# 1. Performance of Students

#### **Components of the Evaluation System**

# **Summative Performance Evaluation Calculation**

| 1 <sup>st</sup> Component | Leadership Practice  | Overal | l Percent |
|---------------------------|--|--------|-----------|
|                           | Florida School Leader Assessment (FSLA)<br>Deliberate Practice (optional, 20% if used) |        | 66%       |
| 2 <sup>nd</sup> Component | Student Growth   |        | 34%       |

Levy County School Leaders will be evaluated using the FSLA, the Florida state model for principal evaluation, the summative annual performance level is based on two factors:

- **Leadership Practice Score**: An assessment of the leader's proficiency on the Florida Principal Leadership Standards (FPLS). This is based on two possible metrics:
  - The Florida School Leader Assessment (FSLA): A system for feedback and growth based on the leader's work and impact of that work on others. The FSLA contributes 100% of the Leadership Practice Score or 80% if a Deliberate Practice is used.
  - o Deliberate Practice (DP): Deep learning and growth on a few very specific aspects of educational leadership. The DP Score contributes 20% of the Leadership Practice Score, if used. This is an optional scoring metric.
- **Student Growth Measures Score (SGM)**: The performance of students under the leader's supervision represents 34% of the annual performance level. The specific growth measures used and "cut points" applied must conform to Florida Statutes and State Board rules.

#### **Student Growth Measure Score**

Student growth measure score will be based on the most recent three years of student performance data, when available. This would include the current year and the two years immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available will be used.

#### Levy County Assessments for Student Growth:

The student performance data source will depend on what is available for that school. At the beginning of the school year, the available data sources will be discussed, selected, and agreed upon by both the school administrator and the evaluator. Presently, 34% of a school leader's annual evaluation is based on the performance of students in the school on specific state or district assessments (e.g. FCAT, FSA EOC exams) from which state provided DOE VAM scores will be issued and used for this 34%.

The school leaders' student growth measure will be a compilation of all of their teacher's student growth score on a 4 point scale, and then converted to a 300 point scale. For example:

Administrator A

20% Industry Certs = 3.5 20% Dist. EOC's = 2.5 50% State Assessments = 3.0 10% AP Exams = 3.0 Total Score: 3.00

Convert to 300 point scale: 3.00 x 75= 225

| METRIC  | CLASSIFICATIONS  4 point Scale: 4=HE; 3=E; D/N=2; U=1   |

Beyond the student performance measures listed above, there will not be any additional district-determined student performance measures incorporated.

# 2. Instructional Leadership

## **Summative Performance Evaluation Calculation**

| 1 <sup>st</sup> Component | Leadership Practice  | Overal | l Percent |
|---------------------------|--|--------|-----------|
|                           | Florida School Leader Assessment (FSLA)<br>Deliberate Practice (optional, 20% if used) |        | 66%       |
| 2 <sup>nd</sup> Component | Student Growth   |        | 34%       |

Levy County School Leaders will be evaluated using the FSLA, the Florida state model for principal evaluation, the summative annual performance level is based on two factors:

- **<u>Leadership Practice Score</u>**: An assessment of the leader's proficiency on the Florida Principal Leadership Standards (FPLS). This is based on two possible metrics:
  - o The Florida School Leader Assessment (FSLA): A system for feedback and growth based on the leader's work and impact of that work on others. The FSLA contributes 100% of the Leadership Practice Score or 80% if a Deliberate Practice is used.
  - o Deliberate Practice (DP): Deep learning and growth on a few very specific aspects of educational leadership. The DP Score contributes 20% of the Leadership Practice Score, if used. This is an optional scoring metric.
- **Student Growth Measures Score (SGM)**: The performance of students under the leader's supervision represents 34% of the annual performance level. The specific growth measures used and "cut points" applied must conform to Florida Statutes and State Board rules.

#### **District Evaluation Framework for School Administrators**

<u>A Multi-Dimensional Framework</u>: This evaluation system is based on contemporary research and meta-analyses by Dr. Douglas Reeves, Dr. John Hattie, Dr. Vivian Robinson, Dr. Robert Marzano and other research findings that identify school leadership strategies or behaviors that, done correctly and in appropriate circumstances, have a positive probability of improving student learning and faculty proficiency on instructional strategies that positively impact student learning.

Illustrative reference lists of works associated with this framework are provided below

The FSLA system is divided into the following domains and proficiency areas. The rubrics for assessing each indicator can be found below.

#### **Domain 1 - Student Achievement**

Narrative: Student achievement results in the student growth measures (SGM) segment of evaluation represent student results on specific statewide or district assessments or end-of-course exams. The leadership practice segment of the evaluation, through the proficiency areas and indicators in this domain, focuses on leadership behaviors that influence the desired student results.

Proficiency Area 1. <u>Student Learning Results</u>: Effective school leaders achieve results on the school's student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

Narrative: This proficiency area focuses on the leader's knowledge and actions regarding academic standards, use of performance data, planning and goal setting related to targeted student results, and capacities to understand what results are being obtained. This proficiency area is aligned with Florida Principal Leadership Standard #1.

Indicator 1.1 - Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core Standards and Next Generation Sunshine State Standards).

Narrative: Standards-based instruction is an essential element in the state's plan of action for preparing Florida's students for success in a 21st century global economy. This indicator is focused on the leader's understanding of what students are to know and be able to do. School leaders need to know the academic standards teachers are to teach and students are to master.

Note: Every credit course has specific academic standards assigned to it. Common Core Standards and Next Generation Sunshine State Standards (NGSSS) assigned to each course are found at <a href="https://www.floridastandards.org">www.floridastandards.org</a>.

# **Reflection Questions for Indicator 1.1**

| Highly Effective:  | Effective:  | Needs Improvement:   | Unsatisfactory:  |
|--|---|--|--|
| Do you routinely share examples of specific leadership, teaching, and curriculum strategies that are associated with improved student achievement on the Common Core Standards or NGSSS? | How do you support teachers' conversations about how they recognize student growth toward mastery of the standards assigned to their courses? | How do you monitor what happens in classrooms to insure that instruction and curriculum are aligned to academic standards? | Where do you find the standards that are required for the courses in your master schedule? |

# Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

Narrative: This indicator addresses the leader's proficiency in use of student and adult performance data to make instructional leadership decisions. What does test data and other sources of student performance data related to targeted academic goals say about what is needed? What does data about teacher proficiency or professional learning needs indicate needs to be done? The focus is what the leader does with data about student and adult performance to make instructional decisions that impact student achievement.

| Rating Rubric  |  |   |  |
|--|--|---|--|
| Highly Effective: Leader's   | Effective: Leader's actions or   | Needs Improvement:  | Unsatisfactory: Leader's   |
| actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader can specifically document examples of decisions in teaching, assignment, curriculum, assessment, and intervention that have been made on the basis of data analysis.  | impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader uses multiple data sources, including state, district, school, and classroom assessments, and systematically examines data at the subscale level to find strengths and challenges. | Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader is aware of state and district results and has discussed those results with staff, but has not linked specific decisions to the data.  Data about adult performance | actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader is unaware of or indifferent to the data about student and adult performance, or fails to use such data as a basis for making decisions. |
| The leader has coached school administrators in other schools to improve their data analysis skills and to inform instructional decision making.   | The leader empowers teaching and administrative staff to determine priorities using data on student and adult performance. Data insights are regularly the subject of faculty meetings and professional development sessions.  | (e.g. evaluation feedback data, professional learning needs assessments) are seldom used to inform instructional leadership decisions.  |  |

# Reflection Questions for Indicator 1.2

| Highly Effective   | Effective   | Needs Improvement   | Unsatisfactory   |
|--|---|---|--|
| How do you aggregate data about teacher proficiencies on instructional practices to stimulate dialogue about what changes in instruction are needed in order to improve student performance? | How do you verify that all faculty have sufficient grasp of the significance of student performance data to formulate rational improvement plans? | By what methods do you enable faculty to participate in useful discussions about the relationship between student performance data and the instructional actions under the teachers' control? | How much of the discussions with district staff about student performance data are confusing to you and how do you correct that? |

# Indicator 1.3 – Planning and Goal Setting: The leader demonstrates planning and goal setting to improve student achievement.

Narrative: Knowing the standards and making use of performance data is expected to play a significant role in planning and goal setting. This indicator is focused on the leader's alignment of planning and goal setting with improvement of student achievement.

## Reflection Questions for Indicator 1.4

| Highly Effective  | Effective   | Needs Improvement   | Unsatisfactory   |
|---|---|---|--|
| How do you share with other school leaders how to use student improvement results to raise expectations and improve future results? | How do you engage students in sharing examples of their growth with other students? | How do you engage faculty in routinely sharing examples of student improvement? | What processes should you employ to gather data on student improvements? |

Narrative: This proficiency area is aligned with Florida Principal Leadership Standard #2. A learning organization has essential elements regarding the behavior of people in the organization. When all elements are present and interacting, productive systemic change is possible. This proficiency area is focused on the degree to which learning organization elements exist in the school and reflect the following priorities on student learning:

- Supports for personal mastery of each person's job focus on job aspects related to student learning
- Team learning among faculty is focused on student learning
- Processes for exploring and challenging mental models that hamper understanding and progress on student learning are in
  use
- A shared vision has student learning as a priority
- Systems thinking is employed to align various aspects of school life in ways that promote learning

focused on student learning and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Narrative: Are the elements of a learning organization present among the adults in the school? Are the learning organization elements focused on student learning? Is the system in operation at the school engaging faculty in improving results for under-achieving subgroups? This indicator addresses the systemic processes that make gap reduction possible. Is the leader proficient in building capacity for change?

Note: Indicator 5.4 from Florida Principal Leadership Standard #5 addresses actual success in reducing achievement gaps.

#### Rating Rubric

Highly Effective: Leader's Effective: Leader's actions or **Needs Improvement:** Unsatisfactory: Leader's actions or impact of leader's actions impact of leader's actions relevant to Leader's actions or impact of leader's actions or impact of leader's actions relevant to this indicator exceed this indicator are sufficient and actions relevant to this indicator are relevant to this indicator are minimal effective levels and constitute models evident but are inconsistent or of appropriate reflections of quality work or are not occurring, or are having an of proficiency for other leaders. with only normal variations. insufficient scope or proficiency. adverse impact. |  |   | supporting processes and what leadership actions will enable all  |  |  |
|  |   | faculty and staff to get involved?  |  |  |

# Indicator 2.2 - School Climate: The leader maintains a school climate that supports student engagement in learning.

Narrative: "Climate" at a school is determined by how people treat one another and what is respected and what is not. School leaders who promote a school climate where learning is respected, effort is valued, improvement is recognized, and it is safe to acknowledge learning needs have provided students support for sustained engagement in learning.

| Highly Effective: Leader's             | Effective: Leader's actions or          | Needs Improvement:                     | Unsatisfactory: Leader's               |

| effective levels and constitute models | appropriate reflections of quality work | evident but are inconsistent or of     | or are not occurring, or are having an |

of proficiency for other leaders.

The leader ensures that the school's identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school.

Respect for students' cultural, linguistic and family background is evident in the leader's conduct and expectations for the faculty.

The leader is proactive in guiding faculty in adapting the learning environment to accommodate the differing needs and diversity of students.

School-wide values, beliefs, and goals are supported by individual and class behaviors through a well-planned management system.

with only normal variations.

The leader systematically (e.g., has a plan, with goals, measurable strategies, and recurring monitoring) establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thoughts and actions of all staff and students.

Policies and the implementation of those policies result in a climate of respect for student learning needs and cultural, linguistic and family background.

Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are consistently applied throughout the school. insufficient scope or proficiency.

Some practices promote respect for student learning needs and cultural, linguistic and family background, but there are discernable subgroups who do not perceive the school climate as supportive of their needs.

The school climate does not generate a level of school-wide student engagement that leads to improvement trends in all student subgroups.

The leader provides school rules and class management practices that promote student engagement and are fairly implemented across all subgroups. Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are inconsistently applied.

adverse impact.

Student and/or faculty apathy in regard to student achievement and the importance of learning is easily discernable across the school population and there are no or minimal leadership actions to change school climate.

Student subgroups are evident that do not perceive the school as focused on or respectful of their learning needs or cultural, linguistic and family background or there is no to minimal support for managing individual and class behaviors through a well-planned management system.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader organizes, allocates, and manages the resources of time, space, and attention so that the needs of all student subgroups are recognized and addressed.
- There are recurring examples of the leader's presentations, documents, and actions that reflect respect for students' cultural, linguistic and family background.
- The leader maintains a climate of openness and inquiry and supports student and faculty access to leadership.
- The school's vision, mission, values, beliefs, and goals reflect an expectation that student learning needs and cultural, linguistic and family backgrounds are respected and school rules consistent with those beliefs are routinely implemented.
- Professional learning is provided to sustain faculty understanding of student needs.
- Procedures are in place and monitored to ensure students have effective means to express concerns over any aspect of school climate.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Classroom rules and posted procedures stress positive expectations and not just "do nots."
- All student subgroups participate in school events and activities.
- A multi-tiered system of supports that accommodates the differing needs and diversity of students is evident across all classes.
- Students in all subgroups express a belief that the school responds to their needs and is a positive influence on their future well-being.
- Walkthroughs provide recurring trends of high student engagement in lessons.
- Student services staff/counselors' anecdotal evidence shows trends in student attitudes toward the school and engagement in learning.
- Teacher/student/parent survey or questionnaire results reflect a school climate that supports student engagement in learning.
- The availability of and student participation in academic supports outside the classroom that assist student engagement in learning.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

[] Highly Effective

[] Effective

[ ] Needs Improvement

[] Unsatisfactory

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

# **Reflection Questions for Indicator 2.2**

| Highly Effective   | Effective  | Needs<br>Improvement  | Unsatisfactory   |
|--|--|---|--|
| In what ways might you further extend your reach within the district to help others benefit from your knowledge and skill in establishing and maintaining a school climate that supports student engagement in learning? | What strategies have you considered that would ensure that the school's identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school?  How could you share with your colleagues across the district the successes (or failures) of your efforts? | How might you structure a plan that establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thought and action of all staff and students? | What might be the importance of developing a shared vision, mission, values, beliefs, and goals to establish and maintain a school climate that supports student engagement in learning? |

#### Indicator 2.3 – High Expectations: The leader generates high expectations for learning growth by all students.

Narrative: The leader who expects little from students and faculty will get less than they are capable of accomplishing. "Every child can learn" takes on new meaning when supported by faculty and school leader expectations that students can and will learn a lot...not just a minimum to get by. Expecting quality is a measure of respect.

# Rating Rubric

following:

| Rating Rubric   |   |   |   |
|---|---|---|---|
| Rating Rubric  Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader incorporates community members and other stakeholder groups into the establishment and support of high academic expectations.  The leader benchmarks expectations to the performance of the state's, nation's, and world's highest performing schools.  The leader creates systems and approaches to monitor the level of academic expectations. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent monitoring schedule) creates and supports high academic expectations by empowering teachers and staff to set high and demanding academic expectations for every student.  The leader ensures that students are consistently learning, respectful, and on task. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader creates and supports high academic expectations by setting clear expectations for student academics, but is inconsistent or occasionally fails to hold all students to these expectations.  The leader sets expectations, but fails to empower teachers to set high expectations for student academic performance. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader does not create or support high academic expectations by accepting poor academic performance.  The leader fails to set high expectations or sets unrealistic or unattainable goals.  Perceptions among students, faculty, or community that academic shortcomings of student subgroups are explained by inadequacy of parent |
| The leader encourages a culture in which students are able to clearly articulate their diverse personal academic goals.   | The leader sets clear expectations for student academics and establishing consistent practices across classrooms.   |   | involvement, community conditions, or student apathy are not challenged by the school leader.   |
|   | The leader ensures the use of instructional practices with proven effectiveness in creating success for all students, including those with diverse characteristics and needs.   |   |   |
| Leadership Evidence of profic   | iency on this indicator may be  | Teacher Evidence of leadershi   | p proficiency may be seen in  |
| seen in the leader's behaviors of   |   | the behaviors or status of the fa   |   |
| of such evidence may include, b   |   | examples of such evidence may   |   |
|   |   |   | ,   |

- School Improvement Plan targets meaningful growth beyond what normal variation might provide.
- Test specification documents and state standards are used to identify levels of student performance and performance at the higher levels of implementation is stressed.
- Samples of written feedback provided to teachers regarding student goal setting practices are focused on high expectations.
- Agendas/Minutes from collaborative work systems (e.g., Data Teams, Professional Learning Communities) address processes for "raising the bar."
- Other leadership evidence of proficiency on this indicator.

the following:

- Rewards and recognitions are aligned with efforts for the more difficult rather than easier outcomes.
- Learning goals routinely identify performance levels above the targeted implementation level.
- Teachers can attest to the leader's support for setting high academic expectations.
- Students can attest to the teacher's high academic
- Parents can attest to the teacher's high academic expectations.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

## **Reflection Questions for Indicator 2.3**

| Reflection Questions   |  |  |  |  |
|--|--|--|--|--|
| Highly Effective   | Effective  | Needs  | Unsatisfactory   |  |
|  |  | Improvement  |  |  |
| What strategies have you considered using that would increase the professional knowledge opportunities for colleagues across the school district in the area of setting high academic expectations for students? | How might you incorporate community members and other stakeholder groups into the establishment and support of high academic expectations? | What are 2-3 key strategies you have thought about using that would increase your consistency in creating and supporting high academic expectations for every student? | What might be some strategies you could use to create or support high academic expectations of students? |  |

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Narrative: Lots of talk about high expectations, goal setting, working hard, rigor, and getting results is important, but leaders need to know where students' actual performance levels are to be able to track real progress. Knowing annual test results is useful, but it is not enough. What does the leader do to know whether progress is being made or not and whether "mid-course" corrections are required?

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.   | <b>Effective:</b> Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.   | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.   |
|---|--|--|--|
| Assessment data generated at the school level provides an ongoing perspective of the current reality of student proficiency on academic standards.  There is evidence of decisive changes in teacher assignments and curriculum based on student and adult performance data.  Case studies of effective decisions based on performance data are shared widely with other leaders and throughout the district. | Each academic standard has been analyzed and translated into student-accessible language and processes for tracking student progress are in operation.  Power (high priority) standards are widely shared by faculty members and are visible throughout the building.  Assessments on student progress on them are a routine event.  The link between standards and student performance is in evidence from the posting of | Standards have been analyzed, but are not translated into student-accessible language.  School level assessments are inconsistent in their alignment with the course standards.  Power (high priority) standards are developed, but not widely known or used by faculty, and/or are not aligned with assessment data on student progress.  Student work is posted, but does not reflect proficient work throughout the building. | There is no or minimal coordination of assessment practices to provide on-going data about student progress toward academic standards.  School level assessments are not monitored for alignment with the implementation level of the standards.  No processes in use to analyze standards and identify assessment priorities.  No high priority standards are identified and aligned with |

| · ·   | nt student work<br>out the building. |  | assessment practices.       |
|---|--------------------------------------|--|-----------------------------|
| Leadership Evidence of proficiency on this indicator may be             |                                      | Impact Evidence of leadership proficiency may be seen in the |                             |
| seen in the leader's behaviors or actions. <u>Illustrative examples</u> |                                      | behaviors or actions of the facul                            | lty, staff, students and/or |
| of such evidence may include, but are not limited to the                |                                      | community. Illustrative examples of such evidence may        |                             |
| following:  |                                      | include, but are not limited to the following:               |                             |

<u>Proficiency Area 3</u>. <u>Instructional Plan Implementation</u>: Effective school leaders work collaboratively to develop and implement an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs, and assessments.

