaluation Results are
Group	Evaluations		Communicated to Personnel
School Administrators	1	When available student growth data becomes available	As soon as possible after the student growth data becomes available

Part IV: Evaluation Criteria

A. Instructional Leadership

In this section, the district shall provide the following information regarding the instructional leadership data that will be included for school administrator evaluations.

- 1. Pursuant to section 1012.34(3)(a)3., F.S., at least one-third of the evaluation must be based upon instructional leadership. In Levy County, instructional leadership accounts for 66% of the school administrator performance evaluation.
- 2. Description of the step-by-step calculation for determining the instructional leadership rating for school administrators, including performance standards for differentiating performance.

Summative Performance Evaluation Calculation

1 st Component	Leadership Practice	Oyerall	Percent
	Deliberate Practice (optional, 20% if used) Florida School Leader Assessment (FSLA)	}	66%
2 nd Component	Student Growth Measures (SGM)		34%

How to Score the FSLA

About the FSLA Scoring Process

The state scoring model has these features:

- The performance labels used in Section 1012.34, F.S. for summative performance levels are also used in the FSLA to summarize feedback on domains, proficiency areas, and indicators:
 - o Highly Effective (HE)
 - o Effective (E)
 - Needs Improvement (NI)
 - o Unsatisfactory (U)
- Direct Weighting: The FSLA score is based on ratings for each of four domains, but the system specifically gives added weight to Domain 2: Instructional Leadership: The weights are:
 - o Domain 1: Student Achievement: 20%
 - o Domain 2: Instructional Leadership: 40%
 - o Domain 3: Organizational Leadership: 20%

- o Domain 4: Professional and Ethical Behavior: 20%
- Embedded Weighting: The use of Domain scores to generate an FSLA score results in embedded weighting as the Domains have different numbers of indicators. For example: Domain 1 has eight indicators, Domain 3 has 16 indicators and Domain 4 has four indicators. The result of this is:
 - Domain 2 indicators have the most impact on the FSLA results due to direct weighing. There are 17 indicators, but the Domain is weighted at 40%, thus magnifying the impact of that domain on the final rating.
 - Domain 4 has the next highest level of impact due to embedded weighting. There are only four indicators in this Domain, but the Domain contributes 20% of the FSLA score
 - Domain 1 has more impact than Domain 3 since Domain 1 has eight indicators and Domain 3 has 16 indicators, but each Domain contributes 20% of the FSLA score.
- Proficiency on Indicators leads to an FSLA Score.
 - Ratings on indicators (using rubrics in the FSLA) are combined to generate a rating (HE,E, NI, or U) on each Proficiency Area.
 - Ratings on Proficiency Areas are combined (using the tables in this scoring guide) to generate a Domain Rating.
 - Ratings on Domains are combined (using tables in this scoring guide) to generate a FLSA score.

How to determine an FSLA Score

Generating a score for the FSLA has four steps:

Step One: Rate each Indicator.

Start with judgments on the indicators. Indicators in each Proficiency Area are rated as HE, E, NI, or U based on accumulated evidence.

- ➤ The FSLA supports this indicator proficiency rating process with <u>rubrics</u> for distinguishing between the levels (HE, E, NI, or U) that are specific to the indicator.
- ➤ To guide the rating decision, <u>illustrative examples</u> of leadership actions and illustrative examples of impacts of leadership actions are provided.
- ➤ The rubrics for indicators and the illustrative examples are found in the "long forms" the Data Collection and Feedback Protocols" posted on www.floridaschoolleaders.org (in the Learning Library, Resources Menu: Evaluation Resources School Leaders).
- Ratings can be recorded on the long form or the short form (all FSLA forms and supporting resources are found on www.floridaschoolleaders.org).

Rating Labels: What do they mean?

The principal should complete a self-assessment by scoring each of the indicators. The evaluator also will score each of the indicators. In an end-of the year conference, their respective ratings are shared and discussed. The evaluator then determines a final rating for each indicator and, using the procedures in this scoring guide, calculates an FSLA score.

Indicator ratings:

When assigning ratings to indicators in the FSLA, the evaluator should begin by reviewing the indicator rubrics. These are "word-picture" descriptions of leadership behaviors in each of the four levels of leadership behavior—"Highly Effective", "Effective", "Needs Improvement", and "Unsatisfactory." The evaluator finds the level that best describes performance related to the indicator.

The rating rubrics provide criteria that distinguish among the proficiency levels on the indicator. The illustrative examples of Leadership Evidence and Impact Evidence for each indicator provide direction on the range of evidence to consider. The rating for each indicator is the lowest rating for which the "word-picture" descriptors are appropriate and representative descriptions of what was observed about the leader's performance.

The ratings on the indicators aggregate to a rating on the Proficiency Areas based on tables in this guide. The ratings on the Proficiency Areas within a Domain aggregate to a domain rating, using tables and formulas in this scoring guide.

The FSLA rubrics are designed to give principals a formative as well as a summative assessment of where they stand in all leadership performance areas and detailed guidance on how to improve. While they are not checklists for school visits by the principal's supervisor, they do reflect the key behaviors about which supervisors and principals should be conversing frequently throughout the year. Moreover, these behavioral leadership descriptions will form the basis for principal and supervisor coaching and mentoring sessions.

Distinguishing between proficiency ratings:

The "Highly Effective" level is reserved for truly outstanding leadership as described by very demanding criteria. Performance at this level is dramatically superior to "Effective" in its impact on students, staff members, parents, and the school district. Highly effective leadership results from recurring engagement with "deliberate practice." In brief, the "Highly Effective" leader helps every other element within the organization become as good as they are. In normal distributions, some leaders will be rated highly effective on some indicators, but very few leaders will be rated highly effective as a summative performance level.

The "Effective" level describes leadership performance that has local impact (i.e., within the school) and meets organizational needs. It is adequate, necessary, and clearly makes a significant contribution to the school. The majority of the leadership workforce will be in the effective area once they have a clear understanding of what the FPLS require and have made the adjustments and growth necessary to upgrade performance. The previous rating system of "satisfactory" and "unsatisfactory" does not provide any

guidance as to where those who repeat past performance levels will fall in the shift to research and standards-based assessments. Both school leaders and evaluators should reflect on performance based on the new FPLS and the rubrics of the FSLA.

The "Needs Improvement" level describes principals who understand what is required for success, are willing to work toward that goal, and, with coaching and support, can become proficient. Needs improvement rating will occur where expectations have been raised and standards made more focused and specific. Professional behavior and focused professional learning will guide school leaders toward increasingly effective performance.

Performance at the "Unsatisfactory" level describe leaders who do not understand what is required for proficiency or who have demonstrated through their actions and/or inactions that they choose not to become proficient on the strategies, knowledge bases, and skills sets needed for student learning to improve and faculties to develop.

Step Two: Rate each Proficiency Area.

Ratings on the indicators in a Proficiency Area are combined to assign a proficiency level (HE, E, NI, or U) to a Proficiency Area: The distribution of indicator ratings within a Proficiency Area result in a Proficiency Area Rating. Since the number of indicators in a Proficiency Area varies, the following formulas are applied to assign Proficiency Area ratings. For each Proficiency Area, use the appropriate table.

Table 1

14.010
For Proficiency Areas 1,2,5,7,9 and 10 with four Indicators , each Proficiency Area is rated:
Highly Effective (HE) if: three or more indicators are HE and none are less than E.
Examples: HE+HE+HE=HE HE+HE+E=HE
Effective (E) if: at least three are E or higher and no more than one are NI. None are U.
Examples: E+E+E+HE=E E+E+ENI=E E+E+E+E=E
Needs Improvement (NI) if: Criteria for E not met and no more than one is U.
Examples: E+E+NI+NI=NI HE+HE+NI+NI =NI HE+E+U+NI=NI
Unsatisfactory (U) if: two or more are U.
Examples: HE+U+U+HE=U E+NI+U+U=U E+E+U+U=U

For the Proficiency Areas with fewer or more than four indicators, use the appropriate table

below:

Table 2

For proficiency Area 3 with six Indicators , each Proficiency Area is rated:				
Highly Effe	ctive (HE) if: four or mo	ore indicators are HI	and none are less t	han E.
Examples:	HE+HE+HE+HE+HE=HE	HE+F	IE+HE+HE+E+E=HE	
Effective (E)) if: at least four are E or h	igher and no more tha	an two are NI. None ar	e U.
Examples:	HE+HE+E+E+E=E	E+E+E+E+NI+NI=E		
Needs Imp	rovement (NI) if: Criter	ia for E not met and	no more than two a	re U.
Examples:	HE+HE+NI+NI+NI+NI=NI	NI+NI+NI+NI+U+U=NI	E+E+E+NI+NI+NI=NI	HE+HE+E+E+E+U=NI
Unsatisfactory (U) if: two or more are U.				
Examples:	HE+HE+HE+HE+U+U=U	NI+NI+NI+NI+U+U=U	•	

Table 3

For Proficien	cy Area 4 with seven Ind	icators, each Proficien	cy Area is rated:
Highly Effec	tive (HE) if: five or mor	e indicators are HE a	nd none are less than E.
Examples:	HE+HE+HE+HE+HE+E+E=HI	E	
Effective (E)	if: at least five are E or hig	gher and no more than	two are NI. None are U.
Examples:	HE+HE+E+E+E+NI+NI=E	E+E+E+E+E+NI+NI=E	
Needs Impr	ovement (NI) if: Criteria	a for E not met and no	o more than two are U.
Examples:	E+E+E+E+NI+NI+NI=NI	HE+HE+E+E+E+U+U=NI	HE+HE+HE+HE+HE+U=NI
Unsatisfacto	ry (U) if: two or more a	ıre U.	
Examples:	HE+HE+HE+HE+U+U=U	NI+NI+NI+NI+N	I+U+U=U

Table 4

For Proficiency Area 6 with five Indicators , each Proficiency Area is rated:		
Highly Effective (HE) if: four or more indicators are HE and none are less than E.		
Examples: HE+HE+HE+HE=HE HE+HE+HE+E=HE		
Effective (E) if: at least four are E or higher and no more than one are NI. None are U.		
Examples: E+E+E+E=E HE+HE+E+E+E HE+E+E+E+NI=E E+E+E+E+NI=E		
Needs Improvement (NI) if: Criteria for E not met and no more than one is U.		
Examples: HE+HE+NI+NI+NI=NI E+E+NI+NI+U=NI NI+NI+NI+NI+U=NI		
Unsatisfactory (U) if: two or more are U.		
Examples: HE+HE+U+U=U NI+NI+U+U=U		

Table 5

For Proficiency Area 8 with three Indicators , each Proficiency Area is rated:
Highly Effective (HE) if: two or more indicators are HE and none are less than E.
Examples: HE+HE+HE HE+HE+EHE
Effective (E) if: two or more are E or higher and no more than one is NI. None are U.
Examples: E+E+E=E E+E+HE=E E+HE+NI=E HE+HE+NI=E
Needs Improvement (NI) if: Criteria for E not met and no more than one is U.
Examples: NI+NI+NI=NI NI+NI+U=NI HE+E+U=NI HE+NI+NI=NI
Unsatisfactory (U) if: two or more are U.
Examples: HE+U+U=U NI+U+U=U

When you have a rating (HE, E, NI, or U) for each Proficiency Area in a Domain, you then generate a $\,$ Domain rating.

Step Three: Rate Each Domain.

Domains are rated as HE, E, NI, or U based on the distribution of ratings on Proficiency Areas within the Domain. The tables below provide rating criteria for each FSLA Domain.

Table 6

Domain Rating	Domain I: Student Achievement (Two Proficiency Areas)
Highly Effective if:	Both Proficiency Areas rated HE
Effective if:	One Proficiency Area rated HE and one Effective, or
Needs Improvement if:	One Proficiency Area rated HE or E and one rated NI or U
Unsatisfactory if:	One Proficiency Area rated NI and the other is rated U

Table 7

Domain Rating	Domain 2: Instructional Leadership (Three Proficiency Areas)	
Highly Effective if:	All three Proficiency Areas are HE	
Effective if:	Two Proficiency Area rated E and one Effective or NI	
Needs Improvement if:	Any two Proficiency Areas rated NI	
	One Proficiency Area rated NI, one Proficiency Area rated U and one Proficiency Area rated E or HE	
Unsatisfactory if:	Two or more Proficiency Areas rated U	

Table 8

Domain Rating	Domain 3: Organizational Leadership (Four Proficiency Areas)
Highly Effective if:	All four Proficiency Areas are HE
Effective if:	Two Proficiency Areas rated E and two rated HE
	All four Proficiency Areas rated E

Needs Improvement if:	•	Two Proficiency Areas rated E and two rated NI
	•	Any three Proficiency Areas rated NI
	•	One Proficiency Area rated NI, one Proficiency Area rated U and two Proficiency Area rated E or HE
Unsatisfactory if:	•	Two or more Proficiency Areas rated U

Table 9

14510)	
Domain Rating	Domain 4: Professional Behaviors (One Proficiency Area)
Highly Effective if:	If Proficiency Area 10 rated HE
Effective if:	If Proficiency Area 10 rated E
Needs Improvement if:	If Proficiency Area 10 rated NI
Unsatisfactory if:	If Proficiency Area 10 rated U

When you have determined Domain ratings, you then combine those ratings to generate an FSLA $\,$ score.

