School District

Science and Social Studies Instructional Materials Review and Adoption

The Levy County School District is adopting new instructional materials for Science and Social Studies for use beginning in the 24-25 school year. It is the responsibility of the school district to provide adequate instructional materials for students to support their educational needs. The District Adoption Team, composed of teachers, administrators, district personnel, and parents, have evaluated all instruction materials in the following areas: content, accessibility, teacher planning, assessment, differentiated instruction, and technology. In addition to the previous opportunities for input held in October 2023, parents are invited to review the materials using the links provided on our district website levyk12.org and provide public comments at the **Levy County School Board Meeting on January 23, 2024 @9:00am at the district office.**

For more information or questions regarding science instructional materials, please contact Michelle Eastman at 352-486-5231 or michelle.eastman@levyk12.org. For more information or questions regarding social studies instructional materials, please contact Jaime Handlin at 352-486-5231 or jaime.handlin@levyk12.org.