- Documents, charts, graphs, tables, and other forms of graphic displays reflecting students' current levels of performance are routinely used by the leader to communicate "current realities."
- Documents, charts, graphs, tables, and other forms of graphic displays reflect trend lines over time on student growth on learning priorities.
- Teacher schedule changes are based on student data.
- Curriculum materials changes are based on student data.
- Other leadership evidence of proficiency on this indicator.

- Faculty track student progress practices.
- Students track their own progress on learning goals.
- Current examples of student work are posted with teacher comments reflecting how the work aligns with priority goals.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

# **Domain 2 - Instructional Leadership**

Narrative: School leaders do many things. Domain 2 of the FSLA addresses a core of leader behaviors that impact the quality of essential elements for student learning growth. The skill sets and knowledge bases employed for this domain generate 40% of the FSLA Score. The success of the school leader in providing a quality instructional framework, appropriately focused faculty development, and a student oriented learning environment are essential to student achievement.

Narrative: Proficiency Area 3 is focused on Florida Principal Leadership Standard #3 (FPLS). Aligning the key issues identified in the indicators into an efficient system is the leader's responsibility. This area stresses the

leader's proficiency at understanding the current reality of what faculty and students know and can do regarding priority practices and goals.

Indicator 3.1 – FEAPs: The leader aligns the school's instructional programs and practices with the Florida Educator Accomplished Practices (Rule 6A-5.065, F.A.C.) and models use of the Florida common language of instruction to guide faculty and staff implementation of the foundational principles and practices.

Narrative: Indicator 3.1 is focused on the school leader's understanding of the Florida Educator Accomplished Practices (FEAPs) and ability to use Florida's common language of instruction. To be effective participants in school, district and statewide communities of practice working collegially for high quality implementation of the FEAPs, educators at the school level must be able to communicate and organize their efforts using the terms and concepts in the FEAPs and the Florida common language of instruction. This indicator is about the school leader's proficiency in making that happen by using a core set of expectations (the FEAPs) and terminology (the common language) to guide and focus teacher discussions on instructional improvements. Florida's common language of instruction is used so that educators in Florida use the core terms in the same way and with a common understanding.

Note: The FEAPs, a FEAPs brochure, and Florida's common language may be explored at http://www.floridaschoolleaders.org.

| Tracing Trabile  |   |   |  |
|--|---|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The instructional program and practices are fully aligned with the FEAPs. Faculty and staff implementation of the FEAPs is consistently proficient and professional conversations among school leadership and faculty about instruction use the Florida common language of instruction and the terminology of the FEAPs.  The leader's use of FEAPs and common language resources results in all educators at the school site having access to and making use of the FEAPs and common language.  Teacher-leaders at the school use the FEAPs and common language. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader's use of FEAPs content and terms from the common language is a routine event and most instructional activities align with the FEAPs.  Coordinated processes are underway that link progress on student learning growth with proficient FEAPs implementation.  The leader's use of FEAPs and common language resources results in most faculty at the school site having access to and making use of the FEAPs and common language.  The leader uses the common language to enable faculty to recognize connections between the FEAPs, the district's evaluation indicators, and contemporary research on effective instructional practice. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader demonstrates some use of the FEAPs and common language to focus faculty on instructional improvement, but is inconsistent in addressing the FEAPs.  The leader's use of FEAPs and common language resources results in some faculty at the school site having access to and making use of the FEAPs and common language.  There are gaps in alignment of ongoing instructional practices at the school site with the FEAPs. There is some correct use of terms in the common language but errors or omissions are evident. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  There is no or minimal evidence that the principles and practices of the FEAPs are presented to the faculty as priority expectations.  The leader does not give evidence of being conversant with the FEAPs or the common language.  The leader's use of FEAPs and common language resources results in few faculty at the school site having access to and making use of the FEAPs and common language. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:  |   | Impact Evidence of leadership<br>behaviors or actions of the facu<br>community. Illustrative example<br>include, but are not limited to th  | lty, staff, students, and/or so of such evidence may   |
| The leader's documents, agendas, memorandum, etc. make reference to the content of the FEAPs and make correct use of the common language.  |   | Teachers are conversant with  | the content of the FEAPs.  orimary instructional practices using   |

- School improvement documents reflect concepts from the FEAPs and common language.
- The leader can articulate the instructional practices set forth in the FEAPs.
- Faculty meetings focus on issues related to the FEAPs.
- The leader's monitoring practices result in written feedback to faculty on quality of alignment of instructional practice with the FEAPs.
- The leader's communications to parents and other stakeholders reflect use of FEAPs and common language references.
- Other leadership evidence of proficiency on this indicator.

- Teachers use the common language and attribute their use to the leader providing access to the online resources.
- School level support programs for new hires include training on the FEAPs.
- FEAPs brochures and excerpts from the common language are readily accessible to faculty.
- Faculty members are able to connect indicators in the district's instructional evaluation system with the FEAPs.
- Sub-ordinate leaders (e.g. teacher leaders, assistant principals) use FEAPs and common language terms accurately in their communications.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| language?                       | teacher observations?      | principles contained in them?   |                                    |

Indicator 3.2 – Standards-Based Instruction: The leader delivers an instructional program that implements the state's adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by:

- aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and
- communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Narrative: Florida's plan of action for educating our children for the 21<sup>st</sup> century is based on standards-based instruction. Course descriptions specify the standards that are to be learned in each course. All of the course content in courses for which students receive credit toward promotion/graduation is expected to be focused on the standards in the course description. This indicator addresses the leader's proficiency at making sure all students receive rigorous, culturally relevant standards-based instruction by aligning key practices with the state's academic standards (Common Core, NGSSS, Access Points). The leader does what is necessary to make sure faculty recognize and act on the cause and effect relationship between good instruction (i.e., research-based strategies, rigorous, culturally relevant,) on the "right stuff" (the state standards adapted based on data about student needs).

Note: Course descriptions and the standards for each course may be explored at <a href="www.floridastandards.org">www.floridastandards.org</a>.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  Processes exist for all courses to ensure that what students are learning is aligned with state standards for the course.  The leader has institutionalized quality control monitoring to ensure that instruction is aligned with the standards and is consistently delivered in a rigorous and culturally relevant manner for all students.  Teacher teams coordinate work on student mastery of the standards to promote integration of the standards into useful skills.  The leader provides quality assistance to other school leaders in effective ways to communicate the cause and effect relationship between effective standards-based | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  Processes exist for most courses to ensure that what students are learning is aligned with state standards for the course.  Instruction aligned with the standards is, in most courses, delivered in a rigorous and culturally relevant manner for all students.  The leader routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for most courses.  Collegial faculty teamwork is evident in coordinating instruction on Common Core standards that are addressed in more than one course. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  Processes exist for some courses to ensure that what students are learning is aligned with state standards for the course.  Instruction is aligned with the standards in some courses.  Instruction is delivered in a rigorous manner in some courses.  Instruction is culturally relevant for some students.  The leader has implemented processes to monitor progress in some courses, but does not intervene to make improvements in a timely manner. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  There is limited or no evidence that the leader monitors the alignment of instruction with state standards, or the rigor and cultural relevance of instruction across the grades and subjects.  The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum and instruction that are culturally, racially, or ethnically insensitive and/or inappropriate.  The leader does not know and/or chooses not to interact with staff about teaching using research-based instructional strategies to obtain high levels of achievement for all students. |
|---|--|--|---|

- curriculum and instruction with state standards.
- School Improvement Plan goals and actions are linked to targeted academic standards.
- The leader's presentations to faculty on proficiency expectations include illustrations of what "rigor" and "culturally relevant" mean.
- Monitoring documents indicate frequent review of researchbased instructional practices regarding alignment, rigor and cultural relevance.
- Results of monitoring on research-based instruction are used to increase alignment to standards, rigor, and/ or cultural relevance.
- School's financial documents reflect expenditures supporting standards-based instruction, rigor, and/or cultural relevance.
- Other leadership evidence of proficiency on this indicator.

- Faculty has and makes use of the list of standards associated with their course(s).
- Activities and assignments are aligned with standards applicable to the course and those connections are conveyed to students.
- Teachers can describe a school wide "plan of action" that aligns curriculum and standards and provide examples of how they implement that plan in their courses.
- Teachers attest to the leader's efforts to preserve instructional time for standards-based instruction.
- Teachers attest to the leader's frequent monitoring of researchbased instructional practices and application of those practices in pursuit of student progress on the course standards.
- Other impact evidence of proficiency on this indicator.

|--|------------------------------------|---------------------|
|  | state standards?                   |                     |

Indicator 3.3 – Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state's adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubric to guide tracking progress toward student mastery.

Narrative: "Learning goals" is a high-effect size strategy that uses scales or progressive levels to monitor student growth on the way to mastery of a state academic standard. Learning goals typically take 2-9 weeks of student time to master so are more comprehensive than daily objectives. The essential issue is that the teacher creates "scales" or levels of progress toward mastery of the learning goal. Teacher and students use those scales to track progress toward mastery of the goal(s). This indicator addresses the leader's proficiency at monitoring and providing feedback on teacher and student use of priority learning goals with scales. The leader is expected to go beyond low levels of monitoring that address whether the teacher provides such goals and attends to the levels of student understanding and engagement with the learning goals. Do the students pursue those goals? Do they track their own progress? Is celebrations of success on learning goals focused on how success was achieved more than that is was obtained?

Note: Beginning in the 2012-13 school year, professional learning about learning goals and sample learning goals may be explored at <a href="www.floridastandards.org">www.floridastandards.org</a>, <a href="www.floridaschoolleaders.org">www.floridaschoolleaders.org</a>, and <a href="www.startwithsuccess.org">www.startwithsuccess.org</a>.

# Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

Recurring leadership involvement in the improvement in quality of daily classroom practice is evident and is focused on student progress on priority learning goals.

Routine and recurring practices are evident that support celebration of student success in accomplishing priority learning goals and such celebrations focus on how the success was obtained.

The leader routinely shares examples of effective learning goals that are associated with improved student achievement.

Other leaders credit this leader with sharing ideas, coaching, and providing technical assistance to implement successful use of leaning goals in standards-based instruction.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

Clearly stated learning goals accompanied by a scale or rubric that describes measurable levels of performance, aligned to the state's adopted student academic standards, is an instructional strategy in routine use in courses school wide.

Standards-based instruction is an evident priority in the school and student results on incremental measures of success, like progress on learning goals, are routinely monitored and acknowledged.

The formats or templates used to express learning goals and scales are adapted to support the complexity of the expectations and the learning needs of the students.

Clearly stated learning goals aligned to state or district initiatives in support of student reading skills are in use school wide.

# Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Specific and measurable learning goals with progress scales, aligned to the state's adopted student academic standards in the course description, are in use in some but not most of the courses.

Learning goals are posted/provided in some classes are not current, do not relate to the students current assignments and/or activities, or are not recognized by the students as priorities for their own effort.

Learning goals tend to be expressed at levels of text complexity not accessible by the targeted students and/or at levels of complexity too simplified to promote mastery of the associated standards.

Processes that enable students and teachers to track progress toward mastery of priority learning goals are not widely implemented throughout the school **Unsatisfactory:** Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

Clearly stated priority learning goals accompanied by a scale or rubric that describes levels of performance relative to the learning goal are <u>not</u> systematically provided across the curriculum to guide student learning, <u>or</u> learning goals, where provided, are <u>not</u> aligned to state standards in the course description.

The leader engages in minimal to non-existent monitoring and feedback practices on the quality and timeliness of information provided to students on what they are expected to know and be able to do (i.e. no alignment of learning goals with state standards for the course).

There are minimal or no leadership practices to monitor faculty practices on tracking student progress on priority learning goals.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Agendas, meeting minutes, and memoranda to the faculty make evident a focus on importance of learning goals with scales to engage students in focusing on what they are to understand and be able to do.
- The leader's practices on teacher observation and feedback routinely address learning goals and tracking student progress.
- The leader provides coaching or other assistance to teachers struggling with use of the learning goals strategy.
- Procedures are in place to monitor and promote faculty collegial discussion on the implementation levels of learning goals to promote alignment with the implementation level of the associated state standards.
- Leader's communications to students provide evidence of support of students making progress on learning goals.
- Progress monitoring of adult and student performance on targeted priority learning goals is documented, charted, and posted in high traffic areas of the school.
- Evidence of the leader's intervention(s) with teachers who do not provide learning goals that increase students' opportunities for success.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Clearly stated learning goals accompanied by a scale or rubric that describes levels of performance relative to the learning goal are posted or easily assessable to students.
- Teams or departments meet regularly to discuss the quality of learning goals with scales being employed and adapt them based on student success rates.
- Teacher lesson plans provide evidence of the connection of planned activities and assignments to learning goals.
- Teacher documents prepared for parent information make clear the targeted learning goals for the students.
- Students are able to express their learning goals during walkthroughs or classroom observations.
- Students are able to explain the relationship between current activities and assignments and priory learning goals.
- Lesson study groups and other collegial learning teams routinely discuss learning goals and scales for progression
- Methods of both teachers and students tracking student progress toward learning goals are evident.
- Celebrations of student success include reflections by teachers and students on the reasons for the success
- Teachers can identify the learning goals that result in the high levels of student learning.
- Other impact evidence of proficiency on this indicator

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| uille, leave blank.        |                       |                                       |                            |

## **Reflection Questions for Indicator 3.3**

| Highly Effective   | Effective  | Needs Improvement   | Unsatisfactory  |
|--|--|---|---|
| What specific strategies have you employed to measure improvements in teaching and innovations in use of learning goals and how can you use such measures as predictors of improved student achievement? | What system supports are in place to ensure that the best ideas and thinking on learning goals are shared with colleagues and are a priority of collegial professional learning? | To what extent do learning goals presented to the students reflect a clear relationship between the course standards and the assignments and activities students are given? | What have I done to deepen my understanding of the connection between the instructional strategies of learning goals and tracking student progress? |

# Indicator 3.4 – Curriculum Alignments: Systemic processes are implemented to ensure alignment of curriculum resources with state standards for the courses taught.

Narrative: Academic standards are determined at the state level and the curriculum used to enable students to master those standards is determined at the district and school level. Curriculum must be aligned with the standards if it is to support standards-based instruction. Curriculum resources may or may not be fully aligned with the standards assigned to a specific course. The learning needs of students in specific classes may require additional or adapted curriculum materials to address issues of rigor, cultural relevance, or support for needed learning goals. School leaders maintain processes to monitor the appropriateness and alignment of curriculum to standards and intervene to make adjustments as needed to enable students to access curriculum that supports the standards.

Note: Where gaps or misalignments are noted by the processes addressed in this indicator, the leader's actions relevant to Indicator 8.2 (Strategic Instructional Resourcing) should be addressed.

| Rating Rubric   |   |  |  |
|---|---|--|--|
| Highly Effective: Leader's  | Effective: Leader's actions or  | Needs Improvement:   | Unsatisfactory: Leader's   |
| actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  | impact of leader's actions relevant to<br>this indicator are sufficient and<br>appropriate reflections of quality work<br>with only normal variations.  | Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  | actions or impact of leader's actions<br>relevant to this indicator are minimal<br>or are not occurring, or are having an<br>adverse impact.           |
| The leader routinely engages faculty in processes to improve the quality of curriculum resources in regard to their alignment with standards and impact on student achievement and supports replacing resources as more effective ones are available.  The leader is proactive in engaging other school leaders in sharing feedback on identification and effective use of curriculum resources that are associated with improved student achievement.  Parents and community members credit this leader with sharing ideas or curriculum supports that enable home and community to support student mastery of priority standards. | Specific and recurring procedures are in place to monitor the quality of alignment between curriculum resources and standards.  Procedures under the control of the leader for acquiring new curriculum resources include assessment of alignment with standards.  Curriculum resources aligned to state standards by resource publishers/developers are used school wide to focus instruction on state standards, and state, district, or school supplementary materials are routinely used that identify and fill gaps, and align instruction with the implementation level of the standards. | Processes to monitor alignment of curriculum resources with standards in the course descriptions are untimely or not comprehensive across the curriculum.  Efforts to align curriculum with standards are emerging but have not yet resulted in improved student achievement.  Curriculum resources aligned to state standards by text publishers/developers are used school wide to focus instruction on state standards, but there is no to minimal use of state, district, or school supplementary materials that identify and fill gaps, and align instruction with the implementation level of the standards. | There are no or minimal processes managed by the leader to verify that curriculum resources are aligned with the standards in the course descriptions. |
| Leadership Evidence of profice seen in the leader's behaviors of such evidence may include, be following:     Curriculum is presented to face reflected in course description.  | or actions. <u>Illustrative examples</u> out are not limited to the culty and students as the content   | Impact Evidence of leadership behaviors or actions of the facu community. Illustrative example include, but are not limited to the Teachers can describe the stronger to the primary texts in regard to align  | lty, staff, students and/or s of such evidence may e following: rengths and weaknesses of  |
| textbook.  School procedures for acquisi include assessment of their us master state standards and in or misalignments. ## **Reflection Questions for Indicator 3.4**

| Highly Effective   | Effective   | Needs Improvement  | Unsatisfactory  |
|--|---|--|---|
| What system is in place to ensure that your best ideas and thinking on using curriculum to enable students to master standards are shared with colleagues, particularly when there is evidence at your school of improved student achievement? | What specific school improvement strategies have you employed to measure improvements in teaching and innovations in curriculum that serve as predictors of improved student achievement? | How can you monitor whether the activities and assignments student get that involve use of curriculum resources are aligned with learning goals and standards? | Do you know which standards are addressed in your curriculum? |

# Indicator 3.5 – Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Narrative: How do we know what our students already know, what they need to know, and how they are doing as we move forward with instruction? The school leader needs "assessment literacy" to address these questions. Where indicator 1.2 addresses the leader's proficiency in use of student performance data, this indicator focuses on actions taken at the school site to generate interim assessment data and make sure faculty use formative assessment practices to monitor and adjust instruction. Assessment of student progress toward academic standards is an important aspect of tracking student progress. Leaders need to make use of data on interim and formative assessments to guide goal setting and progress monitoring. They need to provide teachers access to quality assessments and promote teacher use of formative assessments as a routine strategy. The leader needs on-going assessment data to inform a variety of decisions regarding such issues as resource allocations, student and teacher schedules, professional learning impacts, and adjustments in plans.

| Rating Rubric  |   |  |  |
|--|---|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader uses a variety of creative ways to provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement.  Formative assessments are part of the school culture and interim assessment data is routinely used to review and adapt plans and priorities. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader systematically seeks, synthesizes, and applies knowledge and skills of assessment literacy and data analysis.  The leader routinely shares knowledge with staff to increase students' achievement.  Formative assessment practices are employed routinely as part of the instructional program.  The leader uses state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions. These specific and observable changes result in increased achievement for students. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader haphazardly applies rudimentary knowledge and skills of assessment literacy and is unsure of how to build knowledge and develop skills of assessment literacy and data analysis.  The leader inconsistently shares knowledge with staff to increase student achievement.  There is inconsistency in how assessment data are used to change schedules, instruction, curriculum, or leadership.  There is rudimentary use of assessment data from state, district, school, and classroom. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader has little knowledge and/or skills of assessment literacy and data analysis.  There is little or no evidence of interaction with staff concerning assessments.  The leader is indifferent to data and does not use data to change schedules, instruction, curriculum or leadership.  Student achievement remains unchanged or declines.  The leader does not use assessment data from state, district, school, and classroom. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the   |   | Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:   |  |
| following:   |   |  | ations with the Leader where   |

- Documents for faculty use that set clear expectations for the use of formative assessments to monitor student progress on mastering course standards
- Samples of written feedback provided to teachers regarding effective assessment practices.
- Collaborative work systems' (e.g., data teams, professional learning communities) agendas and minutes reflect recurring engagements with interim and formative assessment data.
- Faculty meeting agendas and minutes reflect attention to formative and interim assessment processes.
- Teachers can describe interactions with the leader where effective assessment practices are promoted.
- Teachers' assessments are focused on student progress on the standards of the course.
- Teachers attest to the leader's efforts to apply knowledge and skills of effective assessment practices.
- Teachers can provide assessments that are directly aligned with course standard.
- Teachers attest to the leader's frequent monitoring of assessment practices.