Step 4: Calculate the FSLA Score.

- In Step One, proficiency ratings for indicators were made based on an assessment of available evidence and the rating rubrics.
- In Step Two, the apportionment of Indicators ratings, using the tables provided, generated a rating for each Proficiency Area within a Domain.
- In Step Three, Domain ratings were generated. All of these steps were based on evidence on the indicators and scoring tables.

At the FSLA scoring stage the model shifts to a weighted point system.

Points are assigned to Domain ratings, direct weights are employed, and scores are converted to a numerical scale. The following point model is used:

Table 10

DOMAIN RATING	POINTS ASSIGNED
A Domain rating of Highly Effective	3 points
A Domain rating of Effective	2 points
A Domain rating of Needs Improvement	1 point
A Domain rating of Unsatisfactory	0 points

The Domain points are multiplied by the Domain's direct weight: The rating is entered in column 2 ("Rating"), the points in column 3 ("Points"), and a weighted score calculated in column 5.

Table 11

Domain	Rating	Points	Weight	Domain Weighted Score
Domain I: Student Achievement			.20	
Domain 2: Instructional Leadership			.40	
Domain 3: Organizational Leadership			.20	
Domain 4: Professional and Ethical Behavior			.20	

Example

Table 12

Domain	Rating	Points	Weight	Domain Weighed Score
Domain I: Student Achievement	HE	3	.20	.6
Domain 2:Instructional Leadership	Е	2	.40	.8
Domain 3:Organizational Leadership	HE	3	.20	.6
Domain 4: Professional & Ethical Behavior	NI	1	.20	.2

After a Domain Weighted Score is calculated, the scores are converted to a 100 point scale. This process results in a FSLA Score range of 0 to 300 Points.

This table illustrates the conversion of a Domain Weighted value to a 100 point scale.

Example

Table 13

Domain	Rating	Points	Weight	Weighed	Convert to 100	Domain
				value	point scale	Score
Domain I	HE	3	.20	.6	x 100	60
Student Achievement						
Domain 2	E	2	.40	.8	x 100	80
Instructional Leadership						
Domain 3	HE	3	.20	.6	x 100	60
Organizational						
Leadership						
Domain 4	NI	1	20	.2	x 100	20
Professional and Ethical						
Behavior						
FSLA Score						220

The Domain scores are added up and an FSLA score determined. The FSLA Score is converted to an FSLA rating of HE, E, NI, or U based on this scale:

Table 14

FSLA SCORE	FSLA Proficiency Rating
240 to 300	Highly Effective
151 to 239	Effective
75 to 150	Needs Improvement
0 to 74	Unsatisfactory

The FSLA score is combined with a Deliberate Practice Score, if used, to generate a Leadership Practice Score. Section Three provides scoring processes for Deliberate Practice. The FSLA score will be 80% of the Leadership Score, if a Deliberate Practice is used. The Deliberate Practice Score will be 20% of the Leadership Practice, if used. The FSLA will be 100% of the Leadership Score if a Deliberate Practice is not used.

Monitoring, Data Collection, and Application to Practice: Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator and/or designee accumulate data and evidence on leader's actions or impact of leader's actions during the routine conduct of work. Such data and evidence may come from site visits, be provided by the leader, from formal or informal observations, or from evidence, Principal Data Chat forms, artifacts or input provided by others. The accumulated information is analyzed in the context of the evaluation system indicators.
- As evidence and observations are obtained that generate <u>specific and actionable feedback</u>, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities

(PLCs), and/or lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.

B. Other Indicators of Performance

In this section, the district shall provide the following information regarding any other indicators of performance that will be included for school administrator evaluations.

- Pursuant to section 1012.34(3)(a)4., F.S., up to one-third of the evaluation may be based upon other indicators of performance. In Levy County, other indicators of performance in the form of a Deliberate Practice goal could account for 20% of the school administrator performance evaluation.
- 2. Description of additional performance indicators, if applicable.

Additional Metric: Deliberate Practice Guidelines

Deliberate Practice (if applicable): The leaders' work on specific improvements in mastery of educational leadership is a separate metric and is combined with the FSLA Domain Scores to determine a summative leadership score. This is optional, and up to the administrator whether or not they want to use this measurement component. If they do choose to use it, it will count 20% of their Leadership Practice Score, which is 66% of their final evaluation score.

Deliberate Practice (DP)

Proficiency Area(s) and Target(s) for School Leader Growth

<u>Deliberate Practice Priorities</u>: The leader and the evaluator identify 1 to 4 specific and measurable priority learning goals related to teaching, learning, or school leadership practices that impact student learning growth. One or two targets are recommended.

- The target of a deliberate practice process describe an intended result and will include "scales" or progress points that guide the leader toward highly effective levels of personal mastery;
- The leader takes actions to make discernible progress on those priority goals; monitors
 progress toward them, uses the monitoring data to make adjustments to practice, and
 provides measurable evidence of growth in personal mastery of the targeted priorities.
- The evaluator monitors progress and provides feedback.
- The targets are "thin slices" of specific gains sought not broad overviews or long term goals taking years to accomplish.
- Deliberate practices ratings are based on comparison of proficiency at a "start point" and
 proficiency at a designated "evaluation point". The start point data can be based on a
 preceding year FSLA evaluation data on a specific indicator or proficiency area, or
 determined by school leader and evaluator either at the end of the preceding work year or
 at the start of the new work year in which the DP targets will be used for evaluation.

Relationship to other measures of professional learning: Whereas FSLA indicator 4.5 addresses the leader's involvement with professional learning focused on faculty needs and indicator

10.2 addresses the leader's pursuant of learning aligned with a range of school needs, the Deliberate Practice targets are more specific and deeper learning related to teaching, learning, or school leadership practices that impact student learning. The DP learning processes establish career-long patterns of continuous improvement and lead to high quality instructional leadership.

<u>Selecting A Growth Target</u>: Growth target: An issue that addresses a school improvement need related to student learning and either selected by the district or approved by leader's supervisor. The focus should be on complex issues that take some time to master such as providing observation and feedback of high-effect size instructional practices. Or select an issue related to a knowledge base or skill set relevant to instructional leadership selected by leader.

Rating Scheme

- Unsatisfactory = no significant effort to work on the targets
- Needs Improvement = evidence some of the progress points were accomplished but not all
 of the targets
- Effective = target accomplished
- Highly effective = exceeded the targets and able to share what was learned with others

3. Description of the step-by-step calculation for determining the other indicators of performance rating for school administrators, including performance standards for differentiating performance.

How to Score Deliberate Practice (if used, optional)

Deliberate Practice Score

- The DP score is 20% of the Leadership Practice Score.
- The DP metric will have 1 to 4 specific growth targets.
- Each target will have progress points (much like a learning goal for students).
- The targets will have equal weight and the leader's growth on each will be assessed as HE, E, NI, or U.

Scoring a DP Growth Target	Rating Rubrics
Highly Effective	Target met, all progress points achieved, and verifiable improvement in leaders performance
Effective	Target met, progress points achievesimpact not yet evident
Needs Improvement	Target not met, but some progress points met
Unsatisfactory	Target not met, nothing beyond 1 progress point

A DP Score has an upper limit of 300 points. Each target is assigned an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

Number of growth targets	Maximum points per target	Maximum Point Range
One Target	300	300
Two Targets	150 (300/2)	300 (150 x 2)
Three Targets	100 (300/3)	300 (100 x 3)
Four Targets	75 (300/4)	300 (75 x 4)

Target values based on Rating (HE, E, NI, or U) and Number of Targets.

This chart below shows the points earned by a growth target based on a rating Level (HE, E, NI, or U) $\underline{\text{and}}$ the total number of targets in the DP plan.

Rating	Point values	If 1 target	If 2 targets	If 3 targets	If 4 targets
HE E	max points .80 of max	300 240	150 120	100 80	75 60
NI	.5 of max	150	75	50	37.5
U	.25 if some progress	75	37.5	25	18.75
U	.0 if 1 progress stage	0	0	0	0

A DP score is based on ratings of the targets and the points earned for each rating.

Examples

If Three Growth Targets:

DP Target	Rating	Points
DP TARGET 1	HE	100
DP TARGET 2	Е	80
DP TARGET 3	NI	50
DP Score (target score added together)		230

DP Score Range	DP Rating
241 to 300	Highly Effective
151 to 240	Effective
75 to 150	Needs Improvement
0 to 74	Unsatisfactory

Notes:		

C. Performance of Students

In this section, the district shall provide the following information regarding the student performance data that will be included for school administrator evaluations.

1. Pursuant to section 1012.34(3)(a)1., F.S., at least one-third of the performance evaluation must be based upon data and indicators of student performance, as determined by each school district. This portion of the evaluation must include growth or achievement data of the administrator's school(s) over the course of at least three years. If less than three years of data are available, the years for which data are available must be used. Additionally, this proportion may be determined by administrative responsibilities. In Levy County, performance of students accounts for 34% of the school administrator performance evaluation.

See Appendix C

2. Description of the step-by-step calculation for determining the student performance rating for school administrators, including performance standards for differentiating performance.

See Appendix C

D. Summative Rating Calculation

In this section, the district shall provide the following information regarding the calculation of summative evaluation ratings for school administrators.

1. Description of the step-by-step calculation for determining the summative rating for school administrators, including performance standards for differentiating performance.

See Appendix D

Pursuant to section 1012.34(2)(e), F.S., the evaluation system for school administrators must
differentiate across four levels of performance. Using the district's calculation methods and
cut scores described above in sections A – C, illustrate how an elementary principal and a
high school principal can earn a highly effective and an unsatisfactory summative
performance rating respectively.

Example 1: Highly Effective Elementary Principal

Leadership Practice Score:

FSLA score 300 x 1.0 = 300

Deliberate Practice Score 0 x .20 (if used) = N/A

Leadership Practice Score: 300

Leadership Practice Score (66%) Final Calculation: 300/300=1(.66)=.66(600)=396

Student Growth Measure Score= $\underline{3.33}$ x 75= $\underline{250}$

Student Growth Measure (34%): <u>250/300=.83(.34)=.28(600)=168</u>

Total Score: 564

Performance Score ranges Performance Level Rating

480 to 600 Highly Effective

300 to 479 Effective

149 to 299 Needs Improvement

0 to 148 Unsatisfactory

Performance level is (X) Highly Effective () Effective () Needs Improvement () Unsatisfactory

Example 1: Unsatisfactory Secondary Principal

Leadership Practice Score:

FSLA score <u>60</u> x .80 = 48

Deliberate Practice Score 75 x .20 (if used) = $\underline{15}$

Leadership Practice Score: 63

Leadership Practice Score (66%) Final Calculation: <u>63</u>/300= <u>.21(</u>.66)=.<u>139(600)</u>= 8<u>3</u>

Student Growth Measure Score= $\underline{.93}$ x 75= $\underline{70}$

Student Growth Measure (34%): <u>70/300=.23(.34)=.08 (600)=48</u>

Total Score: 131

Performance Score ranges Performance Level Rating

480 to 600 Highly Effective

300 to 479 Effective

149 to 299 Needs Improvement

0 to 148 Unsatisfactory

Performance level is () Highly Effective () Effective () Needs Improvement (X) Unsatisfactory

${\bf Appendix}\,{\bf A-Evaluation}\,{\bf Framework}\,{\bf Crosswalk}$

In Appendix A, the district shall include a crosswalk of the district's evaluation framework to each of the Florida Principal Leadership Standards (FPLSs).