- Classroom walkthrough data reveals routine use of formative assessment practices in the classrooms.
- Assessment rubrics are being used by the school.
- Other leadership evidence of proficiency on this indicator.
- Student folders and progress tracking records reflect use of formative data.
- Documents are in use that informs teachers of the alignment between standards and assessments.
- Other impact evidence of proficiency on this indicator.

What strategies have you considered that would increase your interaction with staff concerning assessments?  How are you using your knowledge and skills of assessment literacy to change schedules, instruction, and curriculum or leadership practices to increase student achievement? |

Indicator 3.6 – Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district's instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Narrative: School leaders are responsible for monitoring the effectiveness of classroom teachers. This indicator addresses the proficiency and focus of the leader's monitoring processes to maintain awareness of faculty effectiveness and the use of monitoring data to improve student and faculty performance. The focus here is on monitoring teacher use of strategies supported by contemporary research, teacher proficiency on issues contained in the district's teacher evaluation system, what teachers do to improve student achievement, and faculty proficiency on the FEAPs.

Note: Indicator 3.1 is focused on the leader's grasp of the FEAPs whereas this indicator focuses on monitoring the faculties' grasp of the FEAPs. Indicator 4.2 is focused on the leader's use of monitoring data to provide timely feedback.

#### Rubric

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader's monitoring process generates a shared vision with the faculty of high expectations for faculty proficiency in the FEAPs, research-based instructional strategies, and the indicators in the teacher evaluation system.   | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations  The leader's effectiveness monitoring process provides the leader and leadership team with a realistic overview of the current reality of faculty effectiveness on the FEAPs, the indicators in the teacher evaluation system, and research-based instructional strategies. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency  The district teacher evaluation system is being implemented but the process is focused on procedural compliance rather than improving faculty proficiency on instructional strategies that impact student achievement.  | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  Monitoring does not comply with the minimum requirements of the district teacher evaluation system.  Monitoring is not focused on teacher proficiency in research-based strategies and the FEAPs. |
|--|--|--|---|
| The leader shares productive monitoring methods with other school leaders to support district wide improvements.   | The leader's monitoring practices are consistently implemented in a supportive and constructive manner.  | The manner in which monitoring is conducted is not generally perceived by faculty as supportive of their professional improvement.   |   |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:  |  | Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. # Reflection Questions for Indicator 3.6

| renection ducations is   | i illaloatoi olo  |  |   |
|--|---|--|---|
| Highly Effective   | Effective   | Needs Improvement  | Unsatisfactory  |
| How do you convey to highly effective teachers specific feedback that would move them toward even higher levels of proficiency?                              | How do you improve your conferencing skills so your feedback to teachers is both specific enough to be helpful and perceived as support rather than negative criticism? | How do you restructure your use of time so that you spend enough time on monitoring the proficiency of instructional practices and giving feedback to be an effective support for the faculty? | How do you improve your own grasp of what the FEAPs require so that your monitoring has a useful focus? |
| How do you engage highly effective teachers in sharing a vision of high quality teaching with their colleagues so that there is no plateau of "good enough"? |   |  |   |

Proficiency Area 4: Faculty Development: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Narrative: This proficiency area is aligned with FPLS standard 4. It moves the focus from "what is the current reality" of faculty proficiency to continuous progress toward what the faculty can achieve with effort and focus.

Indicator 4.1 – Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Narrative: The focus of this indicator is on the leader's actions to staff the school with the best faculty possible for the needs of the school population. It addresses actions taken to anticipate staffing needs, seek out quality applicants, and efforts to retain quality staff once on the faculty.

# **Rating Rubric**

| Highly Effective: Leader's             |
|--|
| actions or impact of leader's actions  |
| relevant to this indicator exceed      |
| effective levels and constitute models |
| of proficiency for other leaders.      |

The leader tracks the success of her or his recruitment and hiring strategies, learns from past experience, and revisits the process annually to continually improve the process.

The leader engages in a variety of traditional and non-traditional recruitment strategies and then prioritizes based on where they find their most effective teachers.

Effective recruiting and hiring practices are frequently shared with other administrators and colleagues throughout the system.

**Effective:** Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader works collaboratively with the staff in the human resources office to define the ideal teacher based upon the school population served.

The leader is sensitive to the various legal guidelines about the kind of data that can be sought in interviews.

A hiring selection tool that helps interviewers focus on key instructional proficiencies that are aligned with the teacher evaluation criteria is developed and effectively utilized.

A hiring process is clearly communicated including how staff is involved.

# Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader relies on the district office to post notices of vacancies and identify potential applicants.

Efforts to identify replacements tend to be slow and come after other schools have made selections

Interview processes are disorganized, not focused on the schools needs, and do not improve from year to year.

# Unsatisfactory: Leader's actions or impact of leader's actions

relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader approaches the recruitment and hiring process from a reactive rather than a proactive standpoint. Consequently, the process may not be well thought out, is disjointed, and not aligned with kev success criteria embedded within the teacher evaluation documents essential to organizational success.

No coherent plan or process is employed to encourage quality staff to remain on the faculty.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader maintains an updated assessment of the instructional capacities needed to improve faculty effectiveness and uses that assessment in filling vacancies.
- Samples of hiring documents (e.g., posting notices, interview questions with look/listen fors) that identify highly desirable instructional proficiencies needed in teacher applicants.
- Documentation that the recruitment and select process is subjected to an in-depth review and evaluation for continuous

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can describe a hiring process that incorporates a specific focus on essential instructional proficiencies needed for the school population served.
- Teachers confirm that a critical part of the hiring process includes an evaluation of the effectiveness of the process.
- Teacher leaders are involved in monitoring staffing needs and providing input to the leader.
  - Teachers new to the school can describe effective induction

- improvement purposes.
- The leader has an established record of retaining effective and highly effective teachers on the staff.
- The leader has a systematic process for selecting new hires and reviews that process for its impact on faculty effectiveness.
- Programs for new and transfer teachers that promote adjustment to the school culture and instructional responsibilities is provided.
- Evidence that the leader has shared successful hiring practices with other administrators and colleagues within the district.
- Other leadership evidence of proficiency on this indicator.

- processes that had a positive impact on their adjustment to the school.
- Teacher leaders (e.g. department heads, team leaders) can describe the instructional capacities needed in finding candidates to fill vacancies on the faculty.
- Other impact evidence of proficiency on this indicator.

### **Reflection Questions for Indicator 4.1**

| Highly Effective  | Effective   | Needs Improvement   | Unsatisfactory  |
|---|---|---|---|
| What can be done to encourage quality teachers to stay with your school and quality applicants to seek to join the faculty? | What connections do you have to reach potential applicants other that the districts personnel office? | Have you gathered data about why teachers choose to leave your faculty? What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert? | At what point in the school year do you check on staff retention and estimate future staffing needs? In what ways are professional learning opportunities linked to individual faculty needs? |

Indicator 4.2 – Feedback Practices: The leader monitors, evaluates proficiency, and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals and the cause and effect relationships between professional practice and student achievement on those goals.

Narrative: Where indicator 3.6 focuses on monitoring to maintain awareness of faculty effectiveness, this indicator focuses on the use of the monitoring process to provide quality and timely feedback to teachers. The feedback processes need to deepen teacher understanding of the impact of their practices on student learning.

| Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader provides formal feedback consistent with the district personnel policies, and provides informal feedback to reinforce proficient performance and highlight the strengths of colleagues and staff.  The leader has effectively implemented a system for realizations for dispatch from  | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader adheres to the personnel policies in providing formal feedback, although the feedback is just beginning to provide details that improve teaching or organizational performance, or there are faculty to whom feedback Is not timely or not focused on priority  | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  There is no or only minimal monitoring that results in feedback on proficiency.  Formal feedback, when provided, is nonspecific.  Informal feedback is rare, nonspecific, and not   |
|---|--|---|
| teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of instructional practices.  Corrective and positive feedback is linked to organizational goals and both the leader and employees can cite examples of where feedback is used to improve individual and organizational performance.  | improvement needs.  The leader tends to view feedback as a linear process; something they provide teachers rather than a collegial exchange of perspectives on proficiency.  | constructive.   |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:  Rubrics that distinguish among proficiency levels on evaluation indicators are used by the leader to focus feedback needed improvements in instructional practice.  Samples of written feedback provided teachers regarding prioritized instructional practices.  Documentation of an instructional monitoring schedule that supports frequent instructional monitoring by the school's administrative staff.  The leader implements a schedule that results in frequent walkthroughs and observation of teaching and learning  School improvement plan reflects monitoring data analyses.  Evidence the leader has a system for securing feedback from teachers specific to prioritized instructional practices. |  | y and staff. # **Reflection Questions for Indicator 4.2**

| Highly Effective   | Effective  | Needs<br>Improvement  | Unsatisfactory   |
|--|--|---|--|
| How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance and that of the school? What might you do to ensure that they see this important connection? | What are some examples of focused, constructive, and meaningful feedback that you provide to your staff? How does this support their learning? | In what ways do you currently recognize faculty in providing feedback and affirmation to them?  To what extent do you acknowledge the efforts of teams, as well as that of individuals? | How can frequent, focused, and constructive feedback support teachers in improving their instructional practice? |

# Indicator 4.3 – High effect size strategies: Instructional personnel receive recurring feedback on their proficiency on high effect size strategies.

Narrative: Teaching is a complex process. The "right thing to do" varies with conditions in the classroom. However, teachers need proficiency on a core repertoire of high importance strategies. These are strategies all teachers are expected to be able to use effectively. This indicator is focused on the leader's proficiency in focusing faculty attention on improvement of those "high effect size" strategies – those with higher probabilities of causing student growth when done correctly and in appropriate circumstances.

Note: Department lists of high-effect size strategies are posted at <a href="www.fldoe.org">www.fldoe.org</a> and <a href="www.floo.org">www.floo.org</a> and <a href="www.floo.org">wwww.floo.org</a> and <a href="www.floo.org">www.floo.org</a> and <a href="www.fl

# **Rating Rubric**

**Highly Effective:** Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader uses a variety of creative ways to provide positive and corrective feedback on the implementation of high effect size strategies. As a result, the correct and appropriate implementation of high effect size instructional strategies across the curriculum and grades is a routine part of the learning environment for all students.

The entire organization reflects the leader's focus on accurate, timely, and specific recognition of correct and appropriate implementation of high effect size strategies.

The leader balances individual recognition on high effect size strategies with team and organization-wide recognition.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

In addition to the formal feedback consistent with the district evaluation system indictors, the leader provides recurring informal feedback on high effect size strategies to reinforce proficient performance and highlight the strengths of colleagues and staff.

The leader has effectively implemented a system for collecting feedback from teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of high effect size strategies.

Corrective and positive feedback on high effect size strategies is linked to organizational goals.

Both the leader and employees can cite examples of where feedback on high effect size strategies is used to improve individual and organizational performance. Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader adheres to the district evaluation system requirements for providing formal feedback on high effect size strategies, but the feedback is general rather than providing details that improve teaching or organizational performance related to high effect size strategies.

The leader tends to view feedback as a linear process; something they provide teachers rather than two way communications where the leader also learns from the teachers' expertise.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader is not aware of the high effect size strategies expected to be used in district schools or fails to communicate them to faculty.

Feedback on high effect size strategies is rare, nonspecific, and not constructive.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Professional learning supports on the high effective size strategies are readily available to faculty.
- Samples of written feedback provided teachers high effect size instructional strategies.
- Walkthrough and observation practices are designed to emphasize feedback on use of high effective size strategies.
- School improvement plan includes actions to improve proficiency in high effect size strategies.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

- Teachers can attest to regularly scheduled formal and informal observations with feedback on high effect strategies.
- Teachers report recognition as team members and as individuals for quality work on high effect strategies.
- Teachers describe feedback from the leader in terms of recognizing instructional strengths and suggestions to take their teaching to a new level.
- Teachers report that leader uses a combination of classroom

- Evidence the leader has a system for securing specific feedback from teachers on their implementation of high effect size strategies correctly and in appropriate circumstances.
- Documentation of an instructional monitoring schedule that supports frequent (every other week) instructional monitoring of high effect size strategies.
- The leader provides feedback that describes ways to enhance performance on high effect size strategies and reach the next level on same.
- The leader manages schedules that enable teachers to make observational rounds or view video examples of other teachers using the high effect size strategies.
- Other leadership evidence of proficiency on this indicator.

- observation and teacher-self assessment data as part of the feedback on high effect size strategies.
- High effect size strategies provided through various state and district initiatives are employed by teachers to whom the initiatives apply.
- Departments routinely discuss their capacity to implement the high effect strategies applicable to their subject area.
- Teachers are afforded opportunities to observe mentor teachers using the high effect size strategies.
- Lesson study teams use the process to improve application of high effect strategies to the content of targeted lessons.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| time, leave blank:                |                        | -                                 |                        |

#### Reflection Questions for Indicator 4.3

| Reflection Questions  |   |  |  |  |  |
|---|---|--|--|--|--|
| Highly Effective  | Effective   | Needs  | Unsatisfactory   |  |  |
| How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance on high effect size strategies and as well as the organizational performance?  What might you do to ensure that they see this important connection? | What are some examples of focused, constructive, and meaningful feedback on high effect size strategies that you provide to your staff? How does this support their learning? | Improvement In what ways do you currently recognize faculty in providing feedback and affirmation to them on high effect size strategies?  To what extent do you acknowledge the efforts of teams, as well as that of individuals? | How can frequent, focused, and constructive feedback support teachers in improving their instructional practice? |  |  |

Indicator 4.4 - <u>Instructional Initiatives</u>: District supported state initiatives focused on student growth are supported by the leader with specific and observable actions including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives.

Narrative: The Department of Education and/or district-supported initiatives focused on improving student performance require school leader support to be successful at the school site. This indicator addresses the leader's proficiency in supporting such initiatives. Indicator 4.4 also focuses on professional learning needed to implement priority initiatives.

Note: District and FLDOE websites provide support and information about priority initiatives.

## Rating Rubric

| Rating Rubric   |  | <u></u>   |  |
|---|--|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  All initiatives are implemented across the grades and subjects as appropriate with full fidelity to the components of each initiative.  The leader monitors teachers'  | impact of leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  Some initiatives are implemented across the some of the grades and subjects as appropriate with full fidelity to the components of each initiative. |   | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  District and state supported initiatives are not supported by the leader with any specific plans, actions, feedback or monitoring. |
| implementation of the initiative, tracks the impact of the initiative on student growth, and shares effective practices and impacts with other school leaders.  | The leader is conversant with the impact the initiative is expected to have and monitors teacher and student implementation of the elements of the initiative.   | The leader relies on teachers to implement the initiatives and is seldom involved in monitoring or providing feedback on the impact of the initiative's implementation on student growth.   | The leader is unaware of what state and district initiatives are expected to be implemented at the school.   |

Indicator 4.5 – Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Narrative: Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Professional learning on-the-job is an essential aspect of effective schools. School leaders who manage the school in ways that support both individual and collegial professional learning get better outcomes than those who do not. The leader's personal participation in professional learning plays a major role in making professional learning efforts pay off. This indicator addresses the leader's role as a leader in professional development.

| Highly Effective: Leader's                            | Effective: Leader's actions or                                       | Needs Improvement:  | Unsatisfactory: Leader's                               |

| Transport disconding for minimum in   |   |  |  |  |
|---|---|--|--|--|
| Highly Effective  | Effective   | Needs Improvement  | Unsatisfactory   |  |
| What strategies have you implemented so that you spread your learning about providing professional learning for individual and collegial groups within your school to your colleagues across the school system? | What might be some creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies? | As you think about your leadership in providing professional learning, what are key strategies for you to consider that would help you provide recurring opportunities for professional learning for individual and collegial groups | How would you describe your efforts to make certain that your professional learning is focused on student needs or faculty proficiency at high effect size strategies? |  |
|   |   | focused on issues directly   |  |  |

Indicator 4.6 – Faculty Development Alignments: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by:

- generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan,
- identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement),
- aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals,

and using instructional technology as a learning tool for students and faculty.

| and dering mendenenal teermenegy as a reasoning teer for endagence and raceasty. |                                   |  |  |  |
|--|-----------------------------------|--|--|--|
|  | related to faculty proficiency at |  |  |  |
|  | high effect size strategies and   |  |  |  |
|  | student learning needs?           |  |  |  |

Narrative: Faculty development has many aspects. This indicator addresses the leader's proficiency at developing faculty capacity to implement culturally relevant differentiated instruction by <u>aligning</u> the various faculty developments processes and practices with certain key issues (Standards-based content, research-based methods, data for planning, etc. as specified in the text of the standard.)

| rtating reasons  | ,  |  |   |
|--|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader has demonstrated a record of differentiated professional learning for faculty based on student needs.  The leader has developed a system of job-embedded professional learning that differentiates training and implementation of instructional priorities based on teacher needs, which help retain proficient and highly exemplary staff.  The leader routinely shares professional learning opportunities with other schools, departments, districts, and organizations.  | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  Professional learning includes a plan for the implementation of the prioritized instructional needs (e.g., research-based instruction, data analysis, instructional technology, culturally relevant) aligned to school improvement plan and some effort has been made to differentiate (coaching, mentoring, collaborative teams, coaching) and embed professional development to meet the needs of all faculty members. The leader is able to use data from evaluation of instructional personnel to assess proficiencies and identify priority needs to support and retain proficient and exemplary faculty members. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader attempts to implement all of the priority instructional needs without a plan for doing so.  The leader is aware of the differentiated needs of faculty and staff members, but professional development is only embedded in faculty meetings at this time, rather than incorporating the use of collaboration, study teams, etc. in order to meet the unique needs of staff. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  Professional learning is typically "one size fits all," and there is little or no evidence of recognition of individual faculty needs or matching of faculty needs to student achievement needs. Consequently, retaining proficient and exemplary staff is problematic. |
| <ul> <li>Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:         <ul> <li>Documentation that professional learning is determined on the basis of student achievement and teacher competency data.</li> <li>Evidence that professional learning includes culturally relevant instructional practices.</li> <li>Faculty meetings focus on professional learning related to the schools instructional priorities.</li> </ul> </li> <li>Impact Evidence of leadership proficiency may be behaviors or status of the faculty and staff. Illustrate examples of such evidence may include, but are not limited to the following:         <ul> <li>Staff describes ways that professional learning is or relevant to the population served and differentiated unique instructional needs.</li> <li>Lesson study groups and PLCs have explicitly state a focus for their collegial learning.</li> <li>Teachers can articulate a process that helps them individualized learning plans.</li> </ul> </li> </ul> |  | y and staff. Illustrative y include, but are not limited to fessional learning is culturally wed and differentiated to meet their Cs have explicitly stated goals and ning.  |   |

- identifies needs that are subsequently addressed by professional learning.
- Technology resources are provided to maximize faculty access to online learning and sharing video exemplars for quality instructional practices.
- Individualized professional development plans approved by the principal are clearly aligned with school improvement priorities.
- Meeting agendas and memorandum to faculty provide evidence of on-going monitoring of the implementation of critical initiatives (e.g., data analysis, text complexity), standards-based instructional program, multi-tiered system of supports, and differentiated instruction.
- The leader's documents and agendas provide evidence of guiding faculty toward deeper understanding of the cultures of students in the school and how instruction is adapted to improve student engagement in learning.
- Other leadership evidence of proficiency on this indicator.

- Faculty requests for professional learning are filtered to ensure that they relate to identified needs within the school improvement plan.
- Teachers can identify their learning needs as they relate to student learning needs.
- Faculty can demonstrate their use of course descriptions as the source of learning goals and objectives.
- Faculty can provide evidence of culturally relevant and differentiated instruction.
- Other impact evidence of proficiency on this indicator.

| What procedures have you established to increase professional knowledge opportunities for colleagues across the school system? | What system do you use to prioritize learning needs and empower faculty to create individual learning plans? | What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert? | In what ways are professional learning opportunities linked to individual faculty needs? |

# Indicator 4.7 – Actual Improvement: The leader improves the percentage of effective and highly effective teachers on the faculty.

Narrative: An indicator required by 1012.34 F.S., the focus is on whether the accumulated impact of the leader's actions result in positive trend lines on teacher effectiveness. Evidence gathered from proficiency area #3 provide a base line that, along with teacher rating in the district's teacher evaluation system and student growth measures, enable assessment of whether actual improvement in teacher's proficiency is occurring.

| Rating Rubric  |  |  |  |  |
|--|--|--|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The percentage of teachers rated effective or highly effective increases while the percentage rated needs improvement for two consecutive years declines.  Student growth measure and instructional practice ratings are in substantial agreement for at least 75 percent of the faculty. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The percentage of teachers rated effective or highly effective increases or remains stable within five percentage points of the prior year, but there is evidence of specific improvements in student growth measures or proficiency in high effect size strategies. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  There is no evidence of improvement in student growth measures for the majority of the teachers rated as effective, needs improvement, or unsatisfactory.  There is significant variation between teachers' student growth measures and principal's assessment of instructional practices.   | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The percentage of teachers rated effective or highly effective declines and cannot be explained by changes in staff membership.  There is no evidence of improvement in student growth measures for the majority of the teachers rated as needs improvement or unsatisfactory. |  |
| Leadership Evidence of profice seen in the leader's behaviors of such evidence may include, be following:  | or actions. Illustrative examples out are not limited to the   | Impact Evidence of leadership behaviors or status of the facult examples of such evidence may the following:   | y and staff. <u>Illustrative</u> y include, but are not limited to   |  |

Proficiency Area 5: <u>Learning Environment</u>: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.

Narrative: This proficiency area is aligned with FPLS standard 5. Much of what student's experience in school is a result of decisions and actions by the adults in the school. Learning environments that are success oriented, student centered, treat diversity as an asset, and focus on eliminating achievement gaps support students preparation for fulfilling lives.

Indicator 5.1 – Student Centered: The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Narrative: School leaders who monitor what students experience by being enrolled in the leader's school have better insights on how to make the system work than those who do not monitor impact of policies and practices on students. It is the leader's responsibility to know whether student life is equitable, respectful, and supportive of engagement in learning.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.                                      | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.    | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.                                |

teaching and learning for all?

Indicator 5.2 - Success Oriented: Initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.

Narrative: The issues in 5.1 focus on monitoring how school policy and practice affect the quality of student lives. This indicator shifts focus from those broad issues to what happens at the school that creates opportunities for student success and students' perceptions that school life is organized to do something good for them. School should be rigorous and demanding but also implemented in ways that create recurring opportunities for success.

| Rating Rubric  |   |   |  |
|--|---|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  Through all grades and subjects a multi-tiered system of supports is operational providing core universal supports (research-based, high-quality, general education instruction and support; screening and benchmark assessments for all students, and continuous data collection continues to inform instruction, problem solving is employed to identify and implement targeted supplemental supports (data based interventions and progress monitoring).  Where targeted supplemental supports are employed based on individual supports are employed based on individual student needs.  Skillful problem solving to ensure staff have adequate time and support, and effectively monitoring teacher's effective use of research-based instruction. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  Problem solves skillfully (e.g., conceptualizing, applying, analyzing, synthesizing, and/or evaluating information) to provide adequate time, resources, and support to teachers to deliver the district's curriculum to all students.  Celebrations of student success are common events and are focused on recognition of the methods and effort expended so students understand what behaviors led to the success.  Most grades and subject track student learning growth on priority instructional targets.  MTSS operational across the grades and subjects. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  Problem solving efforts are unskillfully used to provide adequate time, resources, and support to teachers to deliver the district's curriculum and state's standards to students.  Celebrations of student success are provided but are inconsistent in focusing on how/why students succeeded.  MTSS operational in some classes. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  No actions other than use of slogans and exhortations to succeed are taken by the leader to address practices and process that actually enable success.  MTSS not operational. |

Indicator 5.3 - Diversity: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.

Narrative: "Diversity practices" refers to the capacity of teachers and school leaders to recognize the many variations in students that impact learning growth (e.g. learning processes, prior learning experiences, family and cultural backgrounds); implement practices that respect diversity in learning needs (e.g. multi-tiered system of supports) and make adjustments at the classroom level that make use of student strengths and promote growth needs.

# Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader shares with others throughout the district strategies that help them put into action their belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

The leader provides an instructional program where recurring adaptations in instructional to address variations in student learning needs, styles, and learning strengths are routine events in all classes.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader systematically acts on the belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

Classroom practices consistently reflect appropriate adjustments based on cultural, racial, ethnic backgrounds of students.

The leader's expectations that teachers adapt instructional strategies to meet individual student needs are an accepted part of the shared vision of the leader and faculty.

# Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader inconsistently acts on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

The leader has taken some actions that set expectations for teachers adapting instructional strategies to meet individual student needs and such individualization is evident in some but not most classes.

# Unsatisfactory: Leader's actions or impact of leader's actions

relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum, instruction, and assessment that are culturally, racially, or ethnically insensitive and/or inappropriate.

Takes no actions that set expectations for teachers adapting instructional strategies to meet individual student needs.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Documents that support the use of diversity as an asset in the development and implementation of procedures and practices.
- Agendas, memorandum, etc., reflecting recurring attention at faculty meetings to capacity to recognize diversity issues and adapt instruction accordingly.
- Leader's actions in providing professional learning for faculty that deepens understanding of a range of diversity issues and evidence of monitoring for implementation in the classroom of appropriate diversity practices.
- School policies, practices, procedures that validate and value similarities and differences among students.
- The school leader collects and reviews agenda and minutes from departmental or team meetings to monitor attention to diversity issues in pursuit of student learning growth.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can describe a specific policies, practices, and procedures that validate and value similarities and differences among students.
- Professional development opportunities are provided for new teachers regarding ways to adapt instruction to address diversity issues in the student body and community.
- Student questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- Parent questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- A multi-tiered system of supports (MTSS) is implemented in the classrooms in ways that respect and make adjustments for diversity factors.
- The school provides an interactive website for students. parents, and the community designed to be "user friendly" and sensitive to diversity issues in the community, providing information of interest to various segments of the school

| Highly Effective   | Effective   | Needs<br>Improvement  | Unsatisfactory   |
|--|---|---|--|
| What procedures might you establish to increase your ability to help your colleagues develop curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | What strategies might you employ so that you could share with others throughout the district practices that help them put into action your belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | How might you increase the consistency with which you act on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | How might you expand the opportunities for all students to meet high expectations by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? |

Indicator 5.4 - Achievement Gaps: The leader engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.

Narrative: Where indicator 5.3 is focused on the broad array of diversity factors that impact success of individual students and student sub-groups, indicator 5.4 focuses on academic growth of specific sub-groups whose academic performance lags behind what they are capable of achieving. The leader is expected to prepare the faculty to do what is needed to meet the academic improvement needs of the sub-group(s).

Rating Rubric Highly Effective: Leader's Effective: Leader's actions or **Needs Improvement:** Unsatisfactory: Leader's actions or impact of leader's actions impact of leader's actions relevant to Leader's actions or impact of leader's actions or impact of leader's actions relevant to this indicator exceed this indicator are sufficient and actions relevant to this indicator are relevant to this indicator are minimal effective levels and constitute models appropriate reflections of quality work evident but are inconsistent or of or are not occurring, or are having an of proficiency for other leaders. with only normal variations. insufficient scope or proficiency. adverse impact. |   |  | Improvement   | -  |  |
| What strategies might you employ to increase your ability to help your colleagues understand how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment, etc.) in order to improve student achievement? | What are one or two critical steps you could take that would shift your examination of culture to a point that they become a self-regulating system based on data that guarantees regular and predictable success even if conditions change? | How might you systematically apply the process of inquiry to develop methods of generating greater understanding of the cultures of individuals within the building and how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment) to improve student achievement? | Why do sub-groups students like those in your school not perform as well as similar groups in other schools?  In what ways might you demonstrate greater understanding of cultures and their impact on the current systems in your school to improve student learning? |  |

## **Domain 3: Organizational Leadership**

Narrative: This domain addresses proficiencies that impact the quality of a broad array of school operations. The focus is applying these proficiencies to improve student achievement, instructional leadership, and professional conduct.

Narrative: This proficiency area is aligned to FPLS standard #6. How decisions are made can be as important as what decisions are made. The leader's proficiency at balancing the various aspects of decision-making is the focus of this area.

Indicator 6.1 – Prioritization Practices: The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Narrative: Leaders make many decisions. Those that impact student learning and teacher proficiency require priority attention. The focus is the leader's ability to make sure that decisions on student learning and faculty proficiency are not lost among the lower priority issues or given inadequate attention because of all the other things leaders do.

| 11411119 11411110   |  |  | 1   |
|---|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader produces clear, convincing, and consistent evidence that demonstrates an understanding of learning, teaching, and student development to inform all decisions and continuously uses this information to enhance teaching and learning.  The leader produces clear, convincing, and consistent evidence that, on an ongoing basis, all decisions are made in a way that promotes the school's vision and mission.  Effective decision-making practices are frequently shared with other administrators and colleagues throughout the system.   | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader's decisions consistently demonstrate an understanding of learning, teaching, and student development.  The leader produces clear evidence of making most decisions in a way that supports the school's vision and mission regarding student learning and faculty proficiency. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader provides limited evidence that demonstrates understanding of learning, teaching, and student development to inform decisions or is inconsistent in using this information to enhance decisions about teaching and learning.  The leader produces limited evidence that the school's vision and mission impacts decision making. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader provides little or no evidence that demonstrate awareness of learning, teaching, and student development to inform decisions.  The leader produces little to no evidence of making decisions that are linked to the school's vision and mission.  Decisions adverse to student growth and/or faculty development are made. |
| Leadership Evidence of proficion seen in the leader's behaviors of such evidence may include, but following:     The school's vision and mission leader is focused on student of proficiency.     Staff evaluations and profession emphasize student learning of Documents showing the devertigation of the seen in the learning of the seen in the leader's behaviors of the seen in | or actions. # **Rating Rubric**

| Rating Rubric  |  |  |  |
|--|--|--|--|
| Rating Rubric  Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  The leader demonstrates the ability to construct a clear and insightful problem statement with evidence of relevant contextual factors.  The leader identifies multiple approaches for solving a problem and proposes one or more solutions/hypotheses that indicate a deep comprehension of the problem. The solutions are sensitive to contextual factors as well as all of the following: ethical, logical, and cultural dimensions of the problem.  The leader's evaluation of solutions is comprehensive and includes all of the following: history of the problem, logic/reasoning, feasibility and impact of the solution.  The solution is implemented in a manner that addresses each of the contextual factors of the problem. A thorough review of the results is conducted to determine need for further work. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader demonstrates the ability to construct a problem statement with evidence of most relevant contextual factors and the problem statement is adequately detailed.  The leader identifies multiple approaches for solving a problem.  The leader's solutions are sensitive to contextual factors as well as at least one of the following: ethical, logical, or cultural dimensions of the problem.  Evaluation of solutions is adequate and includes: history of the problem, reviews logic and reasoning, examines feasibility of solution, and weighs impact.  The solution is implemented and the results reviewed with some consideration for further work. | Needs Improvement:  Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader is beginning to demonstrate the ability to construct a problem statement with evidence of most relevant contextual factors, but the problem statements are superficial or inconsistent in quality.  Typically, a single "off the shelf" solution is identified rather than designing a solution to address the contextual factors.  The solution is implemented in a manner that addresses the problem statement but ignores relevant factors. Results are reviewed with little, if any, consideration for further work. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader demonstrates a limited ability to identify a problem statement or related contextual factors.  Solutions are vague or only indirectly address the problem statement.  Solutions are implemented in a manner that does not directly address the problem statement and are reviewed superficially with no consideration for further work. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:  Samples of problem statements, contextual factors, recommended approaches, proposed solutions, evaluation, and   |  | Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:  Teachers can personally attest to the problem-solving skills of the leader.   |  |
| recommended approaches, proposed solutions, evaluation, and review with consideration for further work are presented.     A well-established problem-solving process can be described by the leader.     Data records reveal the range of problems addressed and afterimplementation data collections. ## **Reflection Questions for Indicator 6.3**

| Highly Effective   | Effective  | Needs  | Unsatisfactory   |
|--|--|--|--|
|  |  | Improvement  |  |
| How do you continue to clarify<br>the decision-making process in a<br>dynamic, changing environment? | Why is it necessary for you as a school leader to reevaluate prior decisions and programs in light of emerging research, personal experience, and changing situations? | What will you do from now on to ensure previous decisions and programs are revisited and evaluated on a routine basis? | When do you take time with your leadership team to reflect on decisions that have been made? In what ways do you evaluate decisions on the basis of student achievement? |

# Indicator 6.4 – Distributive Leadership: The leader empowers others and distributes leadership when appropriate.

Narrative: A school is too complex for one person to make all decisions. Some of the functions of leadership must be shared with others. Developing capacity for success in a workforce requires enabling other people to be responsible for meaningful decisions. The leader's capacity to share the "right stuff" and distribute decision making among other appropriate staff is the focus here.

| Nating Nubite   |  |  |   |
|---|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  Innovation and improvement in instructional processes, faculty development, or school operations have resulted from distributive leadership.  The leader encourages staff members to accept leadership responsibilities outside of the school building.  The leader incorporates teacher and support staff into leadership and decision-making roles in the school in ways that foster the career development of participating teachers. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader creates opportunities for staff to demonstrate leadership skills by allowing them to assume leadership and decision-making roles.  The leader supports the decisions made as part of the collective decision-making process.  Decision-making delegations are clear: Sub-ordinates know what decisions are made by the leader, which by the leader after input from others, and which are delegated to sub-ordinates to decide. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  Some well-understood leadership roles other than the school principal are functioning and contributing to effective and timely decisions on some school priorities, but there are recurring delays in reaching decisions on other issues.  Decisions are often rushed or made without appropriate input due to lack of planning and implementation of development activities by staff members. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  There is no or only minimal evidence that anyone other than the principal has a meaningful role in making timely decisions.  The leader rarely seeks input on significant issues from a variety of stakeholder groups (e.g. faculty leaders, teachers, student, parents, community, or business leaders). |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:  |  | Impact Evidence of leadership<br>behaviors or actions of the facu<br>community. Illustrative example<br>include, but are not limited to th   | lty, staff, students and/or solutions solutions solutions staff, studence may   |
| <ul> <li>Organizational charts or other documents reveal how leadership is distributed and informs who is involved in what.</li> <li>School improvement plan process reflects involvement by a variety of parties.</li> <li>Evidence of shared decision-making and distributed leadership is present in leader's memorandums, e-mails, and other</li> </ul>   |  | roles in decision making.  • Minutes, agendas, and other   | cher leaders report meaningful records of meetings held by sub- nvolvement in significant decision which colleagues have a  |

communications.

- Leader's communication to faculty and stakeholders recognizes the role of those to whom leadership functions were distributed.
- Other leadership evidence of proficiency on this indicator.
- leadership or decision making role in any given issue.
- Teacher and or parent surveys reflect satisfaction with access to sub-ordinate and teacher leaders rather than requiring access only to the principal.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| [] Highly Effective             | [] Effective            | [] Needs Improvement               | [] Unsatisfactory      |

| Evidence Log (Specifically, who | at has been observed    | that reflects current proficiency  | on this indicator? The |
| examples above are illustrative | and do not reflect an e | exclusive list of what is expected | d):                    |
|                                 |                         |                                    |                        |
|                                 |                         |                                    |                        |

#### Reflection Questions for Indicator 6.4

| Highly Effective   | Effective  | Needs Improvement   | Unsatisfactory   |
|--|--|---|--|
| To what extent do you have a systematic process in place for delegating authority to subordinates? | How might you increase the range and scope of tasks and responsibilities you delegate to key individuals or teams? | Under what circumstances would you be willing to release increased decision-making authority to your staff and faculty? | What factors prevent you from releasing responsibilities to staff? |
|  | In what areas do faculty and staff bring expertise that will improve the quality of decisions at your school?      | How might you use the function of delegation to empower staff and faculty at your school?                               |  |

Indicator 6.5 – Technology Integration: The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Narrative: Technology was a separate standard in the 2005 Florida Principal Leadership Standards (FPLS). By 2011 the state had made great strides toward accepting technology into the schools. In the 2011 FPLS, technology moved from a separate general "protechnology" standard to focused <u>applications</u> of technology embedded in several standards. This indicator focuses on technology integration and the leader's use of technology to improve decision-making processes in several priority areas.

## **Rating Rubric**

**Highly Effective:** Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader mentors other school leaders on effective means of acquiring technology and integrating it into the decision-making process.

The leader provides direct mentoring and coaching supports so that new staff and new sub-ordinate leaders are quickly engaged in effective use of technology supports needed to enhance decision-making quality.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

Technology support for decisionmaking processes is provided for all of the staff involved in decision making on school instructional and faculty improvement efforts.

Technology integration supports all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership.

Engages sub-ordinate leaders in developing strategies for coaching staff on integration of technology.

**Needs Improvement:** 

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Technology support for decisionmaking processes is provided for some, but not all of the staff involved in decision making on school instructional and faculty improvement efforts.

Technology integration supports some, but not all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership.

**Unsatisfactory:** Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an

adverse impact.

There is no or only minimal evidence that decision-making prioritization, problem solving, decision evaluation or distributed leadership processes are supported by technology integration.

Decision making is not supported by a well-understood system of procedures to identify problems and generate solutions.