Alignment to the Florida Principal Leadership Standards			
Practice	Evaluation Indicators		
Domain 1: Student Achievement			
1. Student Learning Results			
Effective school leaders achieve results on the school's student learning goals.			
 The school's learning goals are based on the state's adopted student academic standards and the district's adopted curricula; and, 	1.1,1.2		
b. Student learning results are evidenced by the student performance and growth on statewide assessments; district-determined assessments that are implemented by the district under Section 1008.22, F.S.; international assessments; and other indicators of student success adopted by the district and state.	1.2,1.4,3.1		
2. Student Learning as a Priority			
Effective school leaders demonstrate that student learning is their top priority through leader support a learning organization focused on student success.	rship actions that build and		
a. Enables faculty and staff to work as a system focused on student learning;	1.1,1.2,,1.4,4.3		
b. Maintains a school climate that supports student engagement in learning;	5.3		
c. Generates high expectations for learning growth by all students; and,	1.1		
 d. Engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school. 	1.1,1.4,4.3		
Domain 2: Instructional Leadership			
3. Instructional Plan Implementation			
Effective school leaders work collaboratively to develop and implement an instructional fram state standards, effective instructional practices, student learning needs and assessments.	nework that aligns curriculum and		
Implements the Florida Educator Accomplished Practices as described in Rule 6A-5.065, F.A.C., through a common language of instruction;	2.1		
b. Engages in data analysis for instructional planning and improvement;	1.1,1.3,2.3,2.4,2.5		
 Communicates the relationships among academic standards, effective instruction, and student performance; 	2.4,3.1,4.3		
 d. Implements the district's adopted curricula and state's adopted academic standards in a manner that is rigorous and culturally relevant to the students and school; and, 	2.4,3.1,3.3		
 Ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula. 	3.1		
4. Faculty Development			
Effective school leaders recruit, retain and develop an effective and diverse faculty and staff.			
 Generates a focus on student and professional learning in the school that is clearly linked to the system-wide strategic objectives and the school improvement plan; 	1.1,2.4,2.5,4.3		
 Evaluates, monitors, and provides timely feedback to faculty on the effectiveness of instruction; 	2.3,2.4		
 Employs a faculty with the instructional proficiencies needed for the school population served; 	2.2		
 d. Identifies faculty instructional proficiency needs, including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement, and the use of instructional technology; 	1.3,2.3,2.4,5.5		

Alignment to the Florida Principal Leadership St	ndards
Practice	Evaluation Indicators
 Implements professional learning that enables faculty to deliver culturally relevant and differentiated instruction; and, 	1.5,2.5
f. Provides resources and time and engages faculty in effective individual and collaborative professional learning throughout the school year.	4.1,4.3,5.5
5. Learning Environment	
Effective school leaders structure and monitor a school learning environment that improves l diverse student population.	earning for all of Florida's
 Maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy; 	5.4
 Recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning; 	2.3,4.3,4.5,5.2,5.6
 Promotes school and classroom practices that validate and value similarities and differences among students; 	4.3,5.2,5.6
 d. Provides recurring monitoring and feedback on the quality of the learning environment; 	5.3
 Initiates and supports continuous improvement processes focused on the students' opportunities for success and well-being; and, 	1.5,4.3,5.2
f. Engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps.	1.1,1.3,1.4,3.3
Domain 3: Organizational Leadership	
6. Decision Making	
Effective school leaders employ and monitor a decision-making process that is based on vision priorities using facts and data.	on, mission and improvement
 Gives priority attention to decisions that impact the quality of student learning and teacher proficiency; 	5.1
 Uses critical thinking and problem solving techniques to define problems and identify solutions; 	5.1
 Evaluates decisions for effectiveness, equity, intended and actual outcome; implements follow-up actions; and revises as needed; 	5.1,5.2
d. Empowers others and distributes leadership when appropriate; and,	4.2,4.4
 Uses effective technology integration to enhance decision making and efficiency throughout the school. 	2.4,4.2,4.5,5.5
7. Leadership Development	
Effective school leaders actively cultivate, support, and develop other leaders within the organization of the control of the	nization.
a. Identifies and cultivates potential and emerging leaders;	4.4
b. Provides evidence of delegation and trust in subordinate leaders;	4.2,4.4
c. Plans for succession management in key positions;	4.2,4.4
 d. Promotes teacher-leadership functions focused on instructional proficiency and student learning; and, 	4.2,4.4
 Develops sustainable and supportive relationships between school leaders, parents, community, higher education and business leaders. 	2.4,4.2,4.5,5.5
8. School Management	
Effective school leaders manage the organization, operations, and facilities in ways that max promote a safe, efficient, legal, and effective learning environment.	imize the use of resources to
a. Organizes time, tasks and projects effectively with clear objectives and coherent plans;	5.5
b. Establishes appropriate deadlines for him/herself and the entire organization;	5.5

Alignment to the Florida Principal Leadership St	ndards
Practice	Evaluation Indicators
c. Manages schedules, delegates, and allocates resources to promote collegial efforts in school improvement and faculty development; and,	4.1,4.2,4.3,4.4
 Is fiscally responsible and maximizes the impact of fiscal resources on instructional priorities. 	5.5
O. Communication	
Effective school leaders practice two-way communications and use appropriate oral, written, and collaboration skills to accomplish school and system goals by building and maintaining r faculty, parents, and community.	
 Actively listens to and learns from students, staff, parents, and community stakeholders; 	4.2,4.5
Recognizes individuals for effective performance;	5.6
 Communicates student expectations and performance information to students, parents, and community; 	1.2,1.5
 Maintains high visibility at school and in the community and regularly engages stakeholders in the work of the school; 	4.5,5.1
 Creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important school issues. 	4.2,4.5
. Utilizes appropriate technologies for communication and collaboration; and,	4.2,4.5
g. Ensures faculty receives timely information about student learning requirements, academic standards, and all other local state and federal administrative requirements and decisions.	3.1
Domain 4: Professional and Ethical Behavior	
10. Professional and Ethical Behavior	
Effective school leaders demonstrate personal and professional behaviors consistent with qua a community leader.	ulity practices in education and as
 Adheres to the Code of Ethics and the Principles of Professional Conduct for the Education Profession in Florida, pursuant to Rules 6A-10.080 and 6A-10.081, F.A.C.; 	4.1
 Demonstrates resiliency by staying focused on the school vision and reacting constructively to the barriers to success that include disagreement and dissent with leadership; 	4.2
 Demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community; 	4.2
 Engages in professional learning that improves professional practice in alignment with the needs of the school system; 	4.1,4.2
e. Demonstrates willingness to admit error and learn from it; and,	5.1,5.2
 Demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback. 	5.1

Appendix B – Observation Instruments for School Administrators

In Appendix B, the district shall include the observation rubric(s) to be used for collecting instructional leadership data for school administrators.

Monitoring, Data Collection, and Application to Practice: Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator and/or designee accumulate data and evidence on leader's actions or impact of
 leader's actions during the routine conduct of work. Such data and evidence may come from site
 visits, be provided by the leader, from formal or informal observations, or from evidence, Principal
 Data Chat forms, artifacts or input provided by others. The accumulated information is analyzed in
 the context of the evaluation system indicators.
- As evidence and observations are obtained that generate <u>specific and actionable feedback</u>, it is
 provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms,
 via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and/or lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.

Domain 1 - Student Achievement

Narrative: Student achievement results in the student growth measures (SGM) segment of evaluation represent student results on specific statewide or district assessments or end-of-course exams. The leadership practice segment of the evaluation, through the proficiency areas and indicators in this domain, focuses on <u>leadership behaviors</u> that influence the desired student results

Narrative: This proficiency area focuses on the leader's knowledge and actions regarding academic standards, use of performance data, planning and goal setting related to targeted student results, and capacities to understand what results are being obtained. This proficiency area is aligned with Florida Principal Leadership Standard #1.

Indicator 1.1 - Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core Standards and Next Generation Sunshine State Standards).

Narrative: Standards-based instruction is an essential element in the state's plan of action for preparing Florida's students for success in a 21st century global economy. This indicator is focused on the leader's understanding of what students are to know and be able to do. School leaders need to know the academic standards teachers are to teach and students are to master. Note: Every credit course has specific academic standards assigned to it. Common Core Standards and Next Generation Sunshine State Standards (NGSSS) assigned to each course are found at www.floridastandards.org.

Comment [MJ1]: Please move these forms underneath Appendix B

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Reflection Questions for Indicator 1.1

Highly Effective:	Effective:	Needs Improvement:	Unsatisfactory:
Do you routinely share examples of specific leadership, teaching, and curriculum strategies that are associated with improved student achievement on the Common Core Standards or NGSSS?	How do you support teachers' conversations about how they recognize student growth toward mastery of the standards assigned to their courses?	How do you monitor what happens in classrooms to insure that instruction and curriculum are aligned to academic standards?	Where do you find the standards that are required for the courses in your master schedule?

Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adul t performance data to make instructional leadership decisions.

Narrative: This indicator addresses the leader's proficiency in u se of student and adult performance data to make instructional leadership decisions. What does test data and other sources of student performance data related to targeted academic goals say about what is needed? What does data about teacher proficienc or professional learning needs indicate needs to be done? The focus is what the leader does with data about student and adult performance to make instructional decisions that impact student achievement.

Rating Rubric

Rating Rubric			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	evident but are inconsistent or of insufficient scope or proficiency.	relevant to this indicator are minima or are not occurring, or are having an adverse impact.
The leader can specifically document examples of decisions in teaching, assignment, curriculum, assessment, and intervention that have been made on the basis of data analysis.	The leader uses multiple data sources, including state, district, school, and classroom assessments, and systematically examines data at the subscale level to find strengths and challenges.	The leader is aware of state and district results and has discussed those results with staff, but has not linked specific decisions to the data. Data about adult performance	
The leader has coached school administrators in other schools to improve their data analysis skills and to inform instructional decision making.	The leader empowers teaching and administrative staff to determine priorities using data on student and adult performance. Data insights are regularly the subject of faculty meetings and professional development sessions.	(e.g. evaluation feedback data, professional learning needs assessments) are seldom used to inform instructional leadership decisions.

		that reflects current proficience exclusive list of what is expect	

Reflection Questions for Indicator 1.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How do you aggregate data about teacher proficiencies on instructional practices to stimulate dialogue about what changes in instruction are needed in order to improve student performance?	How do you verify that all faculty have sufficient grasp of the significance of student performance data to formulate rational improvement plans?	By what methods do you enable faculty to participate in useful discussions about the relationship between student performance data and the instructional actions under the teachers' control?	How much of the discussions with district staff about student performance data are confusing to you and how do you correct that?

Indicator 1.3 – Planning and Goal Setting: The leader demonstrates planning and goal setting to improve student achievement.

Narrative: Knowing the standards and making use of performance data is expected to play a significant role in planning and goal setting. This indicator is focused on the leader's alignment of planning and goal setting with improvement of student achievement.

Rating Rubric

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Evidence of student
student achievement exists on multiple indicators of student success. Student success occurs not only on the overall averages, but in each group of historically disadvantaged students. Explicit use of previous data indicates that the leader has focused on improving performance. In areas of	numbers, meeting performance goals for student achievement. Results on accomplished goals are used to maintain gains and stimulate future goal setting. The average of the student population improves, as does the achievement of each group of students who have previously been identified as needing improvement.	student improvement results are inconsistent or untimely. Some evidence of improvement exists, but there is insufficient evidence of using such improvements to initiate changes in leadership, teaching, and curriculum that will create the improvements necessary to achieve student performance goals.	improvement is not routinely gathered and used to promote further growth. Indifferent to the data about learning needs, the leader blames students, families, and external characteristics for insufficient progress. The leader does not believe that student achievement can improve.
previous success, the leader aggressively identifies new challenges, moving proficient performance to the exemplary level. Where new challenges emerge, the leader highlights the need, creates effective interventions, and reports improved results.		The leader has taken some decisive actions to make some changes in time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement, but additional actions are needed to generate improvements for all students.	The leader has not taken decisive action to change time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement.

Proficiency Area 2. <u>Student Learning as a Priority</u>: Effective school leaders demonstrate that student learning is their top priority through effective leadership actions that build and support a learning organization focused on student success.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader generates data that describes what improvements have occurred.
- Agendas, memoranda, and other documents for faculty and students communicate the progress made and relate that progress to teacher and student capacity to make further gains.
- progress to teacher and student capacity to make further gains

 Evidence on student improvement is routinely shared with
- Other leadership evidence of proficiency on this indicator.
- Teachers routinely inform students and parents on student progress on instructional goals.
- Posters and other informational signage informing of student improvements are distributed in the school and community.
- Team and department meetings' minutes reflect attention to evidence of student improvements.
- Other impact evidence of proficiency on this indicator.

school leaders how to use	in sharing examples of their	routinely sharing examples of	to gather data on student
student improvement results to	growth with other students?	student improvement?	improvements?
raise expectations and improve			
future results?			

Narrative: This proficiency area is aligned with Florida Principal Leadership Standard #2. A learning organization has essential elements regarding the behavior of people in the organization. When all elements are present and interacting, productive systemic change is possible. This proficiency area is focused on the degree to which learning organization elements exist in the school and reflect the following priorities on student learning:

- Supports for personal mastery of each person's job focus on job aspects related to student learning
- Team learning among faculty is focused on student learning.
- Processes for exploring and challenging mental models that hamper understanding and progress on student learning are in use
- A shared vision has student learning as a priority
- Systems thinking is employed to align various aspects of school life in ways that promote learning

Indicator 2.1 – Learning Organization: The leader enables faculty and staff to work as a system focused on student learning and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Narrative: Are the elements of a learning organization present among the adults in the school? Are the learning organization elements focused on student learning? Is the system in operation at the school engaging faculty in improving results for under-

achieving subgroups? This indic tor addresses the systemic processes that make gap reduction possible. Is the leader proficient in building capacity for change?

Note: Indicator 5.4 from Florida Principal Leadership Standard #5 addresses actual success in reducing achievement gaps.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	relevant to this in	of leader's actions
The essential elements of a learning organization (i.e. personal mastery of competencies, team learning, examination of mental models, shared vision, and systemic thinking) are focused on improving student learning results. Positive trends are evident in closing learning performance gaps among all student subgroups within the school. There is evidence that the interaction among the elements of the learning organization deepen the impact on student learning. The leader routinely shares with colleagues throughout the district the effective leadership practices learned from proficient implementation of the essential elements of a learning organization.	The leader's actions and supported processes enable the instructional and administrative workforce of the school to function as a learning organization with all faculty having recurring opportunities to participate in deepening personal mastery of competencies, team learning, examination of mental models, a shared vision, and systemic thinking. These fully operational capacities are focused on improving all students' learning and closing learning performance gaps among student subgroups within the school.	The leader's actions reflect attention to building an organization where the essential elements of a learning organization (i.e. personal mastery of competencies, team learning, examination of mental models, shared vision, and systemic thinking) are emerging, but processes that support each of the essential elements are not fully implemented, or are not yet consistently focused on student learning as the priority, or are not focused on closing learning performance gaps among student subgroups within the school. Reflection Questions for Indicator 2.1

Indicator 2.2 – School Climate: The leader maintains a school climate that supports student engagement in learning.

Narrative: "Climate" at a school is determined by how people treat one another and what is respected and what is not. School leaders who promote a school climate where learning is respected, effort is valued, improvement is recognized, and it is safe to acknowledge learning needs have provided students support for sustained engagement in learning.

--	---	--	--

Indicator 2.3 – High Expectations: The leader generates high expectations for learning growth by all students.

Narrative: The leader who expects little from students and faculty will get less than they are capable of accomplishing. "Every child can learn" takes on new meaning when supported by faculy and school leader expectations that students can and will learn a lot...not just a minimum to get by. Expecting quality is a measure of respect.

Highly Effective: Leader's actions or impact of leader's actions	Effective: Leader's actions or impact of leader's actions relevant to	Needs Improvement: Leader's actions or impact of leader's	Unsatisfact ory: Leader's actions or impact of leader's actions
relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	this indicator are sufficient and appropriate reflections of quality work with only normal variations.	actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	relevant to this indicator are mini or are not occurring, or are having adverse impact.
The leader incorporates community members and other stakeholder groups into the establishment and support of nigh academic expectations. The leader benchmarks expectations to the performance of the state's, nation's, and world's highest performing schools. The leader creates systems and approaches to monitor the level of academic expectations.	The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent monitoring schedule) creates and supports high academic expectations by empowering teachers and staff to set high and demanding academic expectations for every student. The leader ensures that students are consistently learning, respectful, and on task.	The leader creates and supports high academic expectations by setting clear expectations for student academics, but is inconsistent or occasionally fails to hold all students to these expectations. The leader sets expectations, but fails to empower teachers to set high expectations for student academic performance.	The leader does not create or support high academic expectations by accepting poo academic performance. The leader fails to set high expectations or sets unrealistic or unattainable goals. Perceptions among students, faculty, or community that academic shortcomings of student subgroups are explain by inadequacy of parent
The leader encourages a culture in which students are able to clearly articulate their diverse personal academic goals.	The leader sets clear expectations for student academics and establishing consistent practices across classrooms. The leader ensures the use of instructional practices with proven effectiveness in creating success for all students, including those with diverse		involvement, community conditions, or student apathy a not challenged by the school leader.

How might you incorporate community members and other stakeholder groups into the establishment and support of high academic expectations?	What are 2-3 key strategies you have thought about using that would increase your consistency in creating and supporting high academic expectations for every student?	What might be some strategies you could use to create or support high academic expectations of students?		

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Narrative: Lots of talk about high expectations, goal setting, working hard, rigor, and getting results is important, but leaders need to know where students' actual performance levels are to be able to track real progress. Knowing annual test results is useful, but it is not enough. What does the leader do to know whether progress is being made or not and whether "mid-course" corrections are required?

Rating Rubiic			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Assessment data generated at the school level provides an ongoing perspective of the current reality of student proficiency on academic standards. There is evidence of decisive changes in teacher assignments and curriculum based on student and adult performance data. Case studies of effective decisions based on performance data are shared widely with other	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Each academic standard has been analyzed and translated into student-accessible language and processes for tracking student progress are in operation. Power (high priority) standards are widely shared by faculty members and are visible throughout the building. Assessments on student progress on them are a routine	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Standards have been analyzed, but are not translated into student-accessible language. School level assessments are inconsistent in their alignment with the course standards. Power (high priority) standards are developed, but not widely known or used by faculty, and/or are not aligned with assessment data on student progress.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is no or minimal coordination of assessment practices to provide on-going data about student progress toward academic standards. School level assessments are not monitored for alignment with the implementation level of the standards. No processes in use to analyze standards and identify assessment priorities

Domain 2 - Instructional Leadership

Narrative: School leaders do many things. Domain 2 of the FSLA addresses a core of leader behaviors that impact the quality of essential elements for student learning growth. The skill sets and knowledge bases employed for this domain generate 40% of the FSLA Score. The success of the school leader in providing a quality instructional framework, appropriately focused faculty development, and a student oriented learning environment are essential to student achievement.

Narrative: Proficiency Area 3 is focused on Florida Principal Leadership Standard #3 (FPLS). Aligning the key issues identified in the indicators into an efficient system is the leader's responsibility. This area stresses the leader's proficiency at understanding the current reality of what faculty and students know and can do regarding priority practices and goals.

Indicator 3.1 – FEAPs: The leader aligns the school's instructional programs and practices with the Florida Educator Accomplished Practices (Rule 6A-5.065, F.A.C.) and models use of the Florida common language of instruction to guide faculty and staff implementation of the foundational principles and practices.

Narrative: Indicator 3.1 is focused on the school leader's understanding of the Florida Educator Accomplished Practices (FEAPs) and ability to use Florida's common language of instruction. To be effective participants in school, district and statewide communities of practice working collegially for high quality implementation of the FEAPs, educators at the school level must be able to communicate and organize their efforts using the terms and concepts in the FEAPs and the Florida common language of instruction. This indicator is about the school leader's proficiency in making that happen by using a core set of expectations (the FEAPs) and terminology (the common language) to guide and focus teacher discussions on instructional improvements. Florida's common language of instruction is used so that educators in Florida use the core terms in the same way and with a common understanding.

Note: The FEAPs, a FEAPs brochure, and Florida's common language may be explored at http://www.floridaschoolleaders.org.

Highly Effective: Leader's	Effective: Leader's actions or	Needs I	mprovement:	ry: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Unsatisfacto Leader's actions or impact of leader's actions relevant to this indicator are avided but are inconsistent or of	actions or impact of relevant to this income are not popularity	,
The instructional program and practices are fully aligned with the FEAPs. Faculty and staff implementation of the FEAPs is consistently proficient and professional conversations among school leadership and faculty about instruction use the Florida common language of instruction and the terminology of the FEAPs. The leader's use of FEAPs and common language resources results in all educators at the school site having access to and making use of the FEAPs and common language. Teacher-leaders at the school use the FEAPs and common language.	The leader's use of FEAPs content and terms from the common language is a routine event and most instructional activities align with the FEAPs. Coordinated processes are underway that link progress on student learning growth with proficient FEAPs implementation. The leader's use of FEAPs and common language resources results in most faculty at the school site having access to and making use of the FEAPs and common language. The leader uses the common language to enable faculty to recognize connections between the FEAPs, the district's evaluation indicators, and contemporary research on effective instructional practice.	The leader demonstrates some use of the FEAPs and common language to focus faculty on instructional improvement, but is inconsistent in addressing the FEAPs. The leader's use of FEAPs and common language resources results in some faculty at the school site having access to and making use of the FEAPs and common language. There are gaps in alignment of ongoing instructional practices at the school site with the FEAPs. There is some correct use of terms in the common language but errors or omissions are evident.	There is no or m that the principle of the FEAPs are the faculty as pri expectations. The leader does evidence of being with the FEAPs alonguage. The leader's use common language results in few factorial school site having making use of the common language.	s and practices e presented to ority not give g conversant or the common of FEAPs and ge resources butly at the g access to and e FEAPs and ge.

Indicator 3.2 – Standards-Based Instruction: The leader delivers an instructional program that implements the state's adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by:

- aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and
- communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Narrative: Florida's plan of action for educating our children for the 21st century is based on standards-based instruction. Course descriptions specify the standards that are to be learned in each course. All of the course content in courses for which students receive credit toward promotion/graduation is expected to be focused on the standards in the course description. This indicator addresses the leader's proficiency at making sure all students receive rigorous, culturally relevant standards-based instruction by aligning key practices with the state's academic standards (Common Core, NGSSS, Access Points). The leader does what is necessary to make sure faculty recognize and act on the cause and effect relationship between good instruction (i.e., research-based strategies, rigorous, culturally relevant,) on the "right stuff" (the state standards adapted based on data about student needs).

Note: Course descriptions and the standards for each course may be explored at www.floridastandards.org.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Processes exist for all courses to ensure that what students are learning is aligned with state standards for the course. The leader has institutionalized quality control monitoring to ensure that instruction is aligned with the standards and is consistently delivered in a rigorous and culturally relevant manner for all students. Teacher teams coordinate work on student mastery of the standards to promote integration of the standards into useful skills.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Processes exist for most courses to ensure that what students are learning is aligned with state standards for the course. Instruction aligned with the standards is, in most courses, delivered in a rigorous and culturally relevant manner for all students. The leader routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for most courses.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Processes exist for some courses to ensure that what students are learning is aligned with state standards for the course. Instruction is aligned with the standards in some courses. Instruction is delivered in a rigorous manner in some courses. Instruction is culturally relevant for some students. The leader has implemented processes to monitor progress in some courses, but does not	adverse impact. Reflection Questions for Indicator 3.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What procedures might you establish to increase your ability to help your colleagues lead the implementation of the district's curriculum to provide instruction that is standardsbased, rigorous, and culturally relevant?	In what ways can you offer professional learning for individual and collegial groups within the school or district that illustrate how to provide rigor and cultural relevance when delivering instruction on the standards?	What might be 2-3 key leadership strategies that would help you to systematically act on the belief that all students can learn at high levels? How can your leadership in curriculum and instruction convey respect for the diversity of	Where do you go to find out what standards are to be addressed in each course? How might you open up opportunities for all students to meet high expectations through your leadership in curriculum and instruction?
What can you share about your leadership actions to ensure that staff members have adequate time and support, and effective monitoring and feedback on proficiency in use of research-based instruction	How do you engage teachers in deliberate practice focused on mastery of standards-based instruction?	students and staff? How might you increase the consistency with which you monitor and support staff to effectively use research-based instruction to meet the learning needs of all students?	Do you have processes to monitor how students spend their learning time? In what ways are you monitoring teacher implementation of effective, research-based instruction?
focused on the standards?		What are ways you can ensure that staff members are aligning their instructional practices with state standards?	In what ways are you monitoring teacher instruction in the state's academic standards?

Indicator 3.3 – Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state's adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubric to guide tracking progress toward student mastery.

Narrative: "Learning goals" is a high-effect size strategy that uses scales or progressive levels to monitor student growth on the way to mastery of a state academic standard. Learning goals typically take 2-9 weeks of student time to master so are more comprehensive than daily objectives. The essential issue is that the teacher creates "scales" or levels of progress toward mastery of the learning goal. Teacher and students use those scales to track progress toward mastery of the goal(s). This indicator addresses the leader's proficiency at monitoring and providing feedback on teacher and student use of priority learning goals with scales. The leader is expected to go beyond low levels of monitoring that address whether the teacher provides such goals and attends to the levels of student understanding and engagement with the learning goals. Do the students pursue those goals? Do they track their own progress? Is celebrations of success on learning goals focused on how success was achieved more than that is was obtained?

Note: Beginning in the 2012-13 school year, professional learning about learning goals and sample learning goals may be explored at www.floridastandards.org, <a href="https:/

Reflection Questions for Indicator 3.3

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What specific strategies have you employed to measure improvements in teaching and innovations in use of learning goals and how can you use such measures as predictors of improved student achievement?	What system supports are in place to ensure that the best ideas and thinking on learning goals are shared with colleagues and are a priority of collegial professional learning?	To what extent do learning goals presented to the students reflect a clear relationship between the course standards and the assignments and activities students are given?	What have I done to deepen my understanding of the connection between the instructional strategies of learning goals and tracking student progress?