Technology integration does not support data exchanges, project management, and feedback processes.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- School improvement plan reflects technology integration as a support in improvement plans.
- Leader has a technology integration plan used to provide technology supports to the degree possible with available resources.
- School website provides stakeholders with information about and access to the leader.
- Technology tools are used to aid in data collection and analyses and distribution of data findings.
- Evidence that shared decision -making and distributed leadership is supported by technology.
- Technology used to enhance coaching and mentoring functions.
- Other leadership evidence of proficiency on this indicator.

behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

**Impact Evidence** of leadership proficiency may be seen in the

- Sub-ordinate leaders integrate technology into their work functions and use technology to streamline the process.
- Data from faculty that supports decision making and monitoring impact of decisions are shared via technology.
- PowerPoint presentations, e-mails, and web pages of faculty members support involvement in decision making and dissemination of decisions made.
- Faculty use social network methods to involve students and parents in data collection that supports decision making and to inform stakeholders of decisions made.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator,

| assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this |                    |                                       |                           |  |

How might you use the function of delegation to empower staff and faculty at your school? | What factors prevent you from releasing responsibilities to staff? |

Proficiency Area 7. <u>Leadership Development</u>: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Narrative: This proficiency area aligns to Standard 7. Leaders are developed by other leaders. This is a process critical to an organization's capacity to improve over time and sustain quality processes. This proficiency area focuses on what leaders do to develop leadership in others.

Indicator 7.1 – Leadership Team: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Narrative: The FPLS are based on a presumption that the school leader works with and through a team of other people to insure coordination and focus of school operations and improvements. Leadership teams get things done!

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  | <b>Effective:</b> Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.         | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.   |
|--|---|---|--|
| The participants in the school's leadership team function independently with clear and efficient implementation of their role(s) and work in a collegial partnership with other leadership team participants to coordinate | Those who are assigned or have accepted leadership functions have consistent support from the school leader in focusing their efforts on instructional improvement and faculty development. | The leader has identified staff for leadership functions, follows district personnel guidelines for accepting applications for new leaders, but has not implemented any systemic process for identifying emergent | The leader does not recognize<br>the need for leadership by other<br>people. Staff with leadership<br>titles (e.g., department heads,<br>team leaders, deans, assistant<br>principals) has little or no<br>involvement in processes that |

operations on student growth and faculty development.

Leadership development processes employed by the school leader are shared with other school leaders as a model for developing quality leadership teams.

The leader has specifically identified at least two emerging leaders in the past year, and has entered them into the ranks of leadership training or provided personal mentoring on site.

Other school leaders cite this leader as a mentor in identifying and cultivating emergent leaders.

The leader has specifically identified and cultivated potential and emerging leaders for the major functions of the school.

The leader has personally mentored at least one emerging leader to assume leadership responsibility in instructional leadership or at an administrative level, with positive results.

leaders, or is inconsistent in application of such a process.

The leader provides some training to some of the people assigned leadership functions, but does not involve staff other than those in the designated roles

build leadership capacities.

Persons under the leader's direction are unable or unwilling to assume added responsibilities.

There is no or only minimal evidence of effort to develop leadership potential in others.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Organizational charts identify the leadership roles and team members.
- The leader has a system for identifying and mentoring potential leaders.
- The leader can cite examples in which s/he coached several emerging leaders to assume greater levels of responsibility within the organization.
- Minutes, e-mails, and memorandums reflecting exchanges among leadership team members are focused on school improvement goals, student growth, and faculty development.
- The leader's communications to faculty and stakeholders reflect recognition of the leadership team.
- Other leadership evidence of proficiency on this indicator.

- Teachers at the school can describe informal and formal opportunities to demonstrate and develop leadership competencies.
- Teachers at the school report that leadership development is supported and encouraged.
- Current leadership team members can describe training or mentoring they receive from the school leader regarding leadership.
- Teachers can describe processes that encourage them to be involved in school improvement and prepare for leadership roles
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

# [] Highly Effective

[] Effective

[] Needs Improvement

[] Unsatisfactory

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

#### Reflection Questions for Indicator 7.1

| Highly Effective             | Effective                     | Needs Improvement                    | Unsatisfactory                      |
|------------------------------|-------------------------------|--------------------------------------|-------------------------------------|

| and mentorship to emerging   | school improvement process to | encourage participation in           | that help you screen and develop    |
| leaders outside of your      | develop leadership capacity   | leadership development?              | potential leaders?                  |
| personal job description and | from existing faculty?        |                                      | How might you spend time explicitly |
| leadership responsibilities? |                               | When do you release                  | preparing your assistants to        |
| How would you describe the   | What strategies and lessons   | responsibility to your assistants to | assume your role as principal?      |

| Indicator 7.2 – Delegation: The leader establishes delegated areas of responsibility for sub-ordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure. |  |  |   |  |
|--|--|--|---|--|
| system you use to ensure that emerging leaders pursue job opportunities when they are available? How might you embed this preparation into their job duties, and what changes will you need to make to help build such leadership capacity at your school?   | might you impart to your direct<br>reports to better prepare them<br>for expanded leadership<br>opportunities? | own key decisions? How do you<br>leverage school improvement<br>activities to build leadership<br>capacity for assistants and<br>emerging teacher leaders? | What steps would you take to spend more time in preparing your assistants to assume your role as principal? |  |

Narrative: Leadership teams engage other skilled people in the business of the school. However, involvement does not insure effective organizations. This indicator focuses on the distribution of responsibility and whether sub-ordinate leaders have been delegated all that is needed to succeed.

| Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  There is a clear pattern of delegated decisions, with authority to match responsibility at every level in the organization.  The relationship of authority and responsibility and delegation of authority is clear in personnel documents, such as evaluations, and also in the daily conduct of meetings and organizational business.   | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader sometimes delegates, but also maintains decision-making authority that could be delegated to others.  Clarity of the scope of delegated authority is inconsistent from one delegation to another.  Actions taken by those to who tasks are delegated are sometimes overruled without explanation.  | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader does not afford subordinates the opportunity or support to develop or to exercise independent judgment.  If delegation has occurred there is a lack of clarify on what was to be accomplished or what resources were available to carry out delegated tasks.   |
|--|---|---|
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:  A Responsibility Matrix or chart of "who does what" provides evidence that the leader trust others within the school by identifying how leadership responsibilities are delegated to other faculty members on his or her staff.  The leader's processes keep people from performing redundant activities.  The leader has crafted "job descriptions" for sub-ordinate leaders' roles that clarify what they are to do and have the delegated authority to do.  Communications to delegated leaders provide predetermined |   | y and staff. | To what extent do you have a systematic process in place for delegating authority to subordinates? | How might you increase the range and scope of tasks and responsibilities you delegate to key individuals or teams?     | Under what circumstances would you be willing to release increased decision-making authority to your staff and faculty? | What factors prevent you from releasing responsibilities to staff? |
|  | In what areas do faculty and staff<br>bring expertise that will improve<br>the quality of decisions at your<br>school? | How might you use the function of delegation to empower staff and faculty at your school?                               |  |

# Indicator 7.3 – Succession Planning: The leader plans for and implements succession management in key positions.

Narrative: When the leader is off campus – who is in charge? When the leader changes jobs or retires, who is prepared to take over? What about the school's subs-ordinate leaders? Who takes over for them? Succession planning is building relationships and preparation processes for involving others in ways that prepare them to move into key positions as they become vacant.

| Highly Effective: Leader's  | Effective: Leader's actions or   | Needs Improvement:  | Unsatisfactory: Leader's   |
|---|--|---|--|

ordinate leaders in succession management processes in their own areas of responsibility.

Central office personnel rely upon this leader to share highly successful succession planning practices with other leaders throughout the district.

competencies have been identified.

In conjunction with central office staff, the leader identifies and evaluates applicant pools, collects information on competency levels of employees in identified applicant pools and identifies competency gaps.

Based on an analysis of these gaps, the leader develops and uses programs and strategies for smooth succession including temporary strategies for getting work done during vacancy periods.

component parts have yet to be implemented.

The leader primarily relies on central office staff to identify and evaluate applicant pools, the competency levels of employees in identified applicant pools, and the competency gaps.

Little to no effort on the part of the leader is made to increase the competency level of the potential successor leaders within the faculty or such efforts are limited in scope. possess the critical instructional capabilities required of the school, which compromises the school's efforts to increase student academic achievement, and no processes to remedy the trend are taken.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Documents generated by or at the direction of the leader establish a clear pattern of attention to individual professional development that addresses succession management priorities.
- The leader has processes to monitor potential staff departures.
- The leader accesses district applicant pools to review options as soon as district processes permit.
- Informal dialogues with faculty routinely explore their interests in expanded involvement and future leadership roles.
- Leader has documents or processes to inform potential leaders of the tasks and qualifications involved in moving into leadership roles.
- A succession management plan that identifies succession problems, key and hard-to-fill positions for which critical competencies have been identified, and key contacts within the school community.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

- Select teachers can attest to having been identified into applicant pools for leadership in key and hard-to-fill positions that may develop in the future.
- Select teachers report that the principal has identified various competency levels needed for key or hard-to-fill leadership positions.
- Select teachers describe providing the leader feedback as to gaps in their personal competency for which the leader has developed professional learning experiences.
- Teachers can describe transparent processes for being considered for leadership positions within the school.
- Sub-ordinate leaders engage other faculty in competency building tasks that prepare them for future leadership roles.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| assist your successor when the     | vacancy periods?                  |                                  |                               |
| time comes?                        |                                   |                                  |                               |

Narrative: This is a fundamentally important skill set. Leaders get quality work done through other people. The skill set of relationship building, including networking and engaging others in a shared vision, are hallmarks of quality leaders.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  While maintaining on-site work relationships with faculty and students as a priority, the leader finds ways to develop, support, and sustain key stakeholder relationships with parent organizations, community leaders, and businesses, and mentors other school leaders in quality relationship building.  The leader has effective relationships throughout all stakeholder groups and models effective relationship building for other school leaders. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) networks with all key stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) in order to cultivate, support, and develop potential and emerging leaders.  Leader has effective collegial relationships with most faculty and subordinates. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader is inconsistent in planning and taking action to network with stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) to support leadership development.  Relationship skills are employed inconsistently. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.  The leader makes no attempt to or has difficulty working with a diverse group of people.  Consequently, the leader does not network with individuals and groups in other organizations to build collaborative partnerships in support of leadership development. |

### Reflection Questions for Indicator 7.4

| Highly Effective  | Effective   | Needs Improvement  | Unsatisfactory  |
|---|---|--|---|
| In what ways might you further extend your reach within the district to help others throughout the district benefit from your knowledge and skill in establishing relationships among key stakeholder groups? | What strategies are you employing so you can share your experiences relative to establishing relationships with key stakeholders to support potential and emerging leaders? | In what ways are you working to establish networks with key stakeholder groups to cultivate and support potential and emerging leaders in your school? | How might your relationships with faculty and key stakeholder groups help to cultivate and support potential and emerging leaders in your school? |

Proficiency Area 8. <u>School Management</u>: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Narrative: This proficiency area aligns with Standard 8. A school is an "organization." School leaders manage implementation of many rules, regulations, and policies. However, the "organization" is the people working together to provide learning to students. What leaders do to manage those people and the environment in which they work is the focus of this area.

Indicator 8.1 – Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Narrative: Time, tasks, and projects all need organization to have the desired impact. This indicator focuses on the key aspects of organization essential to school success.

| 11441119 11441110   |  |   |  |

| of proficiency for other leaders.   | with only normal variations.   | insufficient scope or proficiency.   | adverse impact.   |  |
|---|--|--|---|--|
| The leader uses project management as a teaching device, helping others understand the interrelationship of complex project milestones throughout the organization.  The leader uses complex project management to build system thinking throughout the organization.  Project plans are visible in heavily trafficked areas, so that accomplishments are publicly celebrated and project challenges are open for input from a wide variety of sources.   | Project management documents are revised and updated as milestones are achieved or deadlines are changed.  The leader understands the impact of a change in a milestone or deadline on the entire project, and communicates those changes to the appropriate people in the organization.  Task and project management and tracking of deadlines are routinely monitored with an emphasis of issues related to instruction and faculty development.   | Project management methodologies are vague or it is unclear how proposed project management tools will work together in order to help keep tasks and projects on time and within budget.  The impact of changes in an action plan or deadline is inconsistently documented and communicated to people within the organization. | There is little or no evidence of time, task or project management focused on goals, resources, timelines, and results. |  |
| Successful project results can be documented.   |  |  |   |  |

Indicator 8.2 – Strategic Instructional Resourcing: The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

Narrative: Resources are always limited. How well a leader does at putting resources where they are needed and when they are needed to support instructional goals is the focus here. Do teachers and students get what they need when they need it?

# Indicator 8.3 – Collegial Learning Resources: The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.

seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:
- School financial information shows alignment of spending with instructional needs.
- Documents are provided to faculty that indicate clear protocols for accessing school resources.
- School Improvement Plan and spending plans are aligned.
- Leader's documents reveal recurring involvement in aligning time, facility use, and human resources with priority school needs.
- Schedules and calendars for use of the facility reflect attention to instructional priorities.
- Other leadership evidence of proficiency on this indicator.

- School-wide teacher questionnaire results reveal satisfaction with resources provided for instructional and faculty development.
- Staff receipt books, activity agreements, and fundraiser requests reflect priority attention to instructional needs.
- Teachers can describe the process for accessing and spending money in support of instructional priorities.
- Teachers can provide examples of resource problems being taken on by school leadership as a priority issue to be resolved.
  - Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| [] Highly Effective  | [] Effective | [] Needs Improvement | [] Unsatisfactory |

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

#### Reflection Questions for Indicator 8.2

| Highly Effective  | Effective   | Needs   | Unsatisfactory   |
|---|---|---|--|
|   |   | Improvement   | _  |
| How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases to student achievement? | To what extent are faculty and staff aware of your budgeting expectations? How are your budgeting expectations delineated, published, and communicated? | Have there been instances in which you failed to meet deadlines or where expenditures resulted in budget overruns? What did you learn from that experience and how did you apply lessons from it? | When resources are limited, what actions do you take as the school leader to allocate them most efficiently? |

Narrative: Team learning is an essential element in a learning organization. Does the leader provide needed supports to collegial learning? Are barriers to success removed? Everyone working in isolation reduces the probability of improvements. Collegial processes need resource support. This indicator assesses the leader's proficiency at providing that support.

| <u> </u>  |  |   |  |
|---|--|---|--|
| Highly Effective: Leader's  | Effective: Leader's actions or   | Needs Improvement:  | Unsatisfactory: Leader's   |

The leader leverages knowledge of the budgeting process, categories, and funding sources to maximize the impact of available dollars on collegial processes and faculty development.

Results indicate the positive impact of deployed resources in

Results indicate the positive impact of deployed resources in achieving a culture of deliberate practice focused on school improvement needs.

The leader has established processes to support collegial processes and faculty development through grants, business or higher education partnerships, and/or community resourcefulness.

The leader has established routines regarding allocation of time and facility resources that result in wide faculty participation in collegial processes and faculty development.

School fiscal resources are allocated to support collegial processes and faculty development.

Clear delegations of responsibility are evident that involve highly effective faculty in sustaining collegial processes and faculty development. The leader lacks proficiency in using budget, work schedules, and/ or delegation of involvement to focus time and resources on collegial processes and faculty development.

There is a lack of sustained and focused resource allocation on these issues.

The leader has little or no record of making plans or keeping commitments to provide resources or build schedules of events that support collegial processes and faculty development.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- School financial information identifies resources employed in support of collegial learning.
- Procedures for collegial groups to reserve rooms for meetings are provided to all faculty.
- Protocol for accessing school resources to support collegial learning needs.
- School Improvement Plan reflects role(s) of collegial learning teams.
- Leader's memorandums, e-mails, and other documents reflect support for team learning processes both on-campus and via digital participation on communities of practice.
- Master schedules are modified to promote collegial use through common planning times.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

- Teachers routinely recount examples of collegial work, team learning or problem solving focused on student achievement.
- Lesson study groups, PLC's, and other forms of collegial learning teams are operational.
- School-wide teacher questionnaire results reflect teacher participation in collegial learning groups.
- Teachers' professional learning plans incorporate participation in collegial learning.
- Department, team, or grade level meetings devote a majority of their time to collegial learning processes.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

[] Highly Effective [] Effective [] Needs Improvement [] Unsatisfactory

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

#### Reflection Questions for Indicator 8.3

| Highly Effective  | Effective  | Needs   | Unsatisfactory   |
|---|--|---|--|
|   |  | Improvement   |  |
| How would you describe the systematic method for pursuing grants, partnerships, and combining community resources | To what extent are faculty and staff aware of your focus on collegial processes? | Have there been instances in which you failed to act on opportunities to support collegial processes or faculty | When resources are limited, what actions do you take as the school leader to reallocate them to the high impact functions like |

Proficiency Area 9. <u>Communication</u>: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by:

- Practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community;
- Managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; and
- Recognizing individuals for good work; and maintaining high visibility at school and in the community.

|                                  |                                    |                              |                                 |

Narrative: The "voice of the school" represents a core set of communication processes that shape perceptions about the school – the leader's communications central among them. The leader must manage the "voice of the school" so clear, coherent and accurate information flows to faculty, students, and stakeholders. The perceptions of those involved in the success of the school need to be heard, acknowledged, and understood.

Indicator 9.1 – Constructive Conversations: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

Narrative: Skillful "speaking" is important. So is skillful listening. People can engage in conversation on many things, but some things are more important to school improvement than others. Making sure speaking and listening occurs on the important issues is a leader's task.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models   | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work   | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of   | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an   |

Indicator 9.2 – Clear Goals and Expectations: The leader communicates goals and expectations clearly and concisely using Florida's common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receives timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

Narrative: Proficiency in the competencies addressed in this indicator impacts success on many other indicators. The most successful school leaders are able to provide clear goals and expectations on every aspect of school operations and instructional leadership. You need to do the "school leader's two step." Having clear goals and expectations is step one, communicating them so others can act on them is step two.

## Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

Clear evidence communication

Clear evidence communication on goals and expectations is present, including open forums, focus groups, surveys, personal visits, and use of available technology.

Ensures that all community stakeholders and educators are aware of the school goals for instruction, student achievement, and strategies and progress toward meeting these goals.

The leader coaches others within the district to effectively employ the Florida common language of instruction in communicating school goals and expectations.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader conducts frequent interactions with students, faculty, and stakeholders to communicate and enforce clear expectations, structures, and fair rules and procedures.

Utilizes a system of open communication that provides for the timely, responsible sharing of information with the school community using a variety of formats in multiple ways through different media in order to ensure communication with all members of the school community.

Is proficient in use of the Florida common language of instruction to align school goals with district and state initiatives.

**Needs Improvement:** 

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Expectations and goals are provided and communicated in a timely, comprehensible and actionable form regarding some student and faculty performance issues.

Designs a system of open communication that provides for the timely, responsible sharing of information to, from, and with the school community on goals and expectations, but it is inconsistently implemented.

Has a limited capacity to employ Florida's common language of instruction in aligning school goals and expectations with district and state initiatives.

**Unsatisfactory:** Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

Expectations and goals regarding student and faculty performance are not provided or are not communicated in a timely, comprehensible and actionable form.

The leader's actions demonstrate a lack of understanding of the importance of establishing clear expectations, structures, rules, and procedures for students and staff.