Indicator 3.4 – Curriculum Alignments: Systemic processes are implemented to ensure alignment of curriculum resources with state standards for the courses taught.

Narrative: Academic standards are determined at the state level and the curriculum used to enable students to master those standards is determined at the district and school level. Curriculum must be aligned with the standards if it is to support standards-based instruction. Curriculum resources may or may not be fully aligned with the standards assigned to a specific course. The learning needs of students in specific classes may require additional or adapted curriculum materials to address issues of rigor, cultural relevance, or support for needed learning goals. School leaders maintain processes to monitor the appropriateness and alignment of curriculum to standards and intervene to make adjustments as needed to enable students to access curriculum that supports the standards.

Note: Where gaps or misalignments are noted by the processes addressed in this indicator, the leader's actions relevant to Indicator 8.2 (Strategic Instructional Resourcing) should be addressed.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	relevant to this in	Ory: Leader's cf leader's actions dicator are minimal rg, or are having an
The leader routinely engages faculty in processes to improve the quality of curriculum resources in regard to their alignment with standards and impact on student achievement and supports replacing resources as more effective ones are available. The leader is proactive in engaging other school leaders in sharing feedback on identification and effective use of curriculum resources that are associated with improved student achievement. Parents and community members credit this leader with sharing ideas or curriculum supports that enable home and community to support student mastery of priority standards.	Specific and recurring procedures are in place to monitor the quality of alignment between curriculum resources and standards. Procedures under the control of the leader for acquiring new curriculum resources include assessment of alignment with standards. Curriculum resources aligned to state standards by resource publishers/developers are used school wide to focus instruction on state standards, and state, district, or school supplementary materials are routinely used that identify and fill gaps, and align instruction with the implementation level of the standards.	Processes to monitor alignment of curriculum resources with standards in the course descriptions are untimely or not comprehensive across the curriculum. Efforts to align curriculum with standards are emerging but have not yet resulted in improved student achievement. Curriculum resources aligned to state standards by text publishers/developers are used school wide to focus instruction on state standards, but there is no to minimal use of state, district, or school supplementary materials that identify and fill gaps, and align instruction with the implementation level of the standards.	There are no or processes mana leader to verify the resources are all standards in the descriptions.	iged by the hat curriculum igned with the

Reflection Questions for Indicator 3.4

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What system is in place to ensure that your best ideas and thinking on using curriculum to enable students to master standards are shared with colleagues, particularly when there is evidence at your school of improved student achievement?	What specific school improvement strategies have you employed to measure improvements in teaching and innovations in curriculum that serve as predictors of improved student achievement?	How can you monitor whether the activities and assignments student get that involve use of curriculum resources are aligned with learning goals and standards?	Do you know which standards are addressed in your curriculum?

Indicator 3.5 – Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Narrative: How do we know what our students already know, what they need to know, and how they are doing as we move forward with instruction? The school leader needs "assessment literacy" to address these questions. Where indicator 1.2 addresses the leader's proficiency in use of student performance data, this indicator focuses on actions taken at the school site to generate interim assessment data and make sure faculty use formative assessment practices to monitor and adjust instruction. Assessment of student progress toward academic standards is an important aspect of tracking student progress. Leaders need to make use of data on interim and formative assessments to guide goal setting and progress monitoring. They need to provide teachers access to quality assessments and promote teacher use of formative assessments as a routine strategy. The leader needs on-going assessment data to inform a variety of decisions regarding such issues as resource allocations, student and teacher schedules, professional learning impacts, and adjustments in plans.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader uses a variety of creative ways to provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement. Formative assessments are part of the school culture and interim assessment data is routinely used to review and adapt plans and priorities.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader systematically seeks, synthesizes, and applies knowledge and skills of assessment literacy and data analysis. The leader routinely shares knowledge with staff to increase students' achievement. Formative assessment practices are employed routinely as part of the instructional program. The leader uses state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions. These specific and observable changes result in increased achievement	Unsatisfacto Leader's actions or impact of leader's actions relevant to this indicator are actions relevant to this indicator are actions. The leader haphazardly applies rudimentary knowledge and skills of assessment literacy and is unsure of how to build	actions or impact or relevant to this in a relevant to this in and/or skills of as literacy and data. Reflection Questions for Indicator 3.5

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How might you engage other school leaders in sharing quality examples of formative assessment and use of interim assessment data? What procedures might you establish to increase your ability to help your colleagues provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement?	How might you engage teacher leaders in sharing quality examples of formative assessment practices with other faculty? How can you provide ongoing professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement?	How are you systematically seeking, synthesizing, and applying knowledge and skills of assessment literacy and data analysis? In what ways are you sharing your knowledge with staff to increase all students' achievement? In what ways are you using state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions to increase student achievement?	How are you expanding your knowledge and/or skills of assessment literacy and data analysis? What strategies have you considered that would increase your interaction with staff concerning assessments? How are you using your knowledge and skills of assessment literacy to change schedules, instruction, and curriculum or leadership practices to increase student achievement?

Indicator 3.6 – Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district's instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Narrative: School leaders are responsible for monitoring the effectiveness of classroom teachers. This indicator addresses the proficiency and focus of the leader's monitoring processes to maintain awareness of faculty effectiveness and the use of monitoring data to improve student and faculty performance. The focus here is on monitoring teacher use of strategies supported by contemporary research, teacher proficiency on issues contained in the district's teacher evaluation system, what teachers do to improve student achievement, and faculty proficiency on the FEAPs.

Note: Indicator 3.1 is focused on the leader's grasp of the FEAPs whereas this indicator focuses on monitoring the faculties' grasp of the FEAPs. Indicator 4.2 is focused on the leader's use of monitoring data to provide timely feedback.

The leader's monitoring process generates a shared vision with the faculty of high expectations for faculty proficiency in the FEAPs, research-based instructional strategies, and the indicators in the teacher evaluation system. The leader shares productive monitoring methods with other school leaders to support district wide improvements.	The leader's effectiveness monitoring process provides the leader and leadership team with a realistic overview of the current reality of faculty effectiveness on the FEAPs, the indicators in the teacher evaluation system, and research-based instructional strategies. The leader's monitoring practices are consistently implemented in a supportive and constructive manner.	The district teacher evaluation system is being implemented but the process is focused on procedural compliance rather than improving faculty proficiency on instructional strategies that impact student achievement. The manner in which monitoring is conducted is not generally perceived by faculty as supportive of their professional improvement.	the minimum red district teacher of system. Reflection Questions for Indicator 3.6

Reflection Questions for indicator 5.0				
Highly Effective	Effective	Needs Improvement	Unsatisfactory	
How do you convey to highly effective teachers specific feedback that would move them toward even higher levels of proficiency?	How do you improve your conferencing skills so your feedback to teachers is both specific enough to be helpful and perceived as support rather than negative criticism?	How do you restructure your use of time so that you spend enough time on monitoring the proficiency of instructional practices and giving feedback to be an effective support for the faculty?	How do you improve your own grasp of what the FEAPs require so that your monitoring has a useful focus?	
How do you engage highly effective teachers in sharing a vision of high quality teaching with their colleagues so that there is no plateau of "good enough"?	-			

Proficiency Area 4: <u>Faculty Development</u>: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Narrative: This proficiency area is aligned with FPLS standard 4. It moves the focus from "what is the current reality" of faculty proficiency to continuous progress toward what the faculty can achieve with effort and focus.

Indicator 4.1 – Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Narrative: The focus of this indicator is on the leader's actions to staff the school with the best faculty possible for the needs of the school population. It addresses actions taken to anticipate staffing needs, seek out quality applicants, and efforts to retain quality staff once on the faculty.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader tracks the success of her or his recruitment and hiring strategies, learns from past experience, and revisits the process annually to continually improve the process. The leader engages in a variety of traditional and non-traditional	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader works collaboratively with the staff in the human resources office to define the ideal teacher based upon the school population served. The leader is sensitive to the various legal guidelines about the kind of data that can be	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Reflection Questions for Indicator 4.1

Tenedicin questions for maiouter 411				
Highly Effective	Effective	Needs Improvement	Unsatisfactory	
What can be done to encourage quality teachers to stay with your school and quality applicants to seek to join the faculty?	What connections do you have to reach potential applicants other that the districts personnel office?	Have you gathered data about why teachers choose to leave your faculty? What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert?	At what point in the school year do you check on staff retention and estimate future staffing needs? In what ways are professional learning opportunities linked to individual faculty needs?	

Indicator 4.2 – Feedback Practices: The leader monitors, evaluates proficiency, and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals and the cause and effect relationships between professional practice and student achievement on those goals.

Narrative: Where indicator 3.6 focuses on monitoring to maintain awareness of faculty effectiveness, this indicator focuses on the use of the monitoring process to provide quality and timely feedback to teachers. The feedback processesneed to deepen teacher understanding of the impact of their practices on student learning.

Reflection Questions for Indicator 4.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance and that of the school? What might you do to ensure that they see this important connection?	What are some examples of focused, constructive, and meaningful feedback that you provide to your staff? How does this support their learning?	In what ways do you currently recognize faculty in providing feedback and affirmation to them? To what extent do you acknowledge the efforts of teams, as well as that of individuals?	How can frequent, focused, and constructive feedback support teachers in improving their instructional practice?

Indicator 4.3 – High effect size strategies: Instruct ional personnel receive recurring feedback on their proficiency on high effect size strategies.

Narrative: Teaching is a complex process. The "right thing to do" varies with conditions in the classroom. However, teachers needproficiency on a core repertoire of high importance strategies. These are strategies all teachers are expected to be able to use effectively. This indicator is focused on the leader's proficiency in focusing faculty attention on improvement of those "high effect size" strategies – those with higher probabilities of cau sing student growth when done correctly and in appropriate circumstances. Note: Department lists of I igh-effect size strategies are posted at www.fldoe.org and www.fldoe.org and www.fldoe.org and www.fldoe.org and

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of	relevant to this indicator are minimal or are not occurring, or are having an
of proficiency for other leaders. The leader uses a variety of creative ways to provide positive and corrective feedback on the implementation of high effect size strategies. As a result, the correct and appropriate implementation of high effect size instructional strategies across the curriculum and grades is a routine part of the learning environment for all students. The entire organization reflects the leader's focus on accurate, timely, and specific recognition of correct and appropriate implementation of high effect size strategies. The leader balances individual recognition on high effect size strategies with team and organization-wide recognition.	with only normal variations. In addition to the formal feedback consistent with the district evaluation system indictors, the leader provides recurring informal feedback on high effect size strategies to reinforce proficient performance and highlight the strengths of colleagues and staff. The leader has effectively implemented a system for collecting feedback from teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of high effect size strategies. Corrective and positive feedback on high effect size strategies is linked to organizational goals. Both the leader and employees can cite examples of where feedback on high effect size strategies is used to improve individual and organizational performance.	insufficient scope or proficiency. The leader adheres to the district evaluation system requirements for providing formal feedback on high effect size strategies, but the feedback is general rather than providing details that improve teaching or organizational performance related to high effect size strategies. The leader tends to view feedback as a linear process; something they provide teachers rather than two way communications where the leader also learns from the teachers' expertise.	adverse impact. The leader is nd aware of the high effect size strategies

they see this important connection?				

Indicator 4.4 - Instructional Initiatives: District supported state initiatives focused on student growth are supported by the leader with specific and observable actions including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives.

Narrative: The Department of Education and/or district-supported initiatives focused on improving student performance require school leader support to be successful at the school site. This indicator addresses the leader's proficiency insupporting such initiatives. Indicator 4.4 also focuses on professional learning needed to implement priority initiatives.

Note: District and FLDOE websites provide support and information about priority initiatives.

Indicator 4.5 – Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Narrative: Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Professional learning on-the-job is an essential aspect of effective schools. School leaders who manage the school in ways that support both individual and collegial professional learning get better outcomes than those who do not. The leader's personal participation in professional learning plays a major role in making professional learning efforts pay off. This indicator addresses the leader's role as a leader in professional development.

Rating Rubiic			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader uses a variety of creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies. The leader is personally involved in the learning activities of the faculty in way s that both show support and deepen understanding of what to monitor. The entire organization reflects the leader's focus on accurate, timely, and specific professional learning that targets improved instruction and student learning on the standards in the course descriptions.	The leader provides recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs. The leader removes barriers to time for professional learning and provides needed resources as a priority. Participation in specific professional learning that target improved instruction and student learning is recognized by the faculty as a school priority. Leadership monitoring of professional learning is focused on the impact of instructional	Less than a majority of the faculty can verify participation in professional learning focused on student needs or faculty proficiency at high effect size strategies. Time for professional learning is provided but is not a consistent priority. Minimal effort expended to assess the impact of professional learning on instructional proficiency. Leadership monitoring of professional learning is focused primarily participation with minimal attention given to the impact of instructional proficiency on student learning.	Focused professional development on priority learning needs is not operational. Few faculty members have opportunities to engage in collegial professional development processes on the campus. Individual professional learning is not monitored and is not connected to the school improvement plan or student learning needs.

Reflection Questions for Indicator 4.5

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What strategies have you implemented so that you spread your learning about providing professional learning for individual and collegial groups within your school to your colleagues across the school system?	What might be some creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies?	As you think about your leadership in providing professional learning, what are key strategies for you to consider that would help you provide recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs?	How would you describe your efforts to make certain that your professional learning is focused on student needs or faculty proficiency at high effect size strategies?

Narrative: Faculty development has many aspects. This indicator addresses the leader's proficiency at

Indicator 4.6 – Faculty Development Alignments: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by:

- generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan,
- identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement),
- aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals,
- and using instructional technology as a learning tool for students and faculty.

developing faculty capacity to implement culturally relevant differentiated instruction by <u>aligning</u> the various faculty developments processes and practices with certain key issues (Standards-based content, research-based methods, data for planning, etc. as specified in the text of the standard.)

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader has demonstrated a record of differentiated professional learning for faculty based on student needs. The leader has developed a	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Indicator 4.7 – Actual Improvement: The leader improves the percentage of effective an d highly effective teachers on the faculty.

Narrative: An indicator required by 1012.34 F.S., the focus is on whether the accumulated impact of the leader's actions result in positive trend lines on teach er effectiveness. Evidence gathered from proficiency area #3 provide a base line that, along with teacher rating in the district's teacher evaluation system and student growth measures, enable assessment of whether actual improvement in teacher's proficiency is occurring.

Proficiency Area 5: <u>Learning Environment</u>: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.

Narrative: This proficiency area is aligned with FPLS standard 5. Much of what student's experience in school is a result of decisions and actions by the adults in the school. Learning environments that are success oriented, student centered, treat diversity as an asset, and focus on eliminating achievement gaps support students preparation for fulfilling lives.

Indicator 5.1 – Student Centered: The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Narrative: School leaders who monitor what students experience by being enrolled in the leader's school have better insights on how to make the system work than those who do not monitor impact of policies and practices on students. It is the leader's responsibility to know whether student life is equitable, respectful, and supportive of engagement in learning.

Reflection Questions for Indicator 5.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What practices have you engaged in to increase professional knowledge opportunities for colleagues across the school system regarding your efforts to ensure the creation and maintenance of a learning environment conducive to successful teaching and learning for all?	What evidence would you accept you were ensuring the creation and maintenance of a learning environment conducive to successful teaching and learning for all?	How would you describe your efforts to provide clear evidence that you create and maintain a learning environment that is generally conducive to ensure effective teaching and learning, although there may be some exceptions?	What strategies are you intentionally implementing to create and maintain a safe and respectful environment to ensure successful teaching and learning or addresses safety concerns as they arise?

Indicator 5.2 - Success Oriented: Initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.

Narrative: The issues in 5.1 focus on monitoring how school policy and practice affect the quality of student lives. This indicator shifts focus from those broad issues to what happens at the school that

creates opportunities for student success and students' perceptions that school life is organized to do something good for them. School should be rigorous and demanding but also implemented in ways that create recurring opportunities for success.

Highly Effective: Leader's	Effective: Leader's actions or	Needs	Improvement:	ry: Leader's

with oth4r school leaders?		What barriers to student success are not being addressed in your school?	

Indicator 5.3 – Diversity: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and t classroom practices tha validate and value similarities and differences among students.

Narrative: "Diversity practices" refers to the capacity of teachers and school leaders to recognize the many variations in students that impact learning growth (e.g. learning processes, prior learning experiences, family and cultural backgrounds); implement practices that respect diversity in learning needs (e.g. multi-tiered system of supports) and make adjustments at the classroom level that make use of student strengths and promote growth needs.

Reflection Questions for Indicator 5.3

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What procedures might you establish to increase your ability to help your colleagues develop curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	What strategies might you employ so that you could share with others throughout the district practices that help them put into action your belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	How might you increase the consistency with which you act on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	How might you expand the opportunities for all students to meet high expectations by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?

Indicator 5.4 – Achievement Gaps: The leader engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.

Narrative: Where indicato r 5.3 is focused on the broad array of diversity factors that impact success of individual students and s tudent sub-groups, indicator 5.4 focuses on <u>academic growth</u> of specific sub-groups whose academic performance lags behind what they are capable of achieving. The leader is expected to prepare the f culty to do what is needed to meet the academic improvement needs of the sub-group(s).

rating rabito			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader has created a self-regulating system based on data that guarantees regular and predictable success of all subgroups, even if conditions change from one year to another. Achievements gaps have been eliminated or substantially minimized with trend lines consistently moving toward elimination of such gaps.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Processes to minimize achievement gaps within all impacted subs-groups are employed for all sub-groups with positive trend lines showing reduction of gaps for all subgroups. The leader consistently applies the process of inquiry and/or has enabled development of processes that generate greater understanding of the school's current systems and their impact on sub-group academic achievement.	evident but are inconsistent or of insufficient scope or proficiency. Sub-groups within the school and associated with achievement gaps have been identified and some processes are underway to understand root causes. Some actions to minimize the gaps have been implemented but either do not reach all subgroup students or have inconsistent or minimal results. The leader inconsistently applies the process of inquiry and/or has enabled only limited efforts to develop of processes that generate greater understanding of the school's current systems and their impact on sub-group	Unsatisfact ory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader does not identify nor implement strategies to understand the causes of subgroup achievement gaps. No changes in practices or processes have been implemented under the leader's direction that is designed to address achievement gaps. The leader does not apply the processes finquiry and/or develop processes that generate greater understanding of the school's current systems and their impact on sub-group academic achievement.

Reflection Questions for Indicator 5.4

Reflection Questions			
Highly Effective	Effective	Needs Improvement	Unsatisfactory
What strategies might you employ to increase your ability to help your colleagues understand how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment, etc.) in order to improve student achievement?	What are one or two critical steps you could take that would shift your examination of culture to a point that they become a self-regulating system based on data that guarantees regular and predictable success even if conditions change?	How might you systematically apply the process of inquiry to develop methods of generating greater understanding of the cultures of individuals within the building and how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment) to improve student achievement?	Why do sub-groups students like those in your school not perform as well as similar groups in other schools? In what ways might you demonstrate greater understanding of cultures and their impact on the current systems in your school to improve student learning?

Domain 3: Organizational Leadership

Narrative: This domain addresses proficiencies that impact the quality of a broad array of school operations. The focus is applying these proficiencies to improve student achievement, instructional leadership, and professional conduct.

Narrative: This proficiency area is aligned to FPLS standard #6. How decisions are made can be as important as what decisions are made. The leader's proficiency at balancing the various aspects of decision-making is the focus of this area.

Indicator 6.1 – Prioritization Practices: The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Narrative: Leaders make many decisions. Those that impact student learning and teacher proficiency require priority attention. The focus is the leader's ability to make sure that decisions on student learning and faculty proficiency are not lost among the lower priority issues or given inadequate attention because of all the other things leaders do.

Rating Rubiic				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader produces clear, convincing, and consistent evidence that demonstrates an understanding of learning, teaching, and student development to inform all decisions and continuously uses this information to enhance teaching and learning. The leader produces clear, convincing, and consistent evidence that, on an ongoing basis, all decisions are made in a way that promotes the school's vision and mission. Effective decision-making practices are frequently shared with other administrators and colleagues throughout the	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader's decisions consistently demonstrate an understanding of learning, teaching, and student development. The leader produces clear evidence of making most decisions in a way that supports the school's vision and mission regarding student learning and faculty proficiency.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Narrative: Problem solving is an essential support to decision m aking. The leader's skill in using thinking skills and data to define

Indicator 6.2 – Problem 5 olving: The leader uses critical thinking and data-based proble m solving techniques to define problems and identify solutions.

problems and identify solutions is the focus here.

rtating rtabile				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader demonstrates the ability to construct a clear and insightful problem statement with evidence of relevant contextual factors. The leader identifies multiple approaches for solving a problem and proposes one or more solutions/hypotheses that indicate a deep comprehension of the problem. The solutions are sensitive to contextual factors as well as all of the following: ethical, logical, and cultural dimensions of the problem. The leader's evaluation of solutions is comprehensive and includes all of the following: history of the problem, logic/reasoning, feasibility and impact of the solution. The solution is implemented in a manner that addresses each of the contextual factors of the problem. A thorough review of the results is conducted to determine need for further work.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader demonstrates the ability to construct a problem statement with evidence of most relevant contextual factors and the problem statement is adequately detailed. The leader identifies multiple approaches for solving a problem. The leader's solutions are sensitive to contextual factors as well as at least one of the following: ethical, logical, or cultural dimensions of the problem. Evaluation of solutions is adequate and includes: history of the problem, reviews logic and reasoning, examines feasibility of solution, and weighs impact. The solution is implemented and the results reviewed with some consideration for further work.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader is beginning to demonstrate the ability to construct a problem statement with evidence of most relevant contextual factors, but the problem statements are superficial or inconsistent in quality. Typically, a single "off the shelf" solution is identified rather than designing a solution to address the contextual factors. The solution is implemented in a manner that addresses the problem statement but ignores relevant factors. Results are reviewed with little, if any, consideration for further work.	relevant to this in	of leader's actions deator are minimal rg, or are having an onstrates a identify a ent or related rs. gue or only as the problem plemented in a se not directly olem statement d superficially

		Improvement	
How do you continue to clarify the decision-making process in a dynamic, changing environment?	Why is it necessary for you as a school leader to reevaluate prior decisions and programs in light of emerging research, personal experience, and changing situations?	What will you do from now on to ensure previous decisions and programs are revisited and evaluated on a routine basis?	When do you take time with your leadership team to reflect on decisions that have been made? In what ways do you evaluate decisions on the basis of student achievement?

Indicator 6.4 – Distributive Leadership: The leader empowers others and distributes leadership when appropriate.

Narrative: A school is too complex for one person to make all decisions. Some of the functions of leadership must be shared with others. Developing capacity for success in a workforce requires enabling other people to be responsible for meaningful decisions. The leader's capacity to share the "right stuff" and distribute decision making among other appropriate staff is the focus here.

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Unsatisfacto Leader's actions or impact of leader's actions relevant to this indicator are	or are not coourn	f leader's actions cator are minimal g, or are having an
Innovation and improvement in instructional processes, faculty development, or school operations have resulted from distributive leadership. The leader encourages staff members to accept leadership responsibilities outside of the school building. The leader incorporates teacher and support staff into leadership and decision-making roles in the school in ways that foster the career development of participating teachers.	The leader creates opportunities for staff to demonstrate leadership skills by allowing them to assume leadership and decision-making roles. The leader supports the decisions made as part of the collective decision-making process. Decision-making delegations are clear: Sub-ordinates know what decisions are made by the leader, which by the leader after input from others, and which are delegated to sub-ordinates to decide.	Some well-understood leadership roles other than the school principal are functioning and contributing to effective and timely decisions on some school priorities, but there are recurring delays in reaching decisions on other issues. Decisions are often rushed or made without appropriate input due to lack of planning and implementation of development activities by staff members.	There is no or or evidence that ar the principal has role in making till the leader rarel significant issues of stakeholder g faculty leaders, t student, parents business leaders	yone other than a meaningful mely decisions. y seeks input on s from a variety roups (e.g. teachers, s, community, or

Indicator 6.5 – Technology Integration: The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Narrative: Technology was a separate standard in the 2005 Florida Principal Leadership Standards (FPLS). By 2011 the state had made great strides toward accepting technology into the schools. In the 2011 FPLS, technology moved from a separate general "pro-technology" standard to focused <u>applications</u> of technology embedded in several standards. This indicator focuses on technology integration and the leader's use of technology to improve decision-making processes in several priority areas.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader mentors other school leaders on effective means of acquiring technology and integrating it into the decision-making process. The leader provides direct mentoring and coaching supports so that new staff and new sub-ordinate leaders are quickly engaged in effective use of technology supports needed to enhance decision-making quality.	Technology support for decision-making processes is provided for all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership. Engages sub-ordinate leaders in developing strategies for coaching staff on integration of technology.	Technology support for decision-making processes is provided for some, but not all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports some, but not all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership.	There is no or only minimal evidence that decision-making prioritization, problem solving, decision evaluation or distributed leadership processes are supported by technology integration. Decision making is not supported by a well-understood system of procedures to identify problems and generate solutions. Technology integration does not support data exchanges, project management, and feedback processes.

Proficiency Area 7. <u>Leadership Development</u>: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Narrative: This proficiency area aligns to Standard 7. Leaders are developed by other leaders. This is a process critical to an organization's capacity to improve over time and sustain quality processes. This proficiency area focuses on what leaders do to develop leadership in others.