Uses terms in the Florida common language of instruction incorrectly thus misguiding others.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Evidence of visibility and accessibility (e.g., agendas of meetings, newsletters, e-mail correspondence, appointment book, etc.) is provided.
- Evidence of formal and informal systems of communication that include a variety of formats (e.g., written, oral) in multiple ways through different media (e.g., newsletter, electronic) used to communicate goals and expectations for how to accomplish the goals.
- School safety and behavioral expectations are accessible to all.
- Dissemination of clear norms and ground rules for standardsbased instruction and Multi-tiered System of Supports (MTSS) is provided.
- School Improvement Plan is based on clear actionable goals.
- Leader is able to access Florida's common language of

behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

**Impact Evidence** of leadership proficiency may be seen in the

- Faculty routinely access <u>www.floriodastandards.org</u> to align course content with state standards.
- Staff survey results reflect awareness and understanding of priority goals and expectations.
- Parent survey results reflect understanding of the priority academic improvement goals of the school.
- Parents' communications to the school reflect understanding of the goals and expectations that apply to their children.
- PTSA/Booster club operations and participation addresses support for school academic goals.
- Student survey results reflect understanding of goals and expectations that apply to the students.
- Sub-ordinate leaders use Florida's common language of instruction.

Indicator 9.3 – Accessibility: Maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

instruction via online resources.

Other leadership evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

| work of the school?                                    |  | you employed or considered in                                    |                                  |
|  |  | which you—as the leader—   |                                  |
|  |  | would initiate communication on                                  |                                  |
|  |  | priority goals and expectations?                                 |                                  |

Narrative: Leaders need to be seen by those they are to lead...and those who are asked to engage in rigorous effort on the leader's goals need access to the leader. While leaders must manage their time, they must also make sure those who need access can get it in reasonable ways and timeframes. In a 21st century technological society use of social networking and other technologies to promote accessibility is a valuable leadership competency.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.             | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.                          |

# Indicator 9.4 – Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Narrative: Leading is about enabling others to succeed. Recognition of the successes and contributions of others is a key leadership function. Recognition from the leader is motivating and focusing. The recognition needed is more than "good job." It identifies what people did to generate the success being recognized. Recognizing the way in which people succeed encourages them to continue those practices and informs others "by what methods" they may do the same.

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.  In addition to meeting effective level criteria, the leader utilizes recognition reward, and advancement as a way to promote the accomplishments of the school. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.  The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) recognizes individuals for praise, and where appropriate | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.  The leader uses established criteria for performance as the primary basis for recognition, and reward, but is inconsistent or untimely in doing so, with some people deserving of recognition   | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. #### Domain 4 - Professional and Ethical Behavior

Narrative: This domain is focused on the professional integrity and dedication to excellence of the school leader. The indicators in this domain focus on behaviors essential to success as a school leader.

Narrative: There are two broad proficiency areas that are the focus of evaluation of behavior and ethics. One is approached as Proficiency Area 10 of the FSLA which is focused on Florida Principal Leadership Standard #10 (FPLS). The indicators in proficiency area 10 address resiliency, professional learning, commitment, and conduct. The other major professional behavior area, Deliberate Practice, is a separate metric, scored separately and, when combined with the overall FLSA score, generates the Leadership Practice Score.

# Indicator 10.1 – Resiliency: The leader demonstrates resiliency in pursuit of student learning and faculty development by:

- · staying focused on the school vision,
- reacting constructively to adversity and barriers to success.
- acknowledging and learning from errors,
- constructively managing disagreement and dissent with leadership,
- bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and
- productive attitudes in the face of adversity.

Narrative: The lead indicator in this FSLA domain is focused on resiliency. Leadership takes strength of character and a capacity to "weather the storm(s)" to get quality results. It includes learning from mistakes and sticking with it until you get it right.

| rtating rtabile  |  |   |  |
|--|--|---|--|
| Highly Effective: Leader's   | Effective: Leader's actions or   | Needs Improvement:  | Unsatisfactory: Leader's   |

mistakes" where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future.

The leader encourages constructive dissent in which multiple voices are encouraged and heard; the final decision is made better and more broadly supported as a result.

The leader is able to bounce back quickly from adversity while remaining focused on the vision of the organization.

The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.

The influence of previous evaluations has a positive impact not only on the leader, but on the entire organization.

learning.

The leader uses dissent to inform final decisions, improve the quality of decision-making, and broaden support for his or her final decision.

The leader admits failures quickly, honestly, and openly with direct supervisor and immediate colleagues.

Non-defensive attitude exists in accepting feedback and discussing errors and failures.

There is evidence of learning from past errors. Defined structures and processes are in place for eliciting input.

Improvement needs noted in the leader's previous evaluations are explicitly reflected in projects, tasks, and priorities.

but does not initiate or support the evidence gathering.

Some evidence of learning from mistakes is present.

The leader tolerates dissent, but there is very little of it in public.

The leader sometimes implements unpopular policies unenthusiastically or in a perfunctory manner.

The leader tolerates dissent, but there are minimal to no systemic processes to enable revision of levels of engagement, mental models, and/or misconceptions.

The leader is aware of improvement needs noted in previous evaluations, but has not translated them into an action plan.

defensive and resistant to learning from mistakes.

The leader ignores or subverts policy decisions or initiatives focused on student learning or faculty development that are unpopular or difficult.

Dissent or dialogue about the need for improvements is absent due to a climate of fear and intimidation and/or apathy.

No evidence or reference to previous leadership evaluations is present in the leader's choices of tasks and priorities.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.
- The leader builds resilience in colleagues and throughout the organization by habitually highlighting and praising "good mistakes" where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future.
- The leader demonstrates willingness to question district authority and policy leaders appropriately with evidence and constructive criticism, but once a district decision is made, fully supports, and professionally implements organizational policy and leadership decisions.
- The leader recognizes and rewards thoughtful dissent.
- The leader's previous evaluations are explicitly reflected in projects, tasks, and priorities.
- The leader offers evidence of learning from dissenting views
- Improvement plans reflect changes in leadership practices.
   (either from one year to the next or amending of current plans based on new insights).
- The leader accepts and implements leadership and policy with fidelity and district and state initiatives are represented by the leader in a thorough way citing the student data, research base, and performance goals relevant to these initiatives.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Faculty, staff, parents, and community members express
  perceptions that their concerns and dissent receive fair
  consideration and are welcome input from the leader even when
  they disagree with policies or practices being implemented.
- Faculty or students share anecdotes of practices/policies they
  previously challenged or resisted but, due to principal's
  resilience, they have changed ways of working without acting in
  dysfunctional or harmful ways to others within the organization.
- The principal's resilience in pursuit of school improvements has generated a school climate where faculty and staff feel comfortable voicing concerns and disagreements and perceive that their concerns are treated as a basis for deepening understanding.
- Previously resisted policies and practices are now perceived by faculty or students as appropriate and are being implemented with fidelity.
- Results of staff, student, or community questionnaire regarding the leader's vision and impact on school improvement efforts.
- Changes advocated by the leader and implemented despite resistance have had a positive impact on student growth.
- Faculty and staff describe the school leader as unwavering in commitment to raising student achievement.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this

## **Reflection Questions for Indicator 10.1**

| Reflection Questions   |  |   |   |  |
|--|--|---|---|--|
| Highly effective   | Effective  | Needs<br>Improvement  | Unsatisfactory  |  |
| What additional insights are you gaining about the challenges of reconciling points of view disagreements and fully supporting and executing organizational policy and leadership decisions?  What additional insights have you gained about the value of supporting processes that enable faculty to reflect on and modify their own mental models based on evidence rather than assumptions? | How might you reconcile your opinions with final decisions in supporting and implementing organizational policy and leadership decisions?  How can you help your staff grow to acknowledge and implement systems for gaining multiple perspectives in decision-making? | When or how is it appropriate to challenge policy and leadership decisions, if at all?  What leadership practices, structures, and processes could you put in place that would help staff know that dissent is welcomed as part of an informed decision-making process? | How do you deal with decisions with which you are uncomfortable? Do you think about the impact when unpopular or difficult policy decisions are undermined, ignored, or executed with public disagreement or lack of enthusiasm from yourself or you staff?  What needs to be done to establish enough trust that faculty and staff feel free to present opposing views with you in an open, sharing way? |  |

Indicator 10.2 – Professional Learning: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Narrative: Professional learning is addressed in several FSLA indicators, each from a different perspective. Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Indicator 4.4 focuses on professional learning needed to implement priority initiatives. Indicator 4.6 addresses alignment of faculty professional learning with improvement of instruction. The Deliberate Practice metric concentrates on a very few issues where the leader drives for deep learning and personal mastery of a few "thin slices." Indicator 10.2 is focused on the impact of the leader's professional learning – does the leader's learning result in improved performance?

| thus expanding impact.  | implemented.   | The leader actively participates  | The leader might introduce a   |

The leader approaches every professional learning opportunity with a view toward multidimensional impact.

Knowledge and skills are shared throughout the organization and with other departments, schools, and districts.

Rather than merely adopting the tools of external professional learning, this leader creates specific adaptations so that learning tools become part of the culture of the organization and are "home-grown" rather than externally generated.

The leader provides evidence of leverage, applying each learning opportunity throughout the organization. This leader creates forms, checklists, self-assessments, and other tools so that concepts learned in professional development are applied in the daily lives of teachers and leaders throughout the organization.

The leader engages in professional learning that is directly linked to organizational needs.

The priority is given to building on personal leadership strengths.

The leader personally attends and actively participates in the professional learning that is required of other leaders in the organization.

The leader personally attends and actively participates in the professional learning required of teachers.

There is clear evidence of the actual application of personal learning in the organization. Where learning has not been applied within the organization, this leader rigorously analyzes the cause for this and does not continue investing time and money in professional learning programs that lack clear evidence of success when applied in the organization.

in professional learning, but it is reflective of a personal agenda rather than addressing the strategic needs of the organization.

The leader attends professional learning for colleagues, but does not fully engage in it and set an example of active participation.

The leader has given intellectual assent to some important learning experiences, but can give only a few specific examples of application to the organization.

professional learning program, but does not participate in the learning activities along with the staff.

The leader is not strategic in planning a personal professional learning focus aligned with the school or district goals.

Even on those rare occasions when the leader engages in professional learning, the purpose appears to be merely collecting information rather than reflecting on it and applying it to the organization. Professional learning is an expense, not an investment in constructive improvements.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader is an active participant in professional learning provided for faculty.
- The leader's professional growth plan includes professional learning topics that are directly linked to the needs of the school or district.
- Evidence the leader has applied lessons learned from the research to enhance personal leadership practices.
- Case studies of action research shared with subordinates and/or colleagues.
- Forms, checklists, self-assessments, and other learning tools the leader has created that help the leader apply concepts learned in professional development.
- Membership and participation in professional learning provided by professional organizations.
- The leader shares professional learning with other school leaders.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers' anecdotal evidence of the leader's support for and participation in professional learning.
- The frequency with which faculty members are engaged in professional learning with the school leader.
- Changes in student growth data, discipline data, etc., after the leader's professional development.
- Teachers can articulate professional learning shared by the leader after the leader's professional learning was implemented.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

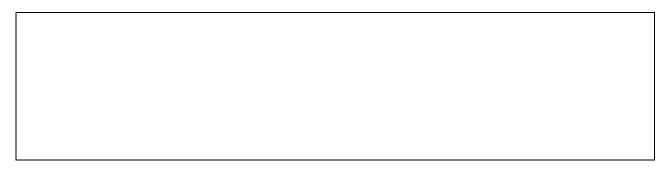

[] Highly Effective

[] Effective

[] Needs Improvement

[] Unsatisfactory

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

## **Reflection Questions for Indicator 10.2**

| Highly Effective   | Effective   | Needs Improvement   | Unsatisfactory   |
|--|---|---|--|
| What has been most effective in creating a focus on professional learning? How might you lead this effort across the district?  How have you synthesized new professional learning into existing learning for more sophisticated application? How have you applied this learning to support and encourage the growth of other leaders? How will you leverage your professional learning throughout the school, district, and beyond? | To what degree do you explicitly identify the focus areas for professional development in faculty and grade level/department meetings?  How will you determine whether application of your own professional learning is impacting student achievement and the school as a whole?  How are you adjusting application when clear evidence of success is not apparent? | How are you investing your professional learning and applying it to your school on daily basis? How do you apply this learning in multiple leadership venues? | What steps can you take to participate in professional learning focused on school and district goals with your staff?  What steps can you take to begin to apply professional learning to your daily work? |

Indicator 10.3 – Commitment: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community.

Narrative: Leaders are committed to carrying out the role of school leader in ways that benefit others: Students – faculty – community. Barriers to having that impact are not seen as reasons to give up but as problems to be solved.

| Ivatilia ivabile   |   |   |  |

| There is clear, convincing, and        | There is clear evidence that the        | The leader's behaviors enable          | The leader's patterns of behavior      |

consistent evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida, and inspires others within the organization to abide by that same behavior.

The leader clearly demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community, as a result the leader achieves and sustains the highest degree of ethical conduct and serves as a model for others within the district.

leader values the worth and dignity of all people, the pursuit of truth, devotion to excellence (i.e., sets high expectations and goals for all learners, then tries in every way possible to help students reach them) acquisition of knowledge, and the nurture of democratic citizenship.

The leader's primary professional concern is for the student and for the development of the student's potential. Therefore, the leader acquires the knowledge and skills to exercise the best professional judgment and integrity.

The leader demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community. As a result the leader adheres to the prescribed ethical conduct.

recurring misunderstanding and misperceptions about the leader's conduct and ethics as expressed in the Code and Principles.

There are segments of the school community whose developmental needs are not addressed and leadership efforts to understand and address those needs is not evident.

The leader has only a general recollection of issues addressed in the Code and Principles and there is limited evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida.

are inconsistent with the Code of Ethics, Rule 6B-1.001, or disciplinary action has been initiated based on violation of the Principles of Professional Conduct, Rule 6B-1.006.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Samples of written feedback from teachers regarding the leader's judgment and/or integrity on issues related to the learning environment, instructional improvement or school organization
- Samples of written feedback provided by parents regarding the leader's judgment and/or integrity on issues related to the learning environment, instructional improvement or school organization.
- School improvement plan's focus on student success and evidence of actions taken to accomplish such plans.
- School safety and behavioral expectations promoted by the leader for the benefit of students.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Teacher, student, parent anecdotal evidence reflecting respect for the principal's ethics and conduct.
- Recognition by community and parent organizations of the principal's impact as a role model for student and adults in the community.
- Parent or student questionnaire results.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

## **How to Score the FSLA**

## **About the FSLA Scoring Process**

The state scoring model has these features:

- The performance labels used in Section 1012.34, F.S. for summative performance levels are also used in the FSLA to summarize feedback on domains, proficiency areas, and indicators:
  - Highly Effective (HE)
  - o Effective (E)
  - Needs Improvement (NI)
  - Unsatisfactory (U)
- Direct Weighting: The FSLA score is based on ratings for each of four domains, but the system specifically gives added weight to Domain 2: Instructional Leadership: The weights are:
  - o Domain 1: Student Achievement: 20%
  - o Domain 2: Instructional Leadership: 40%
  - o Domain 3: Organizational Leadership: 20%
  - o Domain 4: Professional and Ethical Behavior: 20%
- Embedded Weighting: The use of Domain scores to generate an FSLA score results in embedded weighting as the Domains have different numbers of indicators. For example: Domain 1 has eight indicators, Domain 3 has 16 indicators and Domain 4 has four indicators. The result of this is:
  - Domain 2 indicators have the most impact on the FSLA results due to direct weighing.
     There are 17 indicators, but the Domain is weighted at 40%, thus magnifying the impact of that domain on the final rating.
  - o Domain 4 has the next highest level of impact due to embedded weighting. There are only four indicators in this Domain, but the Domain contributes 20% of the FSLA score.
  - O Domain 1 has more impact than Domain 3 since Domain 1 has eight indicators and Domain 3 has 16 indicators, but each Domain contributes 20% of the FSLA score.
- Proficiency on Indicators leads to an FSLA Score.
  - Ratings on indicators (using rubrics in the FSLA) are combined to generate a rating (HE,E, NI, or U) on each Proficiency Area.
  - O Ratings on Proficiency Areas are combined (using the tables in this scoring guide) to generate a Domain Rating.
  - Ratings on Domains are combined (using tables in this scoring guide) to generate a FLSA score.

#### **How to determine an FSLA Score**

Generating a score for the FSLA has four steps:

## **Step One: Rate each Indicator.**

Start with judgments on the indicators. Indicators in each Proficiency Area are rated as HE, E, NI, or U based on accumulated evidence.

- ➤ The FSLA supports this indicator proficiency rating process with <u>rubrics</u> for distinguishing between the levels (HE, E, NI, or U) that are specific to the indicator.
- ➤ To guide the rating decision, <u>illustrative examples</u> of leadership actions and illustrative

- examples of impacts of leadership actions are provided.
- ➤ The rubrics for indicators and the illustrative examples are found in the "long forms" the Data Collection and Feedback Protocols" posted on <a href="www.floridaschoolleaders.org">www.floridaschoolleaders.org</a> (in the Learning Library, Resources Menu: Evaluation Resources School Leaders).
- Ratings can be recorded on the long form or the short form (all FSLA forms and supporting resources are found on www.floridaschoolleaders.org).

## Rating Labels: What do they mean?

The principal should complete a self-assessment by scoring each of the indicators. The evaluator also will score each of the indicators. In an end-of the year conference, their respective ratings are shared and discussed. The evaluator then determines a final rating for each indicator and, using the procedures in this scoring guide, calculates an FSLA score.

#### **Indicator ratings:**

When assigning ratings to indicators in the FSLA, the evaluator should begin by reviewing the indicator rubrics. These are "word-picture" descriptions of leadership behaviors in each of the four levels of leadership behavior—"Highly Effective", "Effective", "Needs Improvement", and "Unsatisfactory." The evaluator finds the level that best describes performance related to the indicator.

The rating rubrics provide criteria that distinguish among the proficiency levels on the indicator. The illustrative examples of Leadership Evidence and Impact Evidence for each indicator provide direction on the range of evidence to consider. The rating for each indicator is the lowest rating for which the "word-picture" descriptors are appropriate and representative descriptions of what was observed about the leader's performance.

The ratings on the indicators aggregate to a rating on the Proficiency Areas based on tables in this guide. The ratings on the Proficiency Areas within a Domain aggregate to a domain rating, using tables and formulas in this scoring guide.

The FSLA rubrics are designed to give principals a formative as well as a summative assessment of where they stand in all leadership performance areas and detailed guidance on how to improve. While they are not checklists for school visits by the principal's supervisor, they do reflect the key behaviors about which supervisors and principals should be conversing frequently throughout the year. Moreover, these behavioral leadership descriptions will form the basis for principal and supervisor coaching and mentoring sessions.

## Distinguishing between proficiency ratings:

The "Effective" level describes leadership performance that has local impact (i.e., within the school) and meets organizational needs. It is adequate, necessary, and clearly makes a significant contribution to the school. The majority of the leadership workforce will be in the effective area once they have a clear understanding of what the FPLS require and have made the adjustments and growth necessary to upgrade performance. The previous rating system

of "satisfactory" and "unsatisfactory" does not provide any guidance as to where those who repeat past performance levels will fall in the shift to research and standards-based assessments. Both school leaders and evaluators should reflect on performance based on the new FPLS and the rubrics of the FSLA.

The "Highly Effective" level is reserved for truly outstanding leadership as described by very demanding criteria. Performance at this level is dramatically superior to "Effective" in its impact on students, staff members, parents, and the school district. Highly effective leadership results from recurring engagement with "deliberate practice." In brief, the "Highly Effective" leader helps every other element within the organization become as good as they are. In normal distributions, some leaders will be rated highly effective on some indicators, but very few leaders will be rated highly effective as a summative performance level.

The "Needs Improvement" level describes principals who understand what is required for success, are willing to work toward that goal, and, with coaching and support, can become proficient. Needs improvement rating will occur where expectations have been raised and standards made more focused and specific. Professional behavior and focused professional learning will guide school leaders toward increasingly effective performance.

Performance at the "Unsatisfactory" level describe leaders who do not understand what is required for proficiency or who have demonstrated through their actions and/or inactions that they choose not to become proficient on the strategies, knowledge bases, and skills sets needed for student learning to improve and faculties to develop.

## Step Two: Rate each Proficiency Area.

Ratings on the indicators in a Proficiency Area are combined to assign a proficiency level (HE, E, NI, or U) to a Proficiency Area: The distribution of indicator ratings within a Proficiency Area result in a Proficiency Area Rating. Since the number of indicators in a Proficiency Area varies, the following formulas are applied to assign Proficiency Area ratings. For each Proficiency Area, use the appropriate table.

#### Table 1

| For Proficienc   | y Areas 1,2,5,7,9 | and 10 with <b>fou</b> | r Indicators, each Proficiency Area is rated: |
|------------------|-------------------|------------------------|---|
| Highly Effect    | ive (HE) if: thr  | ee or more indic       | cators are HE and none are less than E.       |
| Examples:        | HE+HE+HE+HE=      | НЕ НЕ+НІ               | E+HE+E=HE                                     |
| Effective (E) if | at least three a  | re E or higher an      | d no more than one are NI. None are U.        |
| Examples:        | E+E+E+HE=E        | E+E+E+NI=E             | E+E+E+E=E                                     |
| Needs Impro      | vement (NI) if    | : Criteria for E n     | ot met and no more than one is U.             |
| Examples:        | E+E+NI+NI=NI      | HE+HE+NI+NI=NI         | HE+E+U+NI=NI                                  |
| Unsatisfactor    | ry (U) if: two o  | r more are U.          |   |
| Examples:        | HE+U+U+HE=U       | E+NI+U+U=U             | E+E+U+U=U                                     |

For the Proficiency Areas with fewer or more than four indicators, use the appropriate table below:

#### Table 2

| Table 2       |  |                                      |                       |                  |
|---------------|--|--------------------------------------|-----------------------|------------------|
| For proficie  | ncy Area 3 with <mark>six Indic</mark> | <mark>ators</mark> , each Proficienc | y Area is rated:      |                  |
| Highly Effe   | ective (HE) if: four or mo             | ore indicators are HI                | E and none are less t | han E.           |
| Examples:     | HE+HE+HE+HE+HE=H                       | E HE+H                               | IE+HE+HE+E+E=HE       |                  |
| Effective (E) | ) if: at least four are E or l         | nigher and no more th                | an two are NI. None a | re U.            |
| Examples:     | HE+HE+E+E+E+E=E                        | E+E+E+E+NI+NI=E                      |                       |                  |
| Needs Imp     | rovement (NI) if: Criter               | ia for E not met and                 | no more than two a    | re U.            |
| Examples:     | HE+HE+NI+NI+NI+NI=NI                   | NI+NI+NI+NI+U+U=NI                   | E+E+E+NI+NI+NI=NI     | HE+HE+E+E+E+U=NI |
| Unsatisfact   | tory (U) if: two or more               | are U.                               |                       |                  |
| Examples:     | HE+HE+HE+HE+U+U=U                      | NI+NI+NI+U+U=U                       |                       |                  |
| ·             |  | ·                                    | ·                     |                  |

## Table 3

| For Proficiency Area 4 with <b>seven Indicators</b> , each Proficiency Area is rated: Highly Effective (HE) if: five or more indicators are HE and none are less than E. |
|--|
|  |
|  |
| Examples: HE+HE+HE+HE+E+E=HE   |
| Effective (E) if: at least five are E or higher and no more than two are NI. None are U.   |
| Examples: HE+HE+E+E+NI+NI=E E+E+E+E+NI+NI=E  |
| Needs Improvement (NI) if: Criteria for E not met and no more than two are U.  |
| Examples: E+E+E+E+NI+NI+NI=NI HE+HE+E+E+U+U=NI HE+HE+HE+HE+HE+U=NI   |
| Unsatisfactory (U) if: two or more are U.  |
| Examples: HE+HE+HE+HE+U+U=U NI+NI+NI+NI+U+U=U  |

#### Table 4

## Table 5

| Tubic 5   |                                      |                                |                      |
|---|--------------------------------------|--------------------------------|----------------------|
| For Proficiency Area 8 with   | t <mark>hree Indicators</mark> , eac | <mark>h Proficiency Are</mark> | ea is rated:         |
| Highly Effective (HE) if: tw  | o or more indicator                  | s are HE and no                | one are less than E. |
| Examples: HE+HE+HE=HE   | HE+HE+E=HE                           | 2                              |                      |
| Effective (E) if: two or more are E or higher and no more than one is NI. None are U. |                                      |                                |                      |
| Examples: E+E+E=E E+  | -E+HE=E E+HE+NI=E                    | HE+HE+NI=E                     |                      |
| Needs Improvement (NI) if: Criteria for E not met and no more than one is U.          |                                      |                                |                      |
| Examples: NI+NI+NI=NI   | NI+NI+U=NI HE+                       | E+U=NI HE+N                    | NI+NI=NI             |
| Unsatisfactory (U) if: two  | or more are U.                       |                                |                      |
| Examples: HE+U+U=U  | NI+U+U=U                             |                                |                      |

When you have a rating (HE, E, NI, or U) for each Proficiency Area in a Domain, you then generate a Domain rating.

## **Step Three: Rate Each Domain.**

Domains are rated as HE, E, NI, or U based on the distribution of ratings on Proficiency Areas within the Domain. The tables below provide rating criteria for each FSLA Domain.

| 1 | `a | bl | le | 6 |
|---|----|----|----|---|
|---|----|----|----|---|

| Domain Rating         | Domain I: Student Achievement (Two Proficiency Areas)    |
|-----------------------|--|
| Highly Effective if:  | Both Proficiency Areas rated HE                          |
| Effective if:         | One Proficiency Area rated HE and one Effective, or      |
|                       | Both rated Effective                                     |
| Needs Improvement if: | One Proficiency Area rated HE or E and one rated NI or U |
|                       | Both Proficiency Areas rated NI                          |
| Unsatisfactory if:    | One Proficiency Area rated NI and the other is rated U   |
|                       | Both are rated U   |

## Table 7

| Domain Rating         | <b>Domain 2: Instructional Leadership</b> (Three Proficiency Areas) |
|-----------------------|---|
| Highly Effective if:  | All three Proficiency Areas are HE                                  |
|                       | Two Proficiency Areas rated HE and one E                            |
| Effective if:         | Two Proficiency Area rated E and one Effective or NI                |
|                       | All three Proficiency Areas rated E                                 |
| Needs Improvement if: | Any two Proficiency Areas rated NI                                  |
|                       | One Proficiency Area rated NI, one Proficiency Area rated U and     |
|                       | one Proficiency Area rated E or HE                                  |
| Unsatisfactory if:    | Two or more Proficiency Areas rated U                               |

## Table 8

| Domain Rating         | Domain 3: Organizational Leadership (Four Proficiency Areas)    |
|-----------------------|---|
| Highly Effective if:  | All four Proficiency Areas are HE                               |
|                       | Three Proficiency Areas rated HE and one E                      |
| Effective if:         | Two Proficiency Areas rated E and two rated HE                  |
|                       | All four Proficiency Areas rated E                              |
|                       | Three Proficiency Areas rated E and one rated either NI or HE   |
| Needs Improvement if: | Two Proficiency Areas rated E and two rated NI                  |
|                       | Any three Proficiency Areas rated NI                            |
|                       | One Proficiency Area rated NI, one Proficiency Area rated U and |
|                       | two Proficiency Area rated E or HE                              |
| Unsatisfactory if:    | Two or more Proficiency Areas rated U                           |

## Table 9

| Domain Rating         | <b>Domain 4: Professional Behaviors</b> (One Proficiency Area) |
|-----------------------|--|
| Highly Effective if:  | If Proficiency Area 10 rated HE                                |
| Effective if:         | If Proficiency Area 10 rated E                                 |
| Needs Improvement if: | If Proficiency Area 10 rated NI                                |
| Unsatisfactory if:    | If Proficiency Area 10 rated U                                 |

When you have determined Domain ratings, you then combine those ratings to generate an FSLA score.

## Step 4: Calculate the FSLA Score.

- In Step One, proficiency ratings for indicators were made based on an assessment of available evidence and the rating rubrics.
- In Step Two, the apportionment of Indicators ratings, using the tables provided, generated a rating for each Proficiency Area within a Domain.
- In Step Three, Domain ratings were generated. All of these steps were based on evidence on the indicators and scoring tables.

## At the FSLA scoring stage the model shifts to a weighted point system.

Points are assigned to Domain ratings, direct weights are employed, and scores are converted to a numerical scale. The following point model is used:

Table 10

| DOMAIN RATING                        | POINTS ASSIGNED |
|--------------------------------------|-----------------|
| A Domain rating of Highly Effective  | 3 points        |
| A Domain rating of Effective         | 2 points        |
| A Domain rating of Needs Improvement | 1 point         |
| A Domain rating of Unsatisfactory    | 0 points        |

The Domain points are multiplied by the Domain's direct weight: The rating is entered in column 2 ("Rating"), the points in column 3 ("Points"), and a weighted score calculated in column 5.

Table 11

| Domain                                      | Rating | Points | Weight | Domain<br>Weighted Score |
|---|--------|--------|--------|--------------------------|
| Domain I: Student Achievement               |        |        | .20    |                          |
| Domain 2: Instructional Leadership          |        |        | .40    |                          |
| Domain 3: Organizational Leadership         |        |        | .20    |                          |
| Domain 4: Professional and Ethical Behavior |        |        | .20    |                          |

## **Example**

Table 12

| Domain                                    | Rating | Points | Weight | Domain<br>Weighed Score |
|---|--------|--------|--------|-------------------------|
| Domain I: Student Achievement             | HE     | 3      | .20    | .6                      |
| Domain 2:Instructional Leadership         | Е      | 2      | .40    | .8                      |
| Domain 3:Organizational Leadership        | HE     | 3      | .20    | .6                      |
| Domain 4: Professional & Ethical Behavior | NI     | 1      | .20    | .2                      |

After a Domain Weighted Score is calculated, the scores are converted to a 100 point scale. This process results in a FSLA Score range of 0 to 300 Points.

This table illustrates the conversion of a Domain Weighted value to a 100 point scale.

#### **Example**

Table 13

| Domain                   | Rating | Points | Weight | Weighed | Convert to 100 | Domain |
|--------------------------|--------|--------|--------|---------|----------------|--------|
|                          |        |        |        | value   | point scale    | Score  |
| Domain I                 | HE     | 3      | .20    | .6      | x 100          | 60     |
| Student Achievement      |        |        |        |         |                |        |
| Domain 2                 | Е      | 2      | .40    | .8      | x 100          | 80     |
| Instructional Leadership |        |        |        |         |                |        |
| Domain 3                 | HE     | 3      | .20    | .6      | x 100          | 60     |
| Organizational           |        |        |        |         |                |        |
| Leadership               |        |        |        |         |                |        |
| Domain 4                 | NI     | 1      | 20     | .2      | x 100          | 20     |
| Professional and Ethical |        |        |        |         |                |        |
| Behavior                 |        |        |        |         |                |        |
| FSLA Score               |        |        |        |         |                | 220    |

The Domain scores are added up and an FSLA score determined. The FSLA Score is converted to an FSLA rating of HE, E, NI, or U based on this scale:

Table 14

| FSLA SCORE | FSLA Proficiency Rating |
|------------|-------------------------|
| 240 to 300 | Highly Effective        |
| 151 to 239 | Effective               |
| 75 to 150  | Needs Improvement       |
| 0 to 74    | Unsatisfactory          |

The FSLA score is combined with a Deliberate Practice Score, if used, to generate a Leadership Practice Score. Section Three provides scoring processes for Deliberate Practice. The FSLA score will be 80% of the Leadership Score, if a Deliberate Practice is used. The Deliberate Practice Score will be 20% of the Leadership Practice, if used. The FSLA will be 100% of the Leadership Score if a Deliberate Practice is not used.

**Monitoring, Data Collection, and Application to Practice:** Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator and/or designee accumulate data and evidence on leader's actions or impact of leader's actions during the routine conduct of work. Such data and evidence may come from site visits, be provided by the leader, from formal or informal observations, or from evidence, Principal Data Chat forms, artifacts or input provided by others. The accumulated information is analyzed in the context of the evaluation system indicators.
- As evidence and observations are obtained that generate <u>specific and actionable</u> <u>feedback</u>, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and/or lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.

These monitoring actions occur before and continue after the mid-year evaluation and Principal Data Chat. The Data Chat form is included below:

| Principal:  |
|---|
| District Administrator:   |
| Date:   |
| <ol> <li>Discuss your most recent round of progress monitoring data. Specifically,</li> <li>What skills did students do well on?</li> </ol> |
| b. What skills did students underperform on?  |
| c. How did your lowest quartile students do? Are they in need of additional support? If so, what kind?                                      |
| 2. Based on your progress monitoring data, what is the gap analysis between your interim data and your proficiency targets?                 |
| 3. What is your plan to close these gaps?   |
| 4. How are you ensuring that all standards will be taught by the testing window?  |
| 5. In general, what progress have you made on your school SIP goals?  |
| 6. Do you have any instructional staff that you have concerns about?  |
| 7. Is there anything that district administration can do to help you?   |
|   |

# Section Three How to Calculate a Leadership Practice Score

| Δ  | FΙ | $\Delta$ | SC | $\bigcap$ F  | ŞF٠ |
|----|----|----------|----|--------------|-----|
| л. |    |          | J  | $\mathbf{v}$ | ١L. |

## B. Deliberate Practice Score:

# C. Add scores from calculations A and B above to obtain Leadership Practice Score (66% of final evaluation score)

# Example:

FLSA score of 220 x. 80 = 176 DP score of 230 x .20 = 46 Leadership Practice Score is 222

| Leadership Score Range | Leadership Practice Rating |
|------------------------|----------------------------|
| 240 to 300             | Highly Effective           |
| 151 to 239             | Effective                  |
| 75 to 150              | Needs Improvement          |
| 0 to 74                | Unsatisfactory             |

# 3. Other Indicators of Performance

#### Additional Metric: Deliberate Practice Guidelines

Deliberate Practice (if applicable): The leaders' work on specific improvements in mastery of educational leadership is a separate metric and is combined with the FSLA Domain Scores to determine a summative leadership score. This is optional, and up to the administrator whether or not they want to use this measurement component. If they do choose to use it, it will count 20% of their Leadership Practice Score, which is 66% of their final evaluation score, or 13% of the final evaluation score if used.

## **Deliberate Practice (DP)**

## Proficiency Area(s) and Target(s) for School Leader Growth

<u>Deliberate Practice Priorities</u>: The leader and the evaluator identify 1 to 4 specific and measurable priority learning goals related to teaching, learning, or school leadership practices that impact student learning growth. One or two targets are recommended.

- The target of a deliberate practice process describe an intended result and will include "scales" or progress points that guide the leader toward highly effective levels of personal mastery;
- The leader takes actions to make discernible progress on those priority goals; monitors progress toward them, uses the monitoring data to make adjustments to practice, and provides measurable evidence of growth in personal mastery of the targeted priorities.
- The evaluator monitors progress and provides feedback.
- <u>The targets are "thin slices" of specific gains sought</u> not broad overviews or long term goals taking years to accomplish.
- Deliberate practices ratings are based on comparison of proficiency at a "start point" and proficiency at a designated "evaluation point". The start point data can be based on a preceding year FSLA evaluation data on a specific indicator or proficiency area, or determined by school leader and evaluator either at the end of the preceding work year or at the start of the new work year in which the DP targets will be used for evaluation.

Relationship to other measures of professional learning: Whereas FSLA indicator 4.5 addresses the leader's involvement—with professional learning focused on faculty needs and indicator 10.2 addresses the leader's pursuant of learning aligned—with a range of school needs, the Deliberate Practice targets are more specific and deeper learning related to teaching, learning, or school leadership practices that impact student learning. The DP learning processes establish career-long—patterns of continuous improvement and lead to high quality instructional leadership.

<u>Selecting A Growth Target</u>: Growth target: An issue that addresses a school improvement need related to student learning and either selected by the district or approved by leader's supervisor. The focus should be on complex issues that take some time to master such as providing observation and feedback of high-effect size instructional practices. Or select an issue related to a knowledge base or skill set relevant to instructional leadership selected by leader.

## Rating Scheme

- Unsatisfactory = no significant effort to work on the targets
- Needs Improvement = evidence some of the progress points were accomplished but not all
  of the targets
- Effective = target accomplished
- Highly effective = exceeded the targets and able to share what was learned with others

# How to Score Deliberate Practice (if used, optional)

## **Deliberate Practice Score**

- The DP score is 20% of the Leadership Practice Score.
- The DP metric will have 1 to 4 specific growth targets.
- Each target will have progress points (much like a learning goal for students).
- The targets will have equal weight and the leader's growth on each will be assessed as HE, E, NI, or U.

| Scoring a DP Growth<br>Target | Rating Rubrics   |
|-------------------------------|--|
|                               | m + + 11   |
| Highly Effective              | Target met, all progress points achieved, and verifiable   |
|                               | improvement in leaders performance                         |
| Effective                     | Target met, progress points achievesimpact not yet evident |
| Needs Improvement             | Target not met, but some progress points met               |
| Unsatisfactory                | Target not met, nothing beyond 1 progress point            |

A DP Score has an upper limit of 300 points. Each target is assigned an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

| Number of growth targets | Maximum points per target | Maximum Point Range |
|--------------------------|---------------------------|---------------------|
| One Target               | 300                       | 300                 |
| Two Targets              | 150 (300/2)               | 300 (150 x 2)       |
| Three Targets            | 100 (300/3)               | 300 (100 x 3)       |
| Four Targets             | 75 (300/4)                | 300 (75 x 4)        |

Target values based on Rating (HE, E, NI, or U) and Number of Targets.

This chart below shows the points earned by a growth target based on a rating Level (HE, E, NI, or U) **and** the total number of targets in the DP plan.

| Rating | Point values           | If 1 target | If 2 targets | If 3 targets | If 4 targets |
|--------|------------------------|-------------|--------------|--------------|--------------|
| HE     | max points             | 300         | 150          | 100          | 75           |
| E      | .80 of max             | 240         | 120          | 80           | 60           |
| NI     | .5 of max              | 150         | 75           | 50           | 37.5         |
| U      | .25 if some progress   | 75          | 37.5         | 25           | 18.75        |
| U      | .0 if 1 progress stage | 0           | 0            | 0            | 0            |

A DP score is based on ratings of the targets and the points earned for each rating.