Indicator 7.1 – Leadership Team: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Narrative: The FPLS are based on a presumption that the school leader works with and through a team of other people to insure coordination and focus of school operations and improvements. Leadership teams get things done!

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The participants in the school's leadership team function independently with clear and efficient implementation of their role(s) and work in a collegial partnership with other leadership team participants to coordinate operations on student growth and faculty development. Leadership development processes employed by the school leader are shared with	Those who are assigned or have accepted leadership functions have consistent support from the school leader in focusing their efforts on instructional improvement and faculty development. The leader has specifically identified and cultivated potential and emerging leaders for the major functions of the school.	The leader has identified staff for leadership functions, follows district personnel guidelines for accepting applications for new leaders, but has not implemented any systemic process for identifying emergent leaders, or is inconsistent in application of such a process. The leader provides some training to some of the people assigned leadership functions,	The leader does not recognize the need for leadership by other people. Staff with leadership titles (e.g., department heads, team leaders, deans, assistant principals) has little or no involvement in processes that build leadership capacities. Persons under the leader's direction are unable or unwilling to assume added

identified at least two emerging leaders in the past year, and has entered them into the ranks of leadership training or provided personal mentoring on site. Other school leaders cite this leader as a mentor in identifying and cultivating emergent leaders. Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Organizational charts identify the leadership roles and team members. The leader has a system for identifying and mentoring potential leaders. The leader can cite examples in which s/he coached several emerging leaders to assume greater levels of responsibility within the organization. Minutes, e-mails, and memorandums reflecting exchanges	other school leaders as a model for developing quality leadership teams. Reflection Questions for Indicator 7.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How do you provide guidance and mentorship to emerging leaders outside of your personal job description and leadership responsibilities? How would you describe the system you use to ensure that emerging leaders pursue job opportunities when they are available? How might you embed this preparation into their job duties, and what changes will you need to make to help build such leadership	How have you designed the school improvement process to develop leadership capacity from existing faculty? What strategies and lessons might you impart to your direct reports to better prepare them for expanded leadership opportunities?	What process do you employ to encourage participation in leadership development? When do you release responsibility to your assistants to own key decisions? How do you leverage school improvement activities to build leadership capacity for assistants and emerging teacher leaders?	What process is available to you that help you screen and develop potential leaders? How might you spend time explicitly preparing your assistants to assume your role as principal? What steps would you take to spend more time in preparing your assistants to assume your role as principal?

capacity at your school?			
Indicator 7.2 – Delegation	The leader establishes del	egated areas of responsibility	for sub-ordinate leaders

Indicator 7.2 – Delegation The leader establishes delegated areas of responsibility for sub-ordinate leaders and manages delegation a d trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, prov le quality control, and bring projects and tasks to closure.

Narrative: Leadership teams engage other skilled people in the b siness of the school. However, involvement does not insure effective organizations. This indicator focuses on the distribution of responsibility and whether sub-ordinate leaders have been delegated all that is needed to succeed.

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	relevant to this ind or are not occurring adverse impact.	f leader's actions icator are minimal g, or are having an
Staff throughout the organization is empowered in formal and informal ways. Faculty members participate in the facilitation of meetings and exercise leadership in committees and task forces; other employees, including noncertified staff, exercise appropriate authority and assume leadership roles where appropriate. The climate of trust and delegation in this organization contributes directly to the identification and empowerment of the next generation of leadership.	There is a clear pattern of delegated decisions, with authority to match responsibility at every level in the organization. The relationship of authority and responsibility and delegation of authority is clear in personnel documents, such as evaluations, and also in the daily conduct of meetings and organizational business.	The leader sometimes delegates, but also maintains decision-making authority that could be delegated to others. Clarity of the scope of delegated authority is inconsistent from one delegation to another. Actions taken by those to who tasks are delegated are sometimes overruled without explanation.		opportunity or op or to exercise gment. occurred there y on what was to or what available to carry

Highly Effective	Effective	Needs	Unsatisfactory
		Improvement	
To what extent do you have a systematic process in place for delegating authority to subordinates?	How might you increase the range and scope of tasks and responsibilities you delegate to key individuals or teams?	Under what circumstances would you be willing to release increased decision-making authority to your staff and faculty?	What factors prevent you from releasing responsibilities to staff?
	In what areas do faculty and staff bring expertise that will improve the quality of decisions at your school?	How might you use the function of delegation to empower staff and faculty at your school?	

Indicator 7.3 – Succession Planning: The leader plans for and implements succession management in key positions.

Narrative: When the leader is off campus – who is in charge? When the leader changes jobs or retires, who is prepared to take over? What about the school's subs-ordinate leaders? Who takes over for them? Succession planning is building relationships and preparation processes for involving others in ways that prepare them to move into key positions as they become vacant.

Reflection Questions for Indicator 7.4

Highly Effective	Effective	Needs Improvement	Unsatisfactory
In what ways might you further extend your reach within the district to help others throughout the district benefit from your knowledge and skill in establishing relationships among key stakeholder groups?	What strategies are you employing so you can share your experiences relative to establishing relationships with key stakeholders to support potential and emerging leaders?	In what ways are you working to establish networks with key stakeholder groups to cultivate and support potential and emerging leaders in your school?	How might your relationships with faculty and key stakeholder groups help to cultivate and support potential and emerging leaders in your school?

Proficiency Area 8. <u>School Management</u>: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Narrative: This proficiency area aligns with Standard 8. A school is an "organization." School leaders manage implementation of many rules, regulations, and policies. However, the "organization" is the people working together to provide learning to students. What leaders do to manage those people and the environment in which they work is the focus of this area.

Indicator 8.1 – Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Narrative: Time, tasks, and projects all need organization to have the desired impact. This indicator focuses on the key aspects of organization essential to school success.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader uses project management as a teaching device, helping others understand the interrelationship of complex project milestones throughout the organization. The leader uses complex project management to build system thinking throughout the organization. Project plans are visible in heavily trafficked areas, so that accomplishments are publicly celebrated and project challenges are open for input from a wide variety of sources. Successful project results can be documented.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Project management documents are revised and updated as milestones are achieved or deadlines are changed. The leader understands the impact of a change in a milestone or deadline on the entire project, and communicates those changes to the appropriate people in the organization. Task and project management and tracking of deadlines are routinely monitored with an emphasis of issues related to instruction and faculty development.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Project management methodologies are vague or it is unclear how proposed project management tools will work together in order to help keep tasks and projects on time and within budget. The impact of changes in an action plan or deadline is inconsistently documented and communicated to people within the organization.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is little or no evidence of time, task or project management focused on goals, resources, timelines, and results.

	the building?		

Indicator 8.2 – Strategic Instructional Resourcing: The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

Narrative: Resources are always limited. How well a leader does at putting resources where they are needed and when they are needed to support instructional goals is the focus here. Do teachers and students get what they need when they need it?

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. 		Improvement	
How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases to student achievement?	To what extent are faculty and staff aware of your budgeting expectations? How are your budgeting expectations delineated, published, and communicated?	Have there been instances in which you failed to meet deadlines or where expenditures resulted in budget overruns? What did you learn from that experience and how did you apply lessons from it?	When resources are limited, what actions do you take as the school leader to allocate them most efficiently?

Narrative: Team learning is an essential element in a learning organization. Does the leader provide needed supports to collegial learning? Are barriers to success removed? Everyone working in isolation reduces the probability of improvements. Collegial processes need resource support. This indicator assesses the leader's proficiency at providing that support.

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader leverages knowledge of the budgeting process, categories, and funding sources to maximize the impact of available dollars on collegial processes and faculty development. Results indicate the positive impact of deployed resources in achieving a culture of deliberate practice focused on school improvement needs. The leader has established processes and faculty development through grants, business or higher education partnerships, and/or community resourcefulness.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader has established routines regarding allocation of time and facility resources that result in wide faculty participation in collegial processes and faculty development. School fiscal resources are allocated to support collegial processes and faculty development. Clear delegations of responsibility are evident that involve highly effective faculty in sustaining collegial processes and faculty development.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader lacks proficiency in using budget, work schedules, and/ or delegation of involvement to focus time and resources on collegial processes and faculty development. There is a lack of sustained and focused resource allocation on these issues.	relevant to this in or are not occurri adverse impact.	of leader's actions ideator are minimal g, or are having an ittle or no record or keeping provide ld schedules of oort collegial

Reflection Questions for Indicator 8.3

Highly Effective	Effective	Needs	Unsatisfactory
How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases in the quality of collegial processes?	To what extent are faculty and staff aware of your focus on collegial processes? How are faculty given opportunities to request or recommend time or resource allocations that support collegial processes and faculty development?	Improvement Have there been instances in which you failed to act on opportunities to support collegial processes or faculty development? What did you learn from that experience and how did you apply lessons from it?	When resources are limited, what actions do you take as the school leader to reallocate them to the high impact functions like collegial processes and faculty development?

community;

- Managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; and
- Recognizing individuals for good work; and maintaining high visibility at school and in the community.

Narrative: The "voice of the school" represents a core set of communication processes that shape perceptions about the school – the leader's communications central among them. The leader must manage the "voice of the school" so clear, coherent and accurate information flows to faculty, students, and stakeholders. The perceptions of those involved in the success of the school need to be heard, acknowledged, and understood.

Indicator 9.1 – Constructive Conversations: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

Narrative: Skillful "speaking" is important. So is skillful listening. People can engage in conversation on many things, but some things are more important to school improvement than others. Making sure speaking and listening occurs on the important issues is a leader's task.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. In addition to the practices at the effective level, the highly effective leader routinely mentors others within the district to effectively employ key active listening skills (e.g. wait time, paraphrasing, asking clarifying questions) when interacting with diverse stakeholder groups about high achievement for all students. There is evidence of the leader making use of what was learned in constructive conversations with others in the leader's subsequent actions, presentations, and adjustments to actions.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) and reciprocally listens to and communicates with students, parents, staff, and community using multiple methods (i.e., oral, written, and electronic) to seek input/ feedback and to inform instructional and leadership practices. The leader systematically communicates with diverse stakeholders about high achievement for all students.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader's involvement in regard to listening to and communicating with students, parents, staff, and community is primarily unplanned and/or initiated by others rather than the leader "reaching out." The leader has only a few methods to seek input/feedback with the intent to inform instructional and leadership practices. The leader's communications with stakeholders about high achievement for all students are not carefully planned and implemented.	unsatisfact actions or impact or relevant to this ind or are not occurring adverse impact. Narrative: Leaders need to be seen by those they are to lead...and those who are asked to engage in rigorous effort on the leader's goals need access to the leader. While leaders must manage their time, they must also make sure those who need access can get it in reasonable ways and timeframes. In a 21st century technological society use of social networking and other technologies to promote accessibility is a valuable leadership competency.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. In addition to the practices at the effective level, the leader initiates processes that promote subordinate leaders access to all through a variety of methods stressing the need for engagement with stakeholder groups. The leader serves as the "voice of the school" reaching out to stakeholders and advocating for school needs.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Leader provides timely access to all through a variety of methods using staff and scheduling practices to preserve time on instructional priorities while providing processes to enable access for parents and community. Leader is consistently visible within the school and community focusing attention and involvement on school	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Leader's actions to be visible and accessible are inconsistent or limited in scope. Limited use of technology to expand access and involvement. Leadership is focused within the school with minimal outreach to stakeholders.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Leader is not accessible to staff, student, or stakeholders and does not engage stakeholders in the work of the school. Leader has low visibility to students, staff, and community.
---	--	---	---

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Leader's work schedule reflects equivalent of two work days a week in classrooms and interacting with students and teachers on instructional issues. Meeting schedules reflect frequency of access by various stakeholders. Executive business partnerships engaging local business leaders in ongoing support of school improvement. E-mail exchanges with parents and other stakeholders. Websites or weblogs provide school messaging into the community. Leader has established policies that inform students, faculty, and parents on how to get access to the leader. Leader monitors office staff implementation of access policies to insure timely and responsive accessibility. Other leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following: School office staff have effective procedures for routing parents and stakeholders to appropriate parties for assistance and informing the leader when direct involvement of the leader in necessary. Sub-ordinate leaders' involvement in community events where school issues may be addressed. "User friendly" processes for greeting and determining needs of visitors. Newspaper accounts reflecting leader's accessibility. Teacher and student anecdotal evidence of ease of access Parent surveys reflect belief that access is welcomed. Indicator 9.4 – Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Narrative: Leading is about enabling others to succeed. Recognition of the successes and contributions of others is a key leadership function. Recognition from the leader is motivating and focusing. The recognition needed is more than "good job." It

identifies what people did to generate the success being recogni zed. Recognizing the way in which people succeed encourages them to continue those practices and informs others "by what me thods" they may do the same.