## **Examples**

If Three Growth Targets:

| DP Target                              | Rating | Points |
|--|--------|--------|
| DP TARGET 1                            | HE     | 100    |
| DP TARGET 2                            | E      | 80     |
| DP TARGET 3                            | NI     | 50     |
| DP Score (target score added together) |        | 230    |

| DP Score Range | DP Rating         |
|----------------|-------------------|
| 241 to 300     | Highly Effective  |
| 151 to 240     | Effective         |
| 75 to 150      | Needs Improvement |
| 0 to 74        | Unsatisfactory    |

# 5. Additional Requirements

Assistant Superintendents will evaluate Principals. Principals will evaluate Assistant Principals. All school administrators must be evaluated at least once a year.

### The seven steps of the FSLA are described below:

**Step 1: Orientation**: The orientation step can occur at the start of a new work year, at the start of a new school year, or at the start of assignment (or new assignment) as a principal. The depth and detail of orientation may vary based on prior training and whether changes in evaluation model have occurred, but an annual orientation or re-fresher orientation should occur. The orientation step should include:

- District provided orientation and training on the Florida Principal Leadership Standards (FPLS), Student Success Act, applicable State Board of Education rules, and district specific expectations that are subject to the evaluation system.
- All leaders and evaluators should have access to the content and processes that are subject to
  the evaluation system. All leaders and evaluators should have access to the same information
  and expectations. This may be provided by the leader's review of district evaluation
  documents, online modules, mentor sessions, or face-to-face training where awareness of
  district processes and expectations are identified.
- At the orientation step, each school leader is expected to engage in personal reflection on the connection between his/her practice and the FPLS and the indicators in the district evaluation system. This is a "what do I know and what do I need to know" self-check aligned with the FPLS and the district evaluation system indicators.

**Step 2: Pre-evaluation Planning**: After orientation processes, the leader and evaluator prepare for a formal conference to address evaluation processes and expectations. Two things occur:

- Leader's self-assessment from the orientation step moves to more specific identification of improvement priorities. These may be student achievement priorities or leadership practice priorities. The leader gathers any data or evidence that supports an issue as an improvement priority. This may include School Improvement Plan (SIP), student achievement data, prior faculty evaluations, and evidence of systemic processes that need work.
- The evaluator reviews self-assessment and data to determine strengths and growth needs for the leader and for student achievement issues at the school.

**Step 3: Initial Meeting between school administrator and evaluator**: A meeting on "expectations" held between leader and supervisor to address the following:

- Evaluation processes are reviewed and questions answered.
- Perceptions (of both) from Pre-evaluation Planning are shared.
- Domain, Proficiency Areas, Indicators from evaluation system that will be focus issues are identified and discussed.
- Student growth measures that are of concern are discussed.
- Relationship of evaluation indicators to the SIP and district-supported initiatives are discussed.
- Such a meeting is typically face-to-face but may also be via teleconference or phone. (Meeting issues can be clarified via texts and emails as appropriate.)

- Proposed targets for <u>Deliberate Practice</u> (additional metric) are discussed and determined, or a timeframe for selection of Deliberate Practice targets are set. While a separate meeting or exchange of information may be implemented to complete the Deliberate Practice targets; they should be discussed at the Step 3 Conference given their importance to the leader's growth and the summative evaluation.
- **Step 4: Monitoring, Data Collection, and Application to Practice:** Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.
  - The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
  - The evaluator and/or designee accumulate data and evidence on leader's actions or impact of leader's actions during the routine conduct of work. Such data and evidence may come from site visits, be provided by the leader, from formal or informal observations, or from evidence, artifacts or input provided by others. The accumulated information is analyzed in the context of the evaluation system indicators.
  - As evidence and observations are obtained that generate <u>specific and actionable</u> feedback, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
  - Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and/or lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.
  - These monitoring actions occur before and continue after the mid-year Progress Check (step 5).
- **Step 5: Mid-year Progress Review between school administrator and evaluator:** At a mid-year point, a progress review is conducted.
  - Actions and impacts of actions taken on priorities identified in Step 3 Initial Meeting are reviewed.
  - Any indicators which the evaluator has identified for a specific status update are reviewed. (The
    leader is given notice of these indicators prior to the Progress Check, as the feedback expected
    is more specific than that for the general indicator overview.)
  - The leader is prepared to provide a general overview of actions/processes that apply to all
    of the domains and proficiency areas and may include any of the indicators in the district
    system. Any indicator that the evaluator or the leader wishes to address should be
    included.
  - Strengths and progress are recognized.
  - Priority growth needs are reviewed.
  - Where there is no evidence related to an indicator and no interim judgment of proficiency can be provided, a plan of action must be made:
    - If the evaluator decides that the absence of evidence indicates unsatisfactory
      proficiency because actions or impacts of action should be evident if leader was
      proficient, the leader is provided notice that the indicator(s) will be addressed in a
      follow-up meeting.
    - The absence of evidence is explained by lack of opportunity for the evaluator to note anything relevant, and leader is asked to provide follow-up data on the indicator prior to the year-end conference.
    - The lack of evidence on one indicator is balanced by substantial evidence on other indicators in the same proficiency area. No follow-up is required until evidence supporting a Needs Improvement (NI) or Unsatisfactory (U) rating emerges.

- Any actions or inactions which might result in an unsatisfactory rating on a domain or proficiency area if not improved are communicated.
- Any indicators for which there is insufficient evidence to rate proficiency at this stage, but which will be a priority for feedback in remainder of the year, are noted.
- The Levy *Principal Mid-Year Evaluation Form* is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Notes or memorandums may be attached to the form as appropriate to reflect what is communicated in the Progress Check. This form is provided below:

## **Mid-year Evaluation**

| District Ac | dministrator Signatu                              | re:            |   | Date:                   |

**Step 6: Prepare a consolidated performance assessment:** The summative evaluation form is prepared by the evaluator and a performance rating assigned.

- Consider including relevant and appropriate evidence by any party entitled to provide input into the leader's evaluation.
- Review evidence on leader's proficiency on indicators.
- Use accumulated evidence and rating on indicators to rate each proficiency area.
- Consolidate the ratings on proficiency areas into domain ratings.
- Consolidate Domain ratings, using FSLA weights, to calculate a FSLA score.

**Step 7: Year-end Meeting between school administrator and evaluator:** The year-end meeting addresses the FSLA score, the Deliberate Practice Score and Student Growth Measures.

- The FSLA score is explained.
- The leader's growth on the Deliberate Practice targets is reviewed and a Deliberate Practice Score assigned.
- The FSLA Score and Deliberate Practice Score are combined (as per weighting formula) to generate a Leadership Practice Score.
- If the Student Growth Measurement (SGM) score is known, inform the leader how the Leadership Practice Score and SGM Score combine to a summative performance level of Highly Effective, Effective, Needs Improvement, or Unsatisfactory.
- If SGM score is not known, inform leader of possible performance levels based on known Leadership Practice Score and various SGM outcomes.
- If recognitions or employment consequences are possible based on performance level, inform leader of district process moving forward.
- Review priority growth issues that should be considered at next year's step 2 and step 3 processes.

For administrators, a mechanism that provides an opportunity for parents to provide input into an administrator's performance evaluation:

Levy County uses an anonymous Parent Title I Survey to gather information regarding each school their child/children attends. That survey specifically covers topics related to both the Principal and Assistant Principal at each school. There is also a place for parents to write comments. These results are used informally to help determine FSLA scores. An example question is:

How well does the school encourage you to play a role in the school improvement planning process?

For administrators, where included by a district, description of the opportunity for instructional personnel to provide input into the administrator's evaluation.

Levy County uses an anonymous School Climate Survey using SurveyMonkey to collect data on each school. The instructional and non-instructional employees are given an electronic survey to fill out and the data is used to provide input towards the administrative evaluation.

These results are used informally to help determine FSLA scores. An example question is:

The Principal routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for courses.

Levy County does not use a peer process to gather input for the evaluation. There is peer assistance available during regularly scheduled administrator meetings where information and best practices

are shared in a collaborative environment.

Additional professional development will be <u>required</u> for individuals who have evaluations less than effective. This training will be differentiated depending on the needs of the individual.

School administrator evaluation data will be used to determine district support and future professional development for school administrators. This data will inform the district on the effectiveness of current professional development initiatives, such as Cambridge training for school administrators and Inter-rater Reliability training. For example, if needed we can purchase additional days of one-on-one Cambridge training for those administrators who need more support in developing a clear understanding of the Danielson rubric and FEAPS, and how it applies to improving instruction. Additionally, this data can influence the District Support System we currently have in place, where each school is designated on a tiered support system, and assigned a member of the District Instructional Team as their front-line support. The level of District support varies depending on the Tier designation of the school, and the needs of the school administration.

# 6. <u>District Evaluation Procedures</u>

The evaluator shall submit the written report to the employee no later than 10 days after the evaluation takes place [Rule 6A-5.030(2)(g)2., F.A.C.]. The evaluator will discuss the written evaluation report with the employee [Rule 6A-5.030(2)(g)3.,F.A.C.].

The year-end meeting between school administrator and evaluator addresses the FSLA score, the Deliberate Practice Score and Student Growth Measures:

- The FSLA score is explained to the school administrator
- The leader's growth on the Deliberate Practice targets is reviewed and a Deliberate Practice Score assigned.
- The FSLA Score and Deliberate Practice Score are combined (as per weighting formula) to generate a Leadership Practice Score.
- If the Student Growth Measurement (SGM) score is known, inform the leader how the Leadership Practice Score and SGM Score combine to a summative performance level of Highly Effective, Effective, Needs Improvement, or Unsatisfactory.
- If SGM score is not known, inform leader of possible performance levels based on known Leadership Practice Score and various SGM outcomes.
- If recognitions or employment consequences are possible based on performance level, inform leader of district process moving forward.
- Review priority growth issues that should be considered at next year's step 2 and step 3 processes.

The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file [Rule 6A-5.030(2)(g)4., F.A.C.]

The Summative Evaluation form above shall be submitted to the Superintendent for the purpose of reviewing the employee's contract, at least once each year. The Superintendent shall notify the Department of Education annually with the names of school administrators who receive two consecutive unsatisfactory evaluations and school administrators who are given notice by the district to terminate or non-renew their employment [F.S. 1012.34(5), F.S. 6A-5.030(2)(i), F.A.C.]

# 7. <u>District Self-Monitoring</u>

## **Training and Reflection**

The content of the district evaluation system informs those evaluated and those doing evaluations of the issues to address and the processes to use.

- Those being evaluated use these documents to guide self-reflection on practices that improve their work.
- Evaluators provide both recurring feedback to guide growth in proficiency in district priorities and provide summative performance ratings.
- Those who are both evaluated by this system and evaluate others with it will do both.
- Principals and assistant principals will receive training on the indicators and the Florida's Common Language of Instruction as described in EQEVAL-2012-4. Additionally principals will receive training on how to evaluate assistant principals using the State rubric and use the evaluation data to promote continuous improvement.

This training will occur prior to the beginning of each school year, and will be conducted by the Assistant Superintendents to ensure that evaluators understand the proper use of the evaluation criteria and procedures. This will involve modeling and examples that will allow evaluators hands-on opportunities to become more familiar with this process. Additional professional development will be <u>required</u> for individuals who have evaluations less than effective. This training will be differentiated depending on the needs of the individual.

### Things to know:

- 1. The Research Framework(s) on which the evaluation system is based. Each research framework is associated with particular approaches to instruction or leadership. The research aligned with the district framework(s) is a useful source of deeper understanding of how to implement strategies correctly and in appropriate circumstances. Evaluators can provide better feedback to sub-ordinates when they understand the research framework
- 2. Inter-rater reliability: Evaluators in the district should be able to provide sub-ordinates similar feedback and rating so that there is consistent use of the evaluation system across the district. This is promoted by training on the following:
  - a. The "look fors" what knowledge, skills, and impacts are identified as system priorities by inclusion of indicators in the evaluation system.
  - b. The Rubrics to distinguish proficient levels and establish Common Language of Instruction.
  - c. Rater reliability checks- Processes for verifying raters meet district expectations in using the rubrics will be provided by our NEFEC partners in Inter-rater reliability trainings, and through trainings conducted by Cambridge using funds provided by the District Instructional Leadership and Faculty Development Grant.
- 3. Specific, Actionable, and Timely Feedback Processes: What evaluators observe does not promote improvement unless it is conveyed to employees as specific, actionable and timely manner. Training on how to do so is essential.
- 4. Conferences protocols and use of forms: Know what is required regarding meetings, conference procedures, use of forms, and records.
- 5. Processes and procedures for implementing the evaluation system
  - a. Evidence gathering: What sources are to be used?
  - b. Timeframes, record keeping
  - c. Scoring rules
- 6. Student Growth Measures: What are the districts requirements regarding use of student growth measures in the district's evaluation system?

- 7. Sources of information about the evaluation system: Where can evaluators and employees access manuals, forms, documents etc. regarding the evaluation process.
- 8. Additional metrics: Training on any additional metrics used to supplement the practice portion of evaluation.
- 9. Evaluators must follow district policies and procedures in the implementation of the evaluation system.

#### Process for Using Evaluation Data:

The evaluation tool will be reviewed each year and modified if necessary to meet state requirements. An annual review of the previous year's program operations shall be made and shall include a determination of the program's effectiveness in the educational setting as measured by changes to classroom or leadership practices and by changes in student outcomes.

School administrator evaluation data will be used to determine district support and future professional development for school administrators. This data will inform the district on the effectiveness of current professional development initiatives, such as Cambridge training for school administrators and Inter-rater Reliability training. For example, if needed based on evaluations, we can purchase additional days of one-on-one Cambridge training for those administrators who need more support in developing a clear understanding of the Danielson rubric and FEAPS, and how it applies to improving instruction. Additionally, this data can influence the District Support System we currently have in place, where each school is designated on a tiered support system, and assigned a member of the District Instructional Team as their front-line support. The level of District support varies depending on the Tier designation of the school, and the needs of the school administration.

#### **Additional Input Mechanisms**

A. Identification of supervisory personnel performing evaluations:

Robert O. Hastings, Superintendent

Jeffrey Edison, Assistant Superintendent

John Lott, Assistant Superintendent

B. Identification of any other persons with input toward evaluation:

Candy Dean, Director of Personnel

Bob Clemons, Director of Finance

C. For administrators, a mechanism that provides an opportunity for parents to provide input into an administrator's performance evaluation:

Levy County uses an anonymous Parent Title I Survey to gather information regarding each school their child/children attends. That survey specifically covers topics related to both the Principal and Assistant Principal at each school. There is also a place for parents to write comments. These results are used informally to help determine FSLA scores. An example question is:

How well does the school encourage you to play a role in the school improvement planning process?

D. For administrators, where included by a district, description of the opportunity for instructional personnel to provide input into the administrator's evaluation.
 Levy County uses an anonymous School Climate Survey using SurveyMonkey to collect data

on each school. The instructional and non-instructional employees are given an electronic survey to fill out and the data is used to provide input towards the administrative evaluation. An example question is:

The Principal routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for courses.

E. Description of use of a peer assistance process where the district uses one for evaluation input.

Levy County does not use a peer process to gather input for the evaluation. There is peer assistance available during regularly scheduled administrator meetings where information and best practices are shared in a collaborative environment.

## Appendix A - Checklist for Approval

## **Performance of Students**

The district has provided and meets the following criteria:

| For all school administrators:  |       |
|---|-------|
| ☐ The percentage of the evaluation that is based on the performance of stude  | ent's |
| criterion.  |       |
| ☐ An explanation of the scoring method, including how it is calculated and combined.  |       |
| $\Box$ At least one-third of the evaluation is based on performance of students.  |       |
| For all school administrators confirmed the inclusion of student performance:   |       |
| ☐ Data for at least three years, including the current year and the two years immediately preceding the current year, when available. |       |
| ☐ If less than the three most recent years of data are available, those years for which data are available must be used.              | or    |
| ☐ If more than three years of student performance data are used, specified to years that will be used.                                | he    |
| For all school administrators:  |       |
| ☐ The district-determined student performance measure(s) used for personne evaluations.   | el    |
| <u>Instructional Leadership</u>   |       |
| The district has provided and meets the following criteria:   |       |
| For all school administrators:  |       |
| ☐ The percentage of the evaluation system that is based on the instructional leadership criterion.                                    |       |
| $\square$ At least one-third of the evaluation is based on instructional leadership.  |       |
| ☐ An explanation of the scoring method, including how it is calculated and combined.  |       |
| ☐ The district evaluation framework for school administrators is based on   |       |

|                    | contemporary research in effective educational practices.   |
|--------------------|---|
|                    | administrators: A crosswalk from the district's evaluation framework to the Principal Leadership Standards demonstrating that the district's evaluation contains indicators based upon each of the Principal Leadership Standards.  |
| For all school     | administrators:  Procedures for conducting observations and collecting data and other evidence of instructional leadership.   |
| Other Indica       | tors of Performance   |
| The district ha    | as provided and meets the following criteria:   |
|                    | Described the additional performance indicators, if any.  The percentage of the final evaluation that is based upon the additional indicators. The scoring method, including how it is calculated and combined.   |
| <b>Summative E</b> | valuation Score   |
| The district ha    | as provided and meets the following criteria:   |
|                    | Summative evaluation form(s). Scoring method, including how it is calculated and combined. The performance standards used to determine the summative evaluation rating (the four performance levels: highly effective, effective, needs improvement/developing, unsatisfactory).  |
| Additional R       | <u>equirements</u>  |
| The district ha    | as provided and meets the following criteria:   |
|                    | Documented that the evaluator is the individual who is responsible for supervising the employee.  Identified additional positions or persons who provide input toward the evaluation, if any.   |
| Description of     | Training programs:  Processes to ensure that all employees subject to an evaluation system are informed on evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place.  Processes to ensure that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures. |
| Documented:        | Processes for providing timely feedback to the individual being evaluated.  |

| For school adı  | Description of how results from the evaluation system will be used for professional development.  Requirement for participation in specific professional development programs by those who have been evaluated as less than effective.  All school administrators must be evaluated at least once a year.  ministrators:  Inclusion of opportunities for parents to provide input into performance evaluations when the district determines such input is appropriate.  Description of the district's criteria for inclusion of parental input.  Description of manner of inclusion of parental input.  Description of the district's peer assistance process, if any.  Description of an opportunity for instructional personnel to provide input into  |
|-----------------|--|
|                 | a school administrator's evaluation, if any.   |
| District Evalu  | uation Procedures  |
| The district ha | as provided and meets the following criteria:  |
|                 | <ul> <li>That its evaluation procedures comply with s. 1012.34(3)(c), F.S., including:</li> <li>That the evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.</li> <li>That the evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place.</li> <li>That the evaluator must discuss the written evaluation report with the employee.</li> <li>That the employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.</li> <li>That district evaluation procedures require the district school superintendent to annually notify the Department of any school administrators who receive two consecutive unsatisfactory evaluations and to notify the Department of any school administrators who are given written notice by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34, F.S.</li> </ul> |
| District Self-  | <u>Monitoring</u>  |
| The district se | elf-monitoring includes processes to determine the following:  |
|                 | Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.  Evaluators provide necessary and timely feedback to employees being evaluated.   |
|                 | Evaluators follow district policies and procedures in evaluation system(s). The use of evaluation data to identify individual professional development. The use of evaluation data to inform school and district improvement plans.  |