Rating Rubric

Rating Rubric				
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. In addition to meeting effective level criteria, the leader utilizes recognition reward, and advancement as a way to promote the accomplishments of the school. Shares the methods that lead to success with other leaders. Engages community groups in supporting and recognizing rigorous efforts to overcome past failures.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) recognizes individuals for praise, and where appropriate rewards and promotes based on established criteria. Recognizes individual and collective contributions toward attainment of strategic goals by focusing on what was done to generate the success being celebrated.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader uses established criteria for performance as the primary basis for recognition, and reward, but is inconsistent or untimely in doing so, with some people deserving of recognition not receiving it.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader does not celebrate accomplishments of the school and staff, or has minimal participation is such recognitions.

Domain 4 - Professional and Ethical Behavior

Narrative: This domain is focused on the professional integrity and dedication to excellence of the school leader. The indicators in this domain focus on behaviors essential to success as a school leader.

Narrative: There are two broad proficiency areas that are the focus of evaluation of behavior and ethics. One is approached as Proficiency Area 10 of the FSLA which is focused on Florida Principal Leadership Standard #10 (FPLS). The indicators in proficiency area 10 address resiliency, professional learning, commitment, and conduct. The other major professional behavior area, Deliberate Practice, is a separate metric, scored separately and, when combined with the overall FLSA score, generates the Leadership Practice Score.

Indicator 10.1 – Resiliency: The leader demonstrates resiliency in pursuit of student learning and faculty development by:

- · staying focused on the school vision,
- · reacting constructively to adversity and barriers to success,
- · acknowledging and learning from errors,
- · constructively managing disagreement and dissent with leadership,
- bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and
- productive attitudes in the face of adversity.

Narrative: The lead indicator in this FSLA domain is focused on resiliency. Leadership takes strength of character and a capacity to "weather the storm(s)" to get quality results. It includes learning from mistakes and sticking with it until you get it right.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader builds resilience in colleagues and throughout the organization by habitually highlighting and praising 'good mistakes' where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future. The leader encourages constructive dissent in which multiple voices are encouraged and heard; the final decision is made better and more broadly	The leader readily acknowledges personal and organizational failures and offers clear suggestions for personal learning. The leader uses dissent to inform final decisions, improve the quality of decision-making, and broaden support for his or her final decision. The leader admits failures quickly, honestly, and openly with direct supervisor and immediate colleagues.	The leader is able to accept evidence of personal and organizational failures or mistakes when offered by others, but does not initiate or support the evidence gathering. Some evidence of learning from mistakes is present. The leader tolerates dissent, but there is very little of it in public. The leader sometimes implements unpopular policies unenthusiastically or in a perfunctory manner.	The leader is unwilling to acknowledge errors. When confronted with evidence of mistakes, the leader is defensive and resistant to learning from mistakes. The leader ignores or subverts policy decisions or initiatives focused on student learning or faculty development that are unpopular or difficult. Dissent or dialogue about the need for improvements is absent due to a climate of fear and

		T =	T
supported as a result. The leader is able to bounce back quickly from adversity while remaining focused on the vision of the organization. The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons. The influence of previous evaluations has a positive impact not only on the leader, but on the entire organization.	Non-defensive attitude exists in accepting feedback and discussing errors and failures. There is evidence of learning from past errors. Defined structures and processes are in place for eliciting input. Improvement needs noted in the leader's previous evaluations are explicitly reflected in projects, tasks, and priorities.	The leader tolerates dissent, but there are minimal to no systemic processes to enable revision of levels of engagement, mental models, and/or misconceptions. The leader is aware of improvement needs noted in previous evaluations, but has not translated them into an action plan.	intimidation and/or apathy. No evidence or reference to previous leaders hip evaluations is present in the leader's choices of tasks and prio rities.

Reflection Questions for Indicator 10.1

Reflection Questions	S		
Highly effective	Effective	Needs Improvement	Unsatisfactory
What additional insights are you gaining about the challenges of reconciling points of view disagreements and fully supporting and executing organizational policy and leadership decisions? What additional insights have you gained about the value of supporting processes that enable faculty to reflect on and modify their own mental models based on evidence rather than assumptions?	How might you reconcile your opinions with final decisions in supporting and implementing organizational policy and leadership decisions? How can you help your staff grow to acknowledge and implement systems for gaining multiple perspectives in decision-making?	When or how is it appropriate to challenge policy and leadership decisions, if at all? What leadership practices, structures, and processes could you put in place that would help staff know that dissent is welcomed as part of an informed decision-making process?	How do you deal with decisions with which you are uncomfortable? Do you think about the impact when unpopular or difficult policy decisions are undermined, ignored, or executed with public disagreement or lack of enthusiasm from yourself or your staff? What needs to be done to establish enough trust that faculty and staff feel free to present opposing views with you in an open, sharing way?

Indicator 10.2 – Professional Learning: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Narrative: Professional learning is addressed in several FSLA indicators, each from a different perspective. Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Indicator 4.4 focuses on professional learning needed to implement priority initiatives. Indicator 4.6 addresses alignment of faculty professional learning with improvement of instruction. The Deliberate Practice metric concentrates on a very few issues where the leader drives for deep learning and personal mastery of a few "thin slices." Indicator 10.2 is focused on the impact of the leader's professional learning – does the leader's learning result in improved performance?

Tracing Trabile			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
Performance improvements linked to professional learning are shared with other leaders thus expanding impact.	The leader routinely shows improvement in areas where professional learning was implemented.	The leader demonstrates some growth in some areas based on professional learning. Indicator 10.3 – Commitment: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community.

Narrative: Leaders are committed to carrying out the role of school leader in ways that benefit others: Students – faculty – community. Barriers to having that impact are not seen as reasons to give up but as problems to be solved.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The messaging and support systems of the effective principal are expanded to engage parents and the community at large in participating in actions that promote student success and mitigate or eliminate multiple barriers to success. The principal's actions on behalf of students form a foundation of mutual respect between students, faculty and the community.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There are programs and processes within the school that focus all students on the importance of success in school and multiple tiers of support to assist them in overcoming barriers to success. Positive slogans and exhortations to succeed are supported with specific and realistic guidance and supports on how to succeed and overcome barriers. The schools vision of success for all students is shared with the community at large.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader demonstrates professional concern for students and for the development of the student's potential but implementation of processes to identify barriers to student success have limited scope and have resulted in actions to mitigate those barriers and provide supports for success only for some students. There are gaps in processes that engage all faculty in understanding the student population and the community in which they live. Some student sub-groups do not perceive the school as focused on their best	relevant to this incor are not occurring adverse impact. Evidence Log (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

Reflection Questions for Indicator 10.3

Highly Effective	Effective	Needs	Unsatisfactory
		Improvement	
What actions are needed to sustain the role of the school in generating a community wide effort to insure students succeed?	What outreach can you initiate to expand the involvement of parents and community leaders in supporting student success and deepening understanding of the barriers and actions that mitigate them?	Have you presented an effective challenge to perceptions that student apathy or lack of parent involvement are acceptable explanations for lack of success by some students or subgroups?	Do you know enough about the students and the community in which they live to recognize the barriers that prevent success by all of the students?

Indicator 10.4 - Professional Conduct. The leader Adheres to the Code of Ethics (Rules 6B-1.001) of the Education Profession in Florida and to the Principles of Professional Conduct for the education profession (Rules 6B-1.006, F.A.C.).

Narrative: State Board Rules define specific expectations for the conduct and ethical behaviors for Florida educators.

Rating Rubits			
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
There is clear, convincing, and consistent evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida, and inspires others within the organization to abide by that same behavior.	There is clear evidence that the leader values the worth and dignity of all people, the pursuit of truth, devotion to excellence (i.e., sets high expectations and goals for all learners, then tries in every way possible to help students reach them) acquisition of knowledge, and the nurture of democratic citizenship.	The leader's behaviors enable recurring misunderstanding and misperceptions about the leader's conduct and ethics as expressed in the Code and Principles. There are segments of the school community whose developmental needs are not addressed and leadership efforts	The leader's patterns of behavior are inconsistent with the Code of Ethics, Rule 6B-1.001, or disciplinary action has been initiated based on violation of the Principles of Professional Conduct, Rule 6B-1.006.
The leader clearly demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community, as a result the leader achieves and sustains the highest degree of ethical conduct and serves as a model for others within the district.	The leader's primary professional concern is for the student and for the development of the student's potential. Therefore, the leader acquires the knowledge and skills to exercise the best professional judgment and integrity. The leader demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of	to understand and address those needs is not evident. The leader has only a general recollection of issues addressed in the Code and Principles and there is limited evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state

Principal:
District Administrator:
Date:
Discuss your most recentround of progress monitoring data. Specifically, a. What skills did students do well on?
b. What skills did students underperformon?
c. How did your lowest quartile students do? Are they in need of additional support? If so, what kind?
2. Based on your progress monitoring data, what is the gap analysis between your interim data and your proficiency targets?
3. What is your plan to close these gaps?
4. How are you ensuring that all standards will be taught by the testing window?
5. In general, what progress have you made on your school SIP goals?
6. Do you have any instructional staff that you have concerns about?
7. Is there anything that district administration can do to help you?

Mid-year Progress Review between school administrator and evaluator: At a mid-year point, a progress review is conducted.

- Actions and impacts of actions taken on priorities identified in Step 3 Initial Meeting are reviewed.
- Any indicators which the evaluator has identified for a specific status update are reviewed. (The
 leader is given notice of these indicators prior to the Progress Check, as the feedback expected is
 more specific than that for the general indicator overview.)
- The leader is prepared to provide a general overview of actions/processes that apply to all
 of the domains and proficiency areas and may include any of the indicators in the district

system. Any indicator that the evaluator or the leader wishes to address should be included.

- Strengths and progress are recognized.
- Priority growth needs are reviewed.
- Where there is no evidence related to an indicator and no interim judgment of proficiency can be provided, a plan of action must be made:
 - If the evaluator decides that the absence of evidence indicates unsatisfactory
 proficiency because actions or impacts of action should be evident if leader was
 proficient, the leader is provided notice that the indicator(s) will be addressed in a
 follow-up meeting.
 - The absence of evidence is explained by lack of opportunity for the evaluator to note anything relevant, and leader is asked to provide follow-up data on the indicator prior to the year-end conference.
 - The lack of evidence on one indicator is balanced by substantial evidence on other indicators in the same proficiency area. No follow-up is required until evidence supporting a Needs Improvement (NI) or Unsatisfactory (U) rating emerges.
- Any actions or inactions which might result in an unsatisfactory rating on a domain or proficiency area if not improved are communicated.
- Any indicators for which there is insufficient evidence to rate proficiency at this stage, but which will be a priority for feedback in remainder of the year, are noted.

The Levy *Principal Mid-Year Evaluation Form* is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Notes or memorandums may be attached to the form as appropriate to reflect what is communicated in the Progress Check. This form is provided below:

Notes/Final Score:

Appendix C-Student Performance Measures

In Appendix C, the district shall provide the student performance measures to be used for calculating the performance of students for school administrators.

Student Growth Measure Score

Student growth measure score will be based on the most recent three years of student performance data, when available. This would include the current year and the two years

immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available will be used.

Levy County Assessments for Student Growth:

Beginning with the 2018-19 School year, the student performance data will be based on the school grade which is given the school through the Florida Department of Education Florida School Accountability Report.

Florida Department of Education Florida School Accountability Report Grade

A = 4.0

B = 3.5

C = 3.0(48%-53%)

2.5(41%-47%)

D = 1.9

F = 0.9

This score will then be converted to a 300 point scale.

For example, a school administrator's school receives a "B" for three years in a row.

Three year average = 3.5

Converts to: 3.5 x 75=262.5 for a Student Growth Measure(SGM).

Prior to the 2018-19 school year, the Student Growth Measure was computed as follows, and could be used to obtain a portion of the three year Student Growth Measure:

The student performance data source will depend on what is available for that school. At the beginning of the school year, the available data sources will be discussed, selected, and agreed upon by both the school administrator and the evaluator. Presently, 34% of a school leader's annual evaluation is based on the performance of students in the school on specific state or district assessments (e.g. FCAT, FSA EOC exams) from which state provided DOE VAM scores will be issued and used for this 34%. The school leaders' student growth measure will be a compilation of all of their teacher's student growth score on a 4 point scale, and then converted to a 300 point scale. For example:

Administrator A

20% Industry Certs = 3.5 20% Dist. EOC's = 2.5 50% State Assessments = 3.0 10% AP Exams = 3.0

Total Score: 3.00

Convert to 300 point scale:

3.00 x 75= 225

The following may be used if they apply:

ASSESSMENTS	METRIC	CLASSIFICATIONS 4 point Scale: 4=HE; 3=E; D/N=2; U=1
